By JEAN OWENS
"Off to Medford!" The halls were literally empty this afternoon, as many groups of hopeful and school-spirited students traveled over the Greensprings to view their team in action with the Medford tornadoes on the Medford court.

The feeling is that this game is one of the main games of the season, and the Pels are really out to win, tonight and tomorrow night.

As far as support goes, the student body is behind them 100 per cent, and they showed their high spirits in a send-off rally this morning at 8:30 in Pelican court. Yells, led by the rally squad were loud and long.

Downpeople are taking a lot of interest in this weekend's games, for many of them are planning to make the trip also.

Not only is basketball a highlight of this week-end, but the KU wrestling squad will begin their vie for the state high school wrestling championship.

Included in this tournament, which will be this Saturday at Bend, are the high schools belonging to the district 4 group.

For several years now, the wrestlers have brought home the championship, it is suspected that they will bring it home again this year with the fine material and coach that they have.

Here's wishing both of these teams the best of luck!

Robbers Flee Gas Gimmick

VANCOUVER, Wash. (AP) — Tavern Proprietor Walter Lindstrom put his fountain pen tear gas gun to the test Thursday and averted a holdup.

He told Sheriff Clarence McKay that he and his wife were leaving their 10-mile Tavern, east of here on the Evergreen Highway, at 1 a. m.

As they stepped outside, they were confronted by three men. One flashing a gun, said: "This is a stickup. He demanded the tavern receipts Lindstrom was carrying in a cloth bag.

Instead of handing over the money, Lindstrom whipped out the tear gas gun and fired it into the gunman's face. The three men fled in an automobile, he said.

Winnie Says Gifts Right

LONDON (AP) — Prime Minister Churchill stoutly denies he did wrong by accepting free rides on steamships and trains during his January visit to the United States and Canada.

He said Wednesday in the House of Commons, "the gifts and services of the Cunard (Steamship) Company, as well as those of the United States and Canadian Railways, were not to ministers but to the British taxpayers." Conservative supporters backed him up with loud cheers.

He was hitting back at opposition claims that he failed in his duty by "the acceptance of gifts from commercial undertakings."

Laborite Col. G. E. C. Wigg had said that Churchill should have declined free trips.

The value of the boat rides given Churchill and Foreign Secretary Anthony Eden was 1,752 pounds (\$4,905). The train trips cost considerably less.

In New York, spokesmen for the New York Central and Pennsylvania Railways said all their bills had—or would be—paid by the British delegation to the United Nations or reimbursed by the Canadian Pacific Railway. Giving free transportation, they said, violates Interstate Commerce Commission regulations.

FRIDAY SATURDAY

BIBLICAL 'YOU ALL' — Mrs. C. L. Hobby of Dallas, Tex., looks up from her Bible after discovering another passage making use of the phrase "you all." Mrs. Hobby, after reading the Bible from cover to cover, wonders if people chided Paul for saying "you all" instead of "you Romans," but is sure the State of Texas is on the right side of God when she quotes from the 21st verse, 22nd chapter, Book of Revelation: "The grace of our Lord Jesus Christ be with you all."

U.S. Astonishes World With Production Marks

By SAM DAWSON

NEW YORK (AP) — Slipping stock prices and sagging commodity prices point up at least one thing—America's staggering ability to produce.

The raw material shortages (real and imagined) that developed after Korea are melting steadily. Abundance is succeeding scarcity in the nation's factories—just as it did long ago in the retail markets.

And signs increase that fast-expanding industry is approaching the point where it can supply all that civilian consumers will buy and military consumers need—with products to spare.

As a result, wholesale commodity prices have dropped lower, on average, than they were a year ago.

This has finally caught up with some retail prices, as store sales are slow.

Winning

Industrial capacity is licking inflation, business leaders contend. And stock market operators, worried by the easing in the prices of goods and the profits of business, recently have marked down the stocks of some companies.

On the London Stock Market, base metal shares were particular targets of bearish-minded traders—a sure sign that they, at least, think the days of shortages in lead, zinc and copper are numbered.

Metals men here also report forming at their mill doors for some of their products.

Makers of brass sheet and strip, for example, say demand is definitely off. Their products are used by auto, electric, hardware and plumbing industries. And output of these industries has been cut back—in some cases by government controls and in others by slackening sales.

Sheet and strip steel are in plentiful supply, steel officials say.

Man Killed Accidentally

ONTARIO, Ore. (AP) — Arthur Richards Colley, 47, of Route Two, Ontario, was accidentally shot and killed here Thursday morning by his brother Walter, 16, who was playing with a deer rifle in the woods of their home, Malheur County Coroner George Bechler said.

The accident occurred between 8-8:30 a. m. The boy died in an Ontario hospital at 9:30 a. m.

The coroner said Walter told him he did not know the gun was loaded. The second time he pumped the action, the gun fired a bullet that fatally struck the 17-year-old he said.

New NW Farm

WOODBURN, Ore. (AP) — A proposal to form a Pacific Northwest Farmers Union now is before the Oregon Farmers Union.

Delegates to the annual state convention referred the proposal, which came from Washington and Idaho members, to the executive committee Thursday.

Delegates also pledged efforts for a Columbia Valley Authority and reappointment of the state Legislature on a population basis. They opposed a state sales tax and daylight saving time.

Richard P. Moeller, Cornelius, was elected president without opposition. Directors named were Eldon Emerson, The Dalles, and Gus position. Directors named were El-Schlicker, Salem.

Anti-Knock Gas Curbed

C. F. Leithoff, Union Oil Company district sales manager here, says his firm has limited sales of high-test gasoline rather than lower the knock rating.

Leithoff said the government rationing of tetraethyl meant commercial gasolines would either have to lower the knock rating or ration sales and that his company chose the latter course.

In the overall picture, Leithoff said, California crude oil production is not keeping pace with the demand normally supplied from California.

Price ceilings on crude oil discourage the development of high cost production here on the coast, and product ceilings make it impossible for the refiner to import substantial quantities of higher cost crude oil from domestic or foreign sources.

Arnall Sworn In As OPS Boss

ATLANTA (AP) — Chubby, energetic Ellis Arnall was sworn in as the nation's price boss Thursday.

The 44-year old former Georgia governor promised a "Brass Knucks" fight on inflation when he took the oath as head of the Office of Price Stabilization.

President Truman appointed him to succeed Michael V. Disalle, who resigned to run for the United States Senate in Ohio.

The sugar-producing island of Antigua in the West Indies has some of the finest beaches in the Western Hemisphere.

Threat Seen For Alaska

WASHINGTON — Rep. Dorn (D-S.C.) believes that Russia has enough large air bases and heavy troop concentrations close to Alaska to enable them to land 100,000 troops on Kiska in the Aleutian Islands to attack.

In a House speech Tuesday, Dorn said he was told while in Alaska last year that 20 Russian planes were seen in one formation in sight of U.S. Territory in Alaska.

If Russia seized one airfield in Alaska, he said, Minneapolis, Chicago, Detroit and the industrial Midwest would immediately be open to atomic attack by the Reds.

The closest common boundary between Russia and the United States, he said, is in the Bering Sea off the coast of Alaska, and "we must make Alaska impregnable to attack."

Dorn said a Soviet attack on Alaska would immediately require the rushing of large numbers of United States troops and most of our Air Force to that territory; "and you would lose Europe and the Far East simultaneously."

He said there is no doubt in his mind that if Japan could land 5,000 men on Kiska, as it did in the last war, Russia could land 100,000.

Movie Mogul Spends Heavy Dough for Custom-Made tv

By ERSKINE JOHNSON

HOLLYWOOD (NEA) — LAUGH-TIME, IN U. S. A.

A movie producer who has consistently attacked television recently invited some close friends to his mansion for a peep at his first custom-made video set.

Surprised at his change of heart, the curious party showed up and were ushered into the kitchen.

"Cost me a grand to have it done this way," snickered the producer's friendliness, "but I believe this custom-made television set deserves a proper setting."

His guests are still goggle-eyed at what they saw.

The producer showed them a "shining new garbage can into which a complete television set with a 20-inch screen had been built.

Sign outside a Hollywood pet shop window filled with playful dogs and their puppies.

"Get a Long Little Doggie!"

John Lucas, the screenwriter who moved his daughter from one private school to another, because of the stern discipline in the first.

The new studies were easy, the teachers all graduates of psychology and extremely kind to the pupil, but she was unhappy and begged her mother to be returned to the first school.

"It's true, I didn't like being punished," she said, "but, honest, Pop, I can't stand any more of being understood."

Robert Q. Lewis took a blonde doll to see "Quo Vadis," then hailed a taxi to reach a night club a block away.

"Why couldn't we walk?" asked the beauty. "You're a young man."

"But I'm not as young as I was when I went to see that picture," groaned Lewis.

From the script of the new Abbott & Costello comedy, "Lost in Alaska."

Abbott: "This is the fastest dog team in the world."

Costello: "Why?"

Abbott: "It's the way I've arranged them. This dog is Prince, this one is Bob, this one is Spike, this one is Willie, this one is Lou."

Costello: "But what's that got to do with it?"

Abbott: "The lead dog's name is Gloria."

A maitre d' at a top Miami Beach night club cornered columnist Herb Rau the other night and begged:

"Please write something nasty

Monk Fickle, Man Stabbed

ELYRIA, O. (AP) — Miss Susan Bach, who told police she stabbed her boy friend because he alienated the affections of her monkey, was in the Loraine County Jail Thursday.

Miss Bach, 22, said "Zeke" the monk, had been given to her three weeks ago by another friend. Since then, she continued, Sherman Bigley, 30, has been getting most of "Zeke's" attention.

It all came to a head when they argued in a cafe near her home in Lorain. Later she stabbed Bigley in the hip with a pocket knife.

Bigley was treated at a hospital and released.

No charges have been filed.

Temperatures in Madrid, Spain, sometimes shift 50 degrees in a single day.

Charged With Spying

SALEZBURG, Austria (AP) — Two persons were charged here Thursday with spying on the U.S. Army on behalf of the Czechoslovak Communist regime. They were Heinz Blomom, a displaced person, and Margarethe Reyzek, an Austrian, who were arrested last year.

Taft, McCrary Battle On Television Program

NEW YORK (AP) — Sen. Taft accused Commentator Tex McCrary of calling him a liar on a television program Thursday night.

The audience boomed and cheered as the two men exchanged hot words over a passage relating to President Truman in Taft's recent book.

McCrary, who is backing Gen. Eisenhower for the GOP presidential nomination, sought by Taft, denied he had called Taft a liar.

The argument was on the DuMont Television Network program, "Author Meets the Critic."

Taft, who wrote the book, "A Foreign Policy for Americans," was the author. The critics were McCrary and Newspaper Columnist George Sokolsky.

In the book, McCrary said, the senator "was careless with the truth."

To back up his contention, McCrary said the senator was wrong when he said President Truman had not conferred with Congress on the Korean War for weeks after its outbreak.

McCrary said the President had talked with nine Democratic and five Republican senators "within 15 hours" after the conflict started.

Taft said his own statement was correct "because 14 senators are not the Senate of the United States" and added:

"You have called me a liar when you first opened this proposition, and I want you to withdraw that statement."

The studio audience broke out with boos and cheers and had to be quieted before the program could continue.

Resentment

Sokolsky said he resented "any one saying Sen. Taft is a liar."

McCrary, co-chairman of the Madison Square Garden rally for Eisenhower two weeks ago, then quoted Taft as saying in his book that "power without foresight leads to disaster."

McCrary said Taft had proclaimed himself for the Marshall Plan "once the Russian threat was apparent."

Adding that Taft had tried, sometimes successfully, to cut Marshall Plan funds from 1947 to 1950, McCrary asked:

"Senator, when did the Russian threat become apparent to you?"

"You are saying I was against the Marshall Plan," Taft replied, "I'm saying that I think it could have done as much good on half the money."

The senator said he had been for the Marshall Plan ever since the "extent of the Plan became clear."

Stassen Asks McGrath Probe

NEW YORK (AP) — Harold E. Stassen wants a congressional probe of what he calls "confidential reports" that Attorney General J. Howard McGrath has become a millionaire during his 12 years in public office.

Stassen's statement brought this reply from the Justice Department, headed by McGrath:

"The Attorney General said he has no desire and there is no necessity to comment beyond thanking candidate Stassen for the compliment."

Stassen, bidding for the GOP presidential nomination, spoke Thursday night at a National Republican Club dinner.

The former Minnesota Governor, now president of the University of Pennsylvania, said a telegram he sent last Monday to McGrath if "persistent confidential reports" were true that he had become a millionaire during the years of his public office holding.

Stassen said the telegram also said:

"If it is true, I further ask for a general description of the principal sources of your new wealth during these years."

Saying he had received no answer from McGrath, Stassen added:

"I therefore ask that an immediate congressional investigation be launched inquiring thoroughly into the accumulated wealth of the Attorney General and the source thereof."

Steel Strike Threat Holds

PITTSBURGH (AP) — The nation will escape a steel strike Saturday but a walkout may come March 23 unless a bitter contract controversy is settled.

Top strategy makers of the million-member CIO United Steelworkers did as expected Thursday in postponing their strike. They issued this warning:

"We hope that a strike may be averted but the patience of our members is running out."

The union decided to cancel its week-end strike threat in order to give the Wage Stabilization Board more time to recommend a settlement.

The union headed by Philip Murray, also president of the CIO, has been working without a contract since Jan. 1.

The USW's Wage Policy Committee, in unanimously adopting a resolution of the executive board to set back the strike date 29 days, said it expects the final settlement will be fully retroactive to the contract expiration date.
