**Vegetable Growing Kids Get Chance At Awards**

Boys and girls have a chance to win a national award with their vegetable crops this year. Farm Advisor Ken Baggett announced today that entries are now being accepted in the 1952 National Junior Vegetable Growers' Association contest.

Entrants must have an interest in vegetable crops and be between the ages of 12 and 21. They must have completed at least one year of garden or vegetable work which may be a 4-H Club project.

The contest is in two parts — vegetable production and vegetable marketing. Each entrant who submits an enrollment card will receive a text book on marketing. Marketing study report must be completed by the first of October, and a report of the project by the first of November.

Contest awards consist of a grand championship scholarship of \$500 for the national winner, a regional award of \$200 to the contestant in each of the four regions of the United States, 33 sectional awards of \$100 each, and several state awards of \$10.

Dr. P. A. Minges, truck crops specialist for the University of California Agricultural Extension Service, is state chairman for the NJVGA. Any interested young people not belonging to the 4-H Clubs, contact Dr. Minges at the College of Agriculture, Davis, and receive a contest application by mail. 4-H Club members may make application through the local extension service office, or by the first of October, their vocational agriculture instructors.

**Scouts Mark Anniversary**

PORT KLAMATH—Most gratifying to leaders of Scout Pack 34 of Port Klamath was the large attendance at the meeting held in the C.I. clubhouse here on Friday evening, when a special entertainment was held in celebration of the 42nd anniversary of the organization of the Boy Scouts of America in 1910.

A potluck dinner was served at six o'clock in the traditional Ft. Klamath style, the tables laden with delectable food of every conceivable variety, a feature of the feast being a large cake which was appropriately decorated in keeping with the birthday motif of the Boy Scouts, the masterpiece being the handiwork of John Acomb of Ft. Klamath.

Following dinner, a short meeting was held, conducted by Scoutmaster Frank Strahan, Assistant Scoutmaster Wilbur Hescoek and Assistant Cubmaster Bert Gray. Victor Sisson of Klamath Agency, who is Neighborhood Commissioner of the scout pack, was unable to be present, as he attended the Society of American Foresters' meeting held in Klamath Falls the same evening. His wife and two small daughters represented the Sisson family at the meeting, however.

The meeting was opened by all standing and repeating the pledge of allegiance to the flag. With appropriate ceremonies, two new cub scouts were admitted to the cub pack, James Jenkins transferring his membership from Sharp Park, Cal., and Bradford Lagomarsino joining also, as a new member.

In charge of these scout ceremonies was the Assistant Cubmaster, Bert Gray, who also presented registration cards to all members of the cub pack. Scout leaders and committee members were given their 1951 registration cards by Scoutmaster Wilbur Hescoek, who also presented the 1951 Troop and Pack charters to Mrs. Harold Wimmer, president of the Civic Improvement Club, which is the sponsoring organization of the three scout groups as well as the Horizon division of the Campfire girls. The charters will be framed and hung on the wall of the main room of the clubhouse. Scoutmaster Strahan announced that the 1952 charters and registration cards will be received in time for presentation at the next regular meeting of the pack on Friday evening, Mar. 7th, to which everyone is invited.

At the close of the business session, a short program was presented under the direction of Mrs. James Van Worrer and Mrs. Frank Strahan, leader and assistant leader, respectively, of the Blue Bird group of the Campfire girls, which is sponsored by the Ft. Klamath Grange. First on the program was a comical number, "Dr. Sawbones' Operation", presented by Boy Scouts in pantomime behind an illuminated sheet drawn across the stage, narrated by Boy Scout Carson Bronson. Next was a puppet show, an original and very clever number portrayed by five little Bluebirds, using puppets which they had made themselves. Last was the Cub Scouts' number, "Rob-in Hood", the amusing skit bringing the entertainment to a conclusion.

**KFPA Group Congratulated**

The Klamath Forest Protective Association, employees and Supervisor Hal Ogle, have been congratulated on the excellent work of the association in fire prevention during 1951, by Albert Weisenberger, executive secretary of Keep Oregon Green.

Congratulations also went to J. V. LaClair of the local KOG committee. LaClair's committee, Weisenberger said, distributed more fire prevention material than any of the other 36 similar groups in the state.

The 1951 forest fire record probably will be a record for the province by a special fire prevention plaque. It had only 35 man-caused fires during the season, five started by logging and 30 from campfires.

**Agronomy Field Day Set May 16**

The spring Agronomy Field Day at the University of California College of Agriculture, Davis, will be on Friday, May 16. Plans are being made to accommodate a crowd of even more than the 700 persons who attended this past year.

Featuring the program will be actual inspections of field crops tests with different varieties and management practices. In addition, talks on recent agronomy and livestock developments will be made.

The complete program is being developed under Fred N. Briggs, chairman of the University agronomy division, and Victor Osterlin, extension agronomy specialist and chairman of the program committee. Copies of the program will be available later at the farm advisor's office in Tulelake.

**Adams Cows Make Records**

Peterborough, N. H.—Two registered Guernsey cows, owned by Dr. F. C. Adams, Klamath Falls, have completed official Advanced Registry records that were supervised by the Oregon State College and reported to The American Guernsey Cattle Club for approval and publication.

On two-times daily milking for a ten-month period, Adamsdale Ambassador Colleen, a Senior two-year-old, produced 8,953 pounds of milk and 423 pounds of butterfat. She is the daughter of the outstanding Guernsey sire, Adonair Farms Ambassador, that has 21 sons and daughters in the Performance Register.

Coyoso Coronation Doll produced 8,882 pounds of milk and 569 pounds of butterfat milked two times daily for a ten-month period, as a six-year-old. "Doll" is the daughter of the outstanding Guernsey sire, Coronation Fame, that has 19 sons and daughters in the Performance Register.

**Sprinkler System Spreads Water**

Where available water is scant, it will go further if applied through a sprinkler irrigation system, authors of a new northwest cooperative extension publication, "Sprinkler Irrigation," point out.

The publication, Pacific Northwest Bulletin number 3, is a joint effort of the extension services in Oregon, Washington and Idaho. Copies are available from county extension offices in any of the three states.

The bulletin discusses pros and cons of sprinkler irrigation, pointing out some of its advantages as well as the shortcomings. Sprinklers, couplings, laterals, screening and desilting, and pumping plants are discussed in some detail.

Among advantages pointed out for sprinkling are: land leveling is not necessary; available water is put to better use; drainage problems are reduced; erosion is kept to a minimum; and ditches and ditch cleaning are eliminated.

On the other hand, the publication says sprinklers are high priced in terms of the initial investment; power costs are continuous; moving laterals is a disagreeable and time-consuming job; and wind affects water distribution.

**Armed Forces' Waste Rapped**

WASHINGTON (AP)—Congress bombarded the Armed Forces Tuesday with charges of "needless and useless waste" of money and called on military top brass to fix the responsibility.

A House Armed Services subcommittee continued its inquiry into Armed Forces buying practices.

Rep. Lyle, D-Tex., declared the United States may harm itself more than its potential enemies by indulging in "a military spending spree without regard to basic economic or economic capabilities."

**BUDGET CUT**

He inserted a statement in the Congressional Record saying several billion dollars may well be eliminated from President Truman's \$85,400,000,000 budget by re-considering military spending.

Lyle suggested that particular scrutiny be given huge construction projects.

The House subcommittee sought particularly for a satisfactory answer to why the various services have no standard catalogue of items. This, the congressman said, causes competitive buying between the services, resulting in duplication and clogged supply lines.

**NO ALIBIS**

"We are not interested in generalities, propaganda, alibis or evasion," Chairman Hebert, D-La., said Monday. "We want direct and responsive answers."

He added:

"In a day when the dollar can only purchase approximately 53 percent of its value, we can not tolerate a system which gets only 20 percent return of that same dollar because of needless and useless waste."

**Police Killed By Commies**

SINGAPORE (AP)—The British superintendent of Malayan police and two other police were killed Tuesday by a Communist ambush in a remote area of Selangor.

R. H. Jesse, 32, the superintendent, was traveling with a party of European government officials when their semi-armored truck was stopped by a felled tree.

Twenty full armed terrorists, lobbed grenades into the truck, killing the police.

A British police lieutenant and a Malayan corporal were wounded seriously.

The attack was similar to the one in which Sir Henry Gurney, British high commissioner, was killed last Oct. 6.

**Meat Violation Jury Picked**

PORTLAND (AP)—A jury was being picked in Federal Judge Gus Solomon's court, Tuesday to hear the government's case charging that the Fred Meyer chain stores violated price regulations by up-grading meat.

The stores, as a corporation, denied the charge.

The government lists 23 separate incidents which it says involved marking meat at a ceiling price set for better grades.

Two meat department managers also have been charged but their cases will go to court later.
