

BLOCK BUSTING — This block of homes on Seattle's Queen Anne hill are becoming a jumbled mass of wreckage as continual slides move earth under and around them. The front yards and street have sunk four feet since the first of the year exposing sewer pipe. Two of the homes are still occupied although City Engineering Department expects homes to be completely demolished eventually.

New Income Tax Probe Looms; Sleuths Sought

By WARREN ROGERS, JR.
WASHINGTON (AP)—While one Senator bemoaned a lack of "ace investigators," another had touched off events which mushroomed today into what might be a new income tax probe.

Chairman Ellender, D-La., of the Senate Agriculture Committee told a reporter his group has named Paul J. Cotter to head an inquiry into the government's farm price support program but said he was having difficulties assembling a staff of investigators.

Williams said Thursday the Indianapolis Brewing Co. got a \$35,000 tax rebate on top of settling for \$4,500 a \$636,000 claim for back federal taxes. This, he said, came after Numan got permission in 1949 to handle the company's tax appeal.

In the wake of Williams' speech, here's what happened:

1. The Revenue Bureau said Numan, after resigning in June 1947, sought and obtained permission to represent the brewery and eight other firms with tax troubles.
2. Sen. George, D-Cal., announced his Senate Finance Committee was advised by the bureau that all nine cases had been turned over for prosecution to the Justice Department.
3. Rep. King, D-Calif., announced his House Ways and Means subcommittee, now delving into income tax scandals in San Francisco, will call Numan as a witness for a public airing of the nine cases.
4. Sen. Williams said he will in-

ist that Numan repeat under oath his denial of involvement in the Indianapolis Brewing Co. case.

McClure, Pope ONPA Speakers

EUGENE (AP)—The chief of the Army psychological warfare division will be the guest speaker at the Oregon Newspaper Publishers Association banquet here Friday night.

SEATTLE (AP)—Continuing tests since a dog bit 12 school children in Bingen, Klickitat County, Feb. 8 have shown no signs of rabies, Dr. W. P. Giedt, head of the State Health Department laboratory, said Monday. The tests will be continued for a total of 30 days, however, as a precaution. The tests are made on mice.

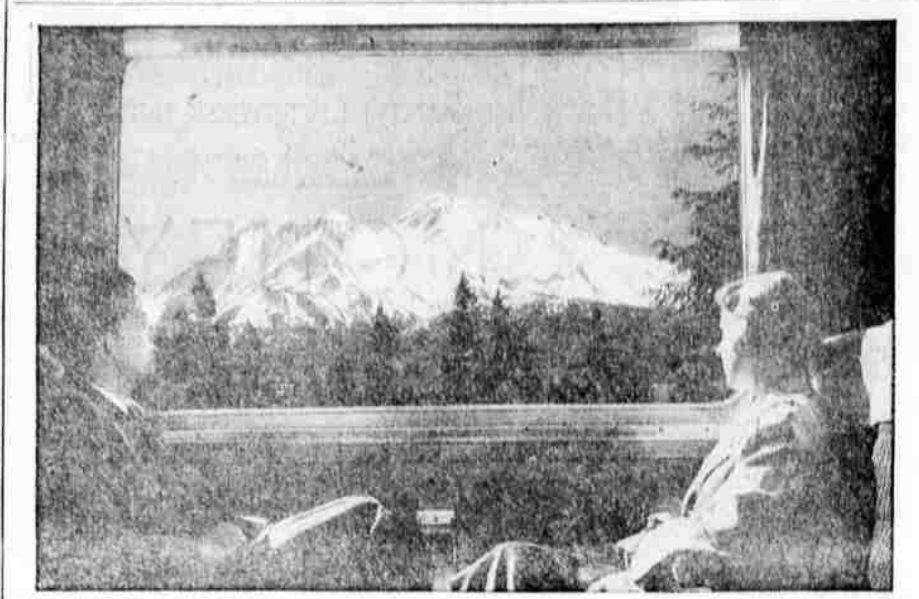

Clark Blair, assistant manager of Sears, is in charge of appliance and kindred line displays, scheduled for the armory Friday night in conjunction with the fashion show. Fredrickson is heading up the fashion show planning.

Tickets, at 50 cents per person, will be sold the show and proceeds will be for the benefit of youth activities. Gene Bailey of Underwood's is finance chairman.

untangle conflicting testimony. At the core is assistant U.S. Attorney Charles O'Gara's action last spring when he took tax matters before a grand jury without consulting his superior.

Barber Poses U. N. Problem

NEW YORK (AP)—The United Nations has a new problem—a Third Avenue barber. It may take an act of Congress to end their dispute.

The U.N., already grappling with such vital issues as Korea and world disarmament, now must contend with Tom Fucarino—occupation, barber—address, Third Avenue, New York, U.S.A.

Fucarino, whose shop is in the East Side area of the new U.N. headquarters, went to the county clerk back in 1949 and registered the name of the shop as "United Nations Barber Shop."

But just a few days before the registration, the U.N. General Assembly adopted a resolution against the use of its title for commercial purposes.

The barber didn't know about the U.N. resolution, and the world organization didn't know about Fucarino. The county clerks office apparently was in the dark, too.

Then a couple of weeks ago someone reported the barber to V. J. G. Stavridi, a U.N. official.

Stavridi promptly dispatched a letter to the Third Avenue barber requesting that he "cease using the name."

But Fucarino, who has been barbering around New York for 32 years, said he had no intention of changing his shop's name until some one proves he is breaking a law.

Heart Fund Drive Slow

The Klamath County Heart Fund drive is lagging far behind its scheduled quota, Chairman Norm Wilson said today.

The drive has been underway two weeks and has reached the half way point. Only \$150 of the \$3000 goal has been attained thus far, Wilson said.

"Garages have been the best donors so far, Wilson said they had averaged \$5 per garage to date, though there have been several who have yet to be contacted.

"If every man, woman and child were to individually give one dime, Wilson pointed out, the Klamath County quota would overflow the brim."

Wilson said the Heart Fund canisters, heart shaped, were not being given any donations to speak of. In the past two weeks they have averaged less than 50 cents a piece.

The chairman said that one of the greatest benefactors of the heart fund is research on rheumatic fever, a devastator of children's health. He pointed out that heart trouble is the greatest of the nation's killers—killing more persons in a year than the next five top killers combined.

PHOENIX, Ari. (AP)—A Merlin Ore. man died here Saturday 20 minutes after an automobile accident in which he was not injured.

He was John Voight, 66. He collapsed while discussing the mishap which occurred while he was pulling out of a parking space. He died later at a hospital.

Sparks Heads Spring Show

"Everything New for '52" is the theme for this year's Spring Opening, March 13 and 14. It was announced following a meeting of the event, and Bob Fredrickson, executive editor of the Louisville, Ky., Courier-Journal. He will be the Eric W. Allen memorial lecturer. Pope is chairman of the American Society of Newspaper Editors' Committee on Freedom of Information.

SEATTLE (AP)—Continuing tests since a dog bit 12 school children in Bingen, Klickitat County, Feb. 8 have shown no signs of rabies, Dr. W. P. Giedt, head of the State Health Department laboratory, said Monday. The tests will be continued for a total of 30 days, however, as a precaution. The tests are made on mice.

No Place for a Heavy Foot!

You'd find it out, in a mile or so, even if we failed to tell you. But we think it's best if we tell you now—
—you must treat the accelerator with special respect when you drive the Golden Anniversary Cadillac!

Down under the hood of this gorgeous car is the most powerful engine ever used in standard American production.

So take it easy—wherever you drive.

Don't use that power to bolt away when the light turns green—and other cars have their ways to make in the traffic lanes beside you. And never use it for unnecessary speed, or for dominating the highway.

Use it, instead, for the thing it was put there for—
—use it to give you that easy, floating, comforting ride which can come only when your engine is "loafing," and most of its power is in luxurious reserve—
—use it to give you that "shot ahead" when an opening shows in the traffic line—or when your safety calls for a blast of power—

—use it for a thrilling sense of mastery over car and time and space—
—use it, in short, for happiness and luxury—and for adding satisfaction to every mile you drive.

As you would expect, this amazing performance is but one of the wonderful virtues that have been added to the Golden Anniversary Cadillac.

There is marvelous new beauty—inside and outside. There is a wholly new type of power steering—available as optional equipment at extra cost. And there are literally scores of refinements and improvements of vital importance.

For its "year of years," Cadillac has certainly built its "car of cars."

Come in and see it—whether you feel you are ready for a Cadillac or not. It's an inspiration to inspect it—and an experience to drive it.

But if you do drive it, please remember—it's no place for a heavy foot!
