wednesday okayed the building of three new multi-million dollar paper mills which will boost this countrys output of newsprint by more than 20 per cent.

The agency issued certificates of necessity—which provide for federal tax benefits—to aid the construction of the projects.

They are:

Bowaier Southern Paper Corp., Charleston, Tenn., \$51,500,000; Bouthland Paper Mills. Inc., Harty, Tex., \$15,040,000; and West Tacoma Newsprint Company, Stellacoom, Wash., \$5,000,000.

Despite DPA approval, the building work cannot be completed unless the government allots certain acarce materals now under priority to the project.

But since newsprint is high on the government priority list, approval is considered likely.

Total of the approved contacts was only \$213,000, as the commission in its one-day session took up no major projects.

The rejected offers were on Buker-Homestead Highway rock production and painting the Umpqua River bridge at Reedspot. Referred was the construction of a timber bidge over Calapooya Creek east of Sutherlin.
