FRIENDS—Harry Monroe, Upper Klamath Lake boat works operator has befriended four wild geese so that they eat right out of his hand.

SKI SCHOOL FOR SMALL FRY—Instructor Hannes Schneider demonstrates side-step for youngsters attending Eastern Slope Ski Club junior program at North Conway, N. H.

COMING HOME — After five years of Navy service, three of which were spent overseas, William J. Custer, 24, is being discharged and will return to his home in Bonanza. Custer is the son of Mrs. Robert Davison. Four years as Radioman first class, young Custer spent three years in Guam, Tokyo, Korea and Honolulu. He enlisted at the age of 19.

Red Bluff Record Sale Tomorrow

The Sale Committee for the Tehama County Cattlemen's Association is aiming high this year in their preparations for the eleventh annual Red Bluff Bull Sale. The hoped for "bulls-eye" is the sale of 525 service age range bulls at the 1952 renewal of the western cattle classic at the Tehama County Fairgrounds.

"A bull sale of these proportions never has been attempted before in this country, even at Red Bluff," said Sale Committee Chairman, Charles Stover of Red Bluff, in announcing the tally of the consignments. "With over 800 top animals offered, it was a tough job sifting them down to 525, which is all our barn space will allow this year."

"At the present time," Stover continued, "the count stands at 420 Hereford bulls, 80 Shorthorns and 25 Aberdeen Angus."

Angus bulls will be making their first appearance at Red Bluff as an added feature of the 1952 Sale. Stover said the rapid popularity gain the breed has shown in recent years with Pacific cattlemen led to the decision to include them on the 1952 roster.

Stover emphasized quality would not be sacrificed for increased numbers. All bulls entering the sale ring must grade a strong "2 minus" or better by the University of California's Record of Performance grading system.

Recognized breeders from all parts of the West annually consign bulls to the Red Bluff Sale. This year, Oregon, Washington, Montana, Idaho, Nevada, Utah and Arizona, as well as California, will be represented by 104 consignors

Nematodes? New Bulletin Shows Where

A simple test to determine whether nematodes are present in fields can be made by any grower, Farm Advisor Ken Baghott of the University of California Agricultural Extension Service, Tulelake points out that such information is important, especially ahead of the growing of sweet potatoes, and other crops attacked by the pests.

The test is made with carrots purchased with tops, these carrots being carefully inspected to make certain that they do not have knots which indicate they were grown in nematode-infested soil. Then, these carrots are planted about 100 yards apart in the field to be tested. The carrots send out an extensive fibrous root system, which soon develops knots indicating nematode damage if the field is infested. A good time to make this test is in the spring when the soil warms up.

Eggs, Odors Don't Mix Keep Apart

Eggs absorb odors quite readily, so egg storage rooms should not contain kerosene, onions, apples or other odorous items, according to Ken Baghott, University of California Farm Advisor.

The farm advisor also recommends keeping egg room temperature below 60 degrees F, and humidity between 80 and 85 percent, in order to preserve high egg quality. Eggs should be cooled soon after laying. When the temperature in the laying house is over 70 degrees eggs should be gathered four times a day. Put the eggs in a wire basket and take them directly to a cool egg room.

Eggs should not be put in cases until they have cooled. They require about 12 hours to cool in the case, but only about 5 hours in a wire basket. Keep the empty cases and fillers in the egg room so they will be cool and moist.

SUICIDES EVERY DAY

SAIGON, Indochina (AP) — There seems to be suicides every day in Saigon or the all-Chinese twin city of Cholon. Newspapers carry little paragraphs headlined simply: "Les Suicides." The items recount how youths, usually from 18 to 25, take their own lives, usually by drinking poisonous solutions. But they never say why.

Grange Offers $10,000 Contest Prize Awards

Elmer McClure, Master of the Oregon State Grange, cooperating with the National Grange and the American Plant Food Council, today announced a nation-wide essay contest on the subject of "Conservation Farming for Abundant Living," ending Mar. 31, 1952, with prizes totaling $10,000, being offered to young men and women through 20 years of age.

Secy. of Agriculture Charles F. Brannan will be chairman of the National Board of Judges which includes Dr. Hugh H. Bennett, of the Soil Conservation Service, USDA; Miss Lois M. Clark, Assistant Director, Division of Rural Service, National Education Association; Dr. R. Frank Poole, President, Association of Land-Grant Colleges and Universities; Dr. W. T. Spanton, Chief of the Agricultural Education Service, U.S. Office of Education; Miss Jennie Williams, President of the National Home Demonstration Council; and Dr. M. L. Wilson, Director of Extension Work, USDA.

The following national and state prizes are offered by the American Plant Food Council:

National—First Prize, $1,000; Second Prize, $500; Third Prize, $400; Fourth, Fifth and Sixth Prizes, each $300.

State—First Prize, $100; Second Prize, $50; Third Prize, $25.

Contestants must submit their entries to the nearest Subordinate Grange. The winning essay in each Subordinate Grange must be sent to State Grange Lecturer, Beulah Moore, at 1135 S. E. Salmon St., Portland 14, Oregon, postmarked not later than April 25, 1952.

Entries must not exceed 800 words and will be judged on the basis of 40 points for practical application of subject matter, 30 points for effectiveness of presentation, 20 points for originality, and 10 points for spelling, punctuation and grammatical correctness.

New Course On Resources Set At OSC

OREGON STATE COLLEGE—A new department of natural resources, which will be the first of its type in any college or university in the United States, has been approved by the state board of higher education as a new major course in the Oregon State College school of science.

The four-year course has been planned to bring together the entire study of natural resources and scientific knowledge gained through such courses as those in soils, range management, forestry, rocks and minerals, fish and wildlife, zoology, engineering, botony, chemistry, geography, economics and political science.

The department will have two major functions, according to Dr. J. G. Jensen, who will be in charge of the work. These are the training of students as "generalists" in natural resources and research and public service such as gathering information useful to people of Oregon and the northwest, preparation of natural resource studies and sponsoring meetings such as the Institute of Northwest Resources.

In addition to providing a sound college education, the program in natural resources is designed to develop comprehension of the inter-relationships and utilization of resources, to provide specific knowledge of the extent, distribution and problems of present-day national resources, and to enable students to interpret and correlate knowledge acquired in the sciences and technology of natural resources.

The curriculum of the new major draws most of its requirements from courses and facilities already available to students in such major schools as agriculture, forestry, engineering and science. It will provide both undergraduate and graduate work leading to bachelors and masters degrees.

The natural resources offerings will also provide service courses for students majoring and specializing in such fields as soil conservation, wild life management and forestry.

Farm Output Goals Set High for '52

Farm production goals for '52 aim higher than ever.

Farmers are being asked to increase farm output sharply above that of a year ago; about 50 per cent more than before World War II, according to E. Harvey Miller, state production and marketing administration committee chairman. First importance in Oregon, he adds, is production of feed grain to keep apace with expanding livestock numbers.

Barley and oats are Oregon's principal feed grains. Eastern Oregon is where most of the feed barley is produced, but this year a shift to wheat is noticeable. Farmers there have planted about 953,000 acres of fall wheat, a 14 per cent jump as compared with the year before. The state's 1952 wheat goal is 1,060,000 acres and will be met and surpassed easily unless a large acreage normally planted to spring wheat is shifted to other crops.

The state PMA committee, Miller explains, is asking for 450,000 acres of feed and malting barley with little likelihood that it will be grown. Barley seedings in 1951 totaled 362,000 acres. Miller warns that if the shift to wheat continues, the barley acreage this year will be even less than that of a year ago.

The shift to wheat, says the bureau of agricultural economics, is being felt in the Willamette valley where twice as much wheat was seeded last fall as was the case in 1950.

On the national level, no goals are being set for livestock production because the number that can be raised is tied in directly with the prospective feed supply. The national barley goal is 290,000,000 bushels on 12,865,000 acres compared with 254,668,000 bushels harvest from 10,840,000 acres planted in 1951—a 14 per cent increase over 1951 production; a 19 per cent acreage increase.

Miller explains that Oregon normally does not produce large quantities of corn but produces about 8,000,000 bushels of oats, mostly in combination with seed crops. A shift from spring wheat to barley in eastern Oregon and barley planted on winter killed vetch land in western Oregon offer major opportunities for increased barley production.

PREMATURE FUNERAL

SAIGON, Indochina (AP) — The newspaper, Le Journal D'Extreme Orient, has ust reported a "resurrection" in the all-Chinese twin city of Cholon. It said a 70-year-old Vietnamese woman "died" there recently and friends and relatives gathered in a mortuary to recite prayers. But, added the journal, the woman suddenly raised herself from the funeral couch. As far as is known, she's still living.

LEGAL NOTICE

NOTICE OF FINAL SETTLEMENT

Notice is hereby given that the undersigned administratrix of the estate of Aini Ware, deceased, has filed in the Circuit Court of the State of Oregon for Klamath County the final report of her administration of said estate and the Court has appointed the 13th day of February, 1952, at the hour of eleven o'clock in the forenoon of said day as the time and the Court-room of said Court as the place for hearing and settlement of said final report.

Done January, 16th, 1952.

Zelma Sullivan, Administratrix of the estate of Aini Ware, deceased.

Henry E. Perkins, Attorney for said estate, 731 Main St., Klamath Falls, Oregon.

J-16-23-30 F-6-13 No. 857

NOTICE OF FINAL ACCOUNT
IN THE CIRCUIT COURT OF
THE STATE OF OREGON
FOR THE COUNTY OF KLAMATH

In the Matter of the Estate of JAMES FRANCIS, Deceased.

Notice is hereby given that I have filed my final account as administrator of the estate of James Francis, deceased, and that the Court has set Feb. 28, 1952, at the hour of 10:00 A.M., as the time for the hearing of objections to said final account and settlement thereof.

Dated this 23rd day of January, 1952.

J. C. O'NEILL, Adm.

J. C. O'NEILL, Attorney for Adm.

J-30 F-6-13-20 No. 869

SUMMONS
IN THE CIRCUIT COURT OF
THE STATE OF OREGON
FOR THE COUNTY OF KLAMATH

MABEL IRENE PENNINGTON, Plaintiff,

vs.

RAYMOND AMBROSE PENNINGTON, Defendant.

To Raymond Ambrose Pennington:

IN THE NAME OF THE STATE OF OREGON, GREETING:

You are hereby required to appear and answer the complaint filed against you on or before February 13, 1952, and if you fail to so appear and answer, for want thereof, plaintiff will apply to the Court for the relief prayed for in her complaint against you, to-wit: for divorce from you on the grounds of cruel and inhuman treatment and personal indignities and for custody of the minor children named in plaintiff's complaint. Your attention is specifically directed to the complaint on file in the above entitled cause.

This summons is served upon you by publication pursuant to an order of the Honorable David R. Vandeberg, Judge of the above entitled Court, said order being dated January 11, 1952, and by publication thereof for a period of four consecutive and successive weeks (4 insertions). The date of the first publication is January 16, 1952, and the date of the last publication is February 6, 1952.

J. C. O'NEILL
Attorney for Plaintiff
Suite 1, Melhase Building,
Klamath Falls, Oregon.

J-16-23-30 F-6 No. 856

NOTICE OF SHERIFF'S SALE

By virtue of an attachment execution duly issued by the Clerk of the Circuit Court of the County of Klamath, State of Oregon, the 1st day of February, 1952, in a certain action in the Circuit Court for the Said County and State, wherein, Owens Adjustment Service, Inc., as Plaintiff recovered judgment against Lawrence J. Sisley and Bernice Sisley, his wife, for the sum of $15.00 with interest thereon at 6 per cent per annum from April 18, 1944, until paid; for the sum of $172.24 with interest thereon at 6 per cent per annum from September 3, 1949, until paid; for the sum of $6.50 with interest thereon at six per cent per annum, until paid, as appears by the transcript of the judgment and proceedings filed in the office of the Clerk of the Circuit Court of the State of Oregon, for the County of Klamath on the 12th day of December, 1949, and the further sum of $2.00 costs accrued herein.

Legal Notice

NOTICE OF HEARING ON
FINAL ACCOUNT

NOTICE IS HEREBY GIVEN that I have filed my Final Account, Report of Executrix, and Petition for Distribution in the matter of the estate of Italo Ferroni, deceased, and the Circuit Court has set Thursday, the 6 day of March, 1952, at the hour of ten o'clock A.M. in the Circuit Court Room of the Klamath County Court House, Klamath Falls, Oregon, as the time and place for hearing of exceptions and objections to said Final Account, if any there by.

PAMELA FERRONI, EXECUTRIX OF
Estate of ITALO FERRONI,
Deceased.

EDWIN E. DRISCOLL

Attorney for Estate

F-6-13-20-27 M-5 No. 883

NOTICE OF HORSE ROUNDUP

This Notice will, after February 7, 1952, supersede the Notice published January 30 and February 4, 1952, in the Medford Mail Tribune, Ashland Tidings, Siskiyou News, and Klamath Herald & News. The horse roundup will begin February 11, 1952, and will be conducted pursuant to the provisions of Chapter 211, Oregon Laws, 1951. All livestock owners, the general public, Jackson County, Klamath County and the State of Oregon, are hereby notified that Mr. Louis V. Blessig of Montague, California, is designated by the Bureau of Land Management as authorized agent in charge of a roundup of horses running at large on the public lands in the Jenny Creek-Klamath River area in Jackson and Klamath Counties, Oregon, described as follows:

Beginning at the point where Oregon State Highway 66 crosses Jenny Creek in Sec. 4, T. 40 S., R. 4 E., W.M.; thence easterly along said Highway 66 to the point where said Highway 66 crosses Klamath River in Sec. 31, T. 39 S., R. 7 E.W.M.; thence southwesterly along said Klamath River to the Oregon-California State boundary line in Sec. 3, T. 41 S., R. 6 E., W.M.; thence west along the state boundary line to Jenny Creek in Sec. 17, T. 41 S., R. 4 E., W.M.; thence northerly along said Jenny Creek to the point of beginning.

All horses collected in the roundup will be held for the period required by Chapter 211, Oregon Laws, 1951 at the old Ward Ranch in Sec. 30, T. 40 S., R. 5 E., W.M., near Pokegama. Any person who can establish ownership of any such horses may retake possession of them upon payment of the established roundup charge of $20.00 per head.

James M. Linne
Forester
City Hall
Medford, Oregon

F-6-7 No. 878

Notice is hereby given that I will on the 5th day of March, 1952, at the Court House of the County of Klamath, in Klamath Falls in said County, at 10 o'clock in the morning of said day, sell at public auction to the highest bidder, for cash, equity in the following-described property, to-wit:

Northwest Quarter-Northwest Quarter, Section 5, Township 38, Range 9 EWM. Also, - Assesor Lot No. 1759-3 in lot 3 described in Deed Volume 147, Page 279, 2.12 acres in Section 31, Township 37, Range 9 EWM.

Taken and levied upon as the property of the said Lawrence J. Sisley and Bernice Sisley, his wife, or as much thereof, as may be necessary to satisfy the said judgment in favor of The Owens Adjustment Service, Inc., Plaintiff, against said Lawrence J. Sisley and Bernice Sisley, his wife, with interest thereon, together with all costs and disbursements that have or may accrue.

Dated at Klamath Falls, Oregon February 1, 1952.

J. M. BRITTON
Sheriff of Klamath County Oregon
BY: DORA GODDARD Deputy
