

Heart Too Cold, Couple Split

LOS ANGELES (AP) — Mrs. Betty S. Holger, seeking a divorce from Fred Holger, professional ice hockey player, testified he is a man with a very cold heart.

"Cold as ice?" asked the judge. "It certainly is," Mrs. Holger replied. She was awarded a divorce Wednesday on grounds of cruelty.

Bureau Plans Land Drawing

BOISE, Idaho (AP) — The Bureau of Reclamation has announced a new pickle-jar drawing to be held some time after April 6 for 42 federally owned farm units on the Columbia Basin project near Othello, Wash.
The units, 135 miles southwest of Spokane and 185 miles southeast of Seattle are in the first blocks of Columbia Basin project land to receive irrigation water in 1953 from Potholes East Canal.
They vary in size from 51 to 115 irrigable acres and will sell for from \$708 to \$2,268, depending on size and quality of the land.
A public drawing will be held to determine which applicants shall have priority in buying the property from the government. Applications will be received from Feb. 21 to April 6 at the bureau's Ephrata, Wash., office.

Heroic Negro Identified

HOUSTON, Tex. (AP) — A 6 feet, 1-inch, 220-pound Negro who wrenched apart a steel truck cab to free the trapped driver doesn't think the exhibition of strength was so unusual.
"A man can do almost anything in an emergency," Charles D. Jones, 33, Houston, said.
Jones appeared at the scene of an accident near here Tuesday as flames threatened to sweep the wrecked truck. After trying apart the telescoped cab with his bare hands and back, Jones disappeared before anyone could thank him or get his name. He was identified Wednesday.

Airline Crash Toll Now 33

ELIZABETH, N. J. (AP) — The death toll in the Feb. 11 crash of a National Airlines plane here stands at 33.
Harold Brown, 26, of the Bronx, N. Y., a passenger on the doomed DC-6 that smashed into an apartment house, died Wednesday night at Elizabeth General Hospital.
Besides Brown, 28 of the Miami bound plane's 63 passengers and crew members perished in the tragedy—the third in Elizabeth within a two-month period. Four of the dead were residents of the apartment house.
The three plane disasters, all within a three-mile area of Newark Airport thus have taken a total of 19 lives.

Cutback Faces Home Articles

WASHINGTON (AP) — Production of most important household appliances faced a new cutback Thursday as the result of a 14 per cent reduction in their copper and aluminum supplies beginning April 1.
But the National Production Authority, in announcing the second-quarter quotas, said if the cut threatens to cause serious shortages in refrigerators, ranges, washers, vacuum cleaners and other such appliances, the NPA will provide relief.
At the same time it cut supplies of metals for household appliances, the NPA boosted the quotas to makers of less-essential items such as costume jewelry, cigarette lighters, venetian blinds, luggage, hardware and novelties.
Administrator Henry H. Fowler said this was being done to keep a number of firms from being forced to shut down.

Starvation

MANDALAY, Burma (AP) — Starvation has beset some 3,000 weavers in the Amarapura area. It has been reported. The reason given for the reported famine is the closing down of a number of handloom factories.

'Land-Taking Line' Pondered

WALLA WALLA, Wash. (AP) — Federal Judge Sam Driver was to decide Thursday whether courts have the right to set a "land-taking line" in condemnation actions in connection with construction of the McNary Dam on the Columbia River.
Thompson B. Elliott, a rancher, raised the question Wednesday as the government started condemnation proceedings against the present site of Walla.
Some of the land will be flooded by the lake behind McNary Dam.
Elliott accused the government of an "arbitrary land grab." He said the government does not need all of the land it is trying to acquire.
"The government will obtain the land and compete with private enterprise in attempting to entice industrial and commercial enterprises to lease tracts," he said.
Col. William H. Mills, Walla Walla district engineer in charge of McNary Dam construction, denied the charge. He said the government is buying only land "essential to protect the interests of the United States." Mills said some of the additional land is subject to flooding and the government is buying the remainder to protect the project and for public use.
Judge Driver delayed a decision until Thursday. However, before court closed he said he didn't believe the "courts should set a land-taking line for the Engineers. If the land is necessary, the court should not interfere."

Pipe Thawing Causes Fire

Thawing out frozen pipes resulted in a small blaze at the Little Drive-in next to the Roundup Tavern on S. 6th early Thursday morning.
City firemen reported the blaze was out before they reached there.
An overheated oil stove resulted in a call for firemen to 2345 Eberlein St. Wednesday afternoon, but no damage was reported.

Mickey Rooney Joins TV Ranks With Comedy Show

HOLLYWOOD (AP) — Move over Red Skelton, Milton Berle and Sid Caesar—here comes Mickey Rooney with a half-hour show of his own for the folks who gather around the parlor screen.
The Mick dipped his toes into the channels first when he appeared recently on TV, with Jimmy Durante. Then he'll next get ankle-deep with two straight dramatic shows from New York on Feb. 27 and March 17.
Soon he'll be in the swim completely with a weekly program that will be, according to Mickey: "All comedy, because I'm a comedian, not a leading man. There won't be any dancing and singing to speak of, and there won't be anybody to hold me down."
"People started saying I was a singer. But what's wrong with that? Look at Jerry Lewis. Comedy is comedy. You have to play it."

EVERYBODY'S GOING OVERBOARD... FOR DEAN MARTIN AND JERRY LEEWIS

It's not being boasted about in Hollywood, but there are now a million more television sets than movie seats in the U.S.
Latest count of video receivers: 15,700,000.
Movie theater seats: 14,685,150.
Put an average of three persons in front of those TV sets and there's a nightly video audience of 47 million!
Forty seven million bags of popcorn! No wonder theater owners are screaming about the sale of movies to TV and about "producers who are playing both ends against the middle."
