Government Plans To Go Underground Described In Testimony As Red Leaders Face Trial

WASHINGTON (AP) — The Civil Aeronautics Board has ordered six major domestic airlines to provide genuine coach-service rates and schedules effective April 1 or to quit certain of their low-rate tourist operations.

The board has held that the carriers—authorized to provide coach service a year ago to meet competition from the low-rate non-scheduled airlines—in their schedules for the new period starting April 1 have failed either to reduce off-peak (night-time) fares to the specified four cents a passenger mile, or to put in enough seating capacity to qualify the planes as true coaches.

Here is how the order applies: To Capital, Eastern and Northwest Airlines generally. However, the more than four cents a mile fare of Northwest Airlines to which the CAB objects is for round-trip night flights between New York-Newark and Minneapolis-St. Paul. The board said Northwest's proposal to use 55-cent DC-4 planes, unrestricted as to hour of departure, was "not sufficiently high seating density" for this type of operation.

To United Western on their flights—between Los Angeles-Oakland-San Francisco and Portland-Seattle; and between Portland and Seattle.

United and Western's flights as well as some of those of Northwest specified fares of more than four cents per passenger mile for both night and day coaches," the board said.

"For technical reasons it was necessary to suspend the entire filing although the fare level was objectionable only as applied on night coaches.

"The remainder of Northwest's filing was suspended because the seating density was less than that which the board has tentatively determined was required for an economically sound coach operation."

LOS ANGELES (AP) — Communist underground plans, a national radio communications scheme and an atomic scientist—all contained in the testimony of a top ex-communist—have enlivened the trial of California's 15 party leaders.

John Lautner, eastern functionary of the party for 21 years, joined the defense Thursday with these disclosures from the witness stand.

The Communist party in 1948 and 1949 devised an intricate system for going underground in New York and elsewhere if and when the party was declared illegal.

It was directed by Robert Thompson, one of the 11 national leaders convicted of conspiracy in 1949. Thompson appointed Lautner to carry out the program in New York state.

John Williamson, another of the convicted hierarchy, discussed with Lautner the possibility of a national network of amateur radio stations and mobile transmitters to link the proposed underground.

Lautner was in charge of buying and distributing printing equipment under the plan.

In 1949, he said, he gave a mimeograph machine to Dorothy Healey, one of the present defendants, while she was attending a meeting in New York.

In 1941, one of his teachers at the party's National School for leaders was an atomic scientist, an assistant professor at Columbia University, known to Lautner only as "John."

"He was supposed to teach us one day," the witness testified, "but he said he couldn't make it because he had to go to the General Electric Laboratory at Schenectady to smash atoms."

When the prosecution called attention to the fact that this was four years before the Hiroshima A-bomb, defense counsel objected strenuously. But the testimony stood.

The Californians are charged with conspiring—with each other and with the convicted national leaders—to teach and advocate violent overthrow of the government.

Ching Battles Oil Strike

WASHINGTON (AP) — Federal Conciliator Cyrus S. Ching Friday promised "intensified" efforts to produce a compromise and head off a nationwide oil strike now set for March 9.

Ching won a week's postponement Thursday night from a coalition representing the CIO oil workers, a score of AFL and independent unions.

"He said a strike would have an 'immediate' effect on millions of auto drivers, would hamper or stop production at every big refinery in the country and would strike a blow at the defense program, now running at full speed.

A strike would affect oil fields, pipeline transportation and refineries.

Industry sources said the impact on the pipe lines would depend on which refining plants were closed and how long the strike lasted.

Xmas Tree Grading Asked

TACOMA (AP) — Western Washington and Oregon Christmas tree growers are considering a tree-grading program designed to keep poor trees off the market.

Growers' representatives meeting here Thursday named a committee to work on a program and report its findings at another conference in September.

U.S. Forester Martin Severson of Portland told the group shipping top-sided, scrubby and off-color trees to other states "degrades the good trees and gives this state a bad name."

Members of the study committee are Mark Heckman of Scappoose, Ore.; Charles Ladd, Salem, Ore.; Eugene Hofsted, Olympia; Floyd Addington, Puyallup; Walt Simmons, Shelton, Wash.; Clarence Stehr, Tacoma; and Ed Gildron, Port Orchard, Wash.

Zellerbach Stock Dividend Boosted

SAN FRANCISCO (AP) — Crown Zellerbach Corp. Friday increased its quarterly dividend to 75 cents a share from the 65 cents paid previously and declared an extra of 30 cents a share.

Both payments will be made April 1 to stock of record March 13 bringing dividends for the fiscal year ending next April 30 to \$1 a share compared with \$2.80 in the previous fiscal year.

Baby Survives Truck Incident

CLEVELAND (AP) — A parked four-ton truck rolled into a baby carriage Thursday, crushing it under the front wheels.

Inside the carriage was 10-week-old Pamela Bohman, St. Luke's Hospital attaches said the tot received no apparent injuries.

The driver, Edward Gates, 36, jumped from the rear of his truck and managed to push the child's mother, Mrs. Sylvia Lohman, 34, out of the vehicle's path.

Doctor Gives Sound Advice

DENVER (AP) — A doctor who gave up practice in Detroit to serve the people of a South Dakota town of 900 population gave a few simple rules Friday which he said would help a small town get and hold a doctor.

Dr. Kenneth Kalsch of Phillip, S. D., spoke at the Seventh National Conference on Rural Health.

He said a small town should:

- To obtain a doctor, provide adequate hospital facilities and personnel, office space for a doctor to rent and the type of town in which a person would want to live;
- To keep a doctor, treat him as a human being with the same mental outlook and physical stamina as yourselves, try working with him instead of against him.

Grandmother "Youngest"

OTTAWA, Ill. (AP) — Mrs. Daisy Johnson, 53, claims she is one of the nation's youngest great-grandmothers.

Mrs. Johnson, who is employed at an Ottawa drug store, became a great-grandmother Wednesday when her granddaughter, Mrs. Robert Bond, gave birth to a three-pound son.

Mrs. Johnson was married when she was 15 and was a grandmother when she was 32. Her daughter, Mrs. Roscoe Sarles, was 17 when she was married. Mrs. Sarles' daughter, Mrs. Bond, also was 17 when she was married.

Sex Offender Bill May Go To Voters

PORTLAND (AP) — A plan to give treatment to persons convicted of sex offenses may go before Oregon voters next November.

The plan was drawn up Thursday in the office of Mayor Dorothy McCullough Lee. It calls for indeterminate sentence law, a state institution for sex offenders and a psychiatrist to work with the courts.

After further conferences the plan may be offered on initiative petitions for a statewide vote.

Ship In Port For Costly Repair

PORTLAND (AP) — The Liberty freighter Augustin Daly limped back into Portland Thursday for \$10,000 in repairs of damage suffered in a downriver collision.

In heavy fog the Daly and the French motorship Bresle collided near Puget Island. The Bresle headed out of the river for Cuba, after undergoing inspection at Astoria.

HECKLING INSTRUCTIONS

KUALA LUMPUR, Malaya (AP) — Rent-payers in this Federation capital, determined that they shall be heard on municipal matters, are going to be taught how to heckle.

Padi A. Krishnan, chairman of the Selangor Rent-payers Association, said his group would support but one candidate in forthcoming city elections. "But," he said, "we are going to heckle plenty. I shall instruct members how to heckle myself."

HECKLING INSTRUCTIONS

The remains of Neanderthal man who lived about 100,000 years ago, were first discovered in Germany.

The white-pink and blue stuccoed houses on the Azores today give the islands a Mediterranean atmosphere.

WALL TO WALL
By MARJORIE OVGARD

"Whispering Streets" a new, diversified drama series based on the experiences of a sophisticated author and ex-newspaper correspondent, will make its bow on KFLW and ABC Monday at 10:35 a.m. The program replaces "Edward Arnold" and "Betty Crocker"; the former will be discontinued, and "Betty Crocker" moves to 3:00 p.m. This necessitates moving "When a Girl Marries" to 2:15 p.m. daily. So remember these changes, come next Monday.

As Ricky Nelson would say, he doesn't mess around, boy. In another amusing episode in "The Adventures of Ozzie and Harriet" tonight, the youngest of the Nelson clan certainly doesn't mess around when he gets a dance invitation from Julie Thornberry, his next-door neighbor. The complexities of dancing with one girl all evening are amusingly related on tonight's "Ozzie and Harriet" program at 9:00.

Another half-hour of Saturday morning time is turned over to the kids starting tomorrow, when "Radio Kids Bible Club" returns to KFLW. The production is almost entirely juvenile-staffed, and features Bible stories, songs by children's choruses, and adventure stories. It will be heard every Saturday at 9:00 and is sponsored by the local Child Evangelism Fellowship. From 8:00 to 10:15 a.m. now it's kids' time on LW. "No School Today," "Radio Kids," "Space Patrol" and "Lady Skyhook."

At 11:00 tomorrow, opera lovers will hear one of the masterpieces of comedy in music, Mozart's "The Marriage of Figaro." Cesare Siepi will sing the role of Figaro, with Nadine Conner as Susanna.

Attractive Arlene Francis will become the first mistress of musical ceremonies on "Stop the Music" when she takes over for the vacationing Bert Parks this Sunday. And she will head the list of well-wishers to bid farewell to Kay Arman. Immediately after this week's broadcast, Kay Arman will fly to the West Coast to start a motion picture career. Kay is a veteran of "Stop the Music" since its inception four years ago. Taking over for her will be June Valli, 21-year-old rising star.

"Cavalcade of Sports" tonight presents Chico Vejar and Fritze Prudden in a 10-round welterweight bout, starting at 7:00 p.m. Unwrinkle your furrowed brow, harried taxpayers, and tune in "Deadlines" tomorrow night at 8:30. This is a special program with typical questions of taxpayers being answered by a panel of experts from the American Institute of Accountants.
