SUPERB RECORD REPRODUCTION Three different needles to play three different speeds and types of records. One turntable plays 78 rpm. and 33 1/3 rp. records. A Victor 45 turntable plays the famous Victor 7" discs. The ideal arrangement for truest, most-listenable record reproduction.

BEAUTIFUL CABINETY Your choice of rich mahogany finish or gleaming walnut ... front panels feature luxurious inlay effects. Interior of cabinet offers space for 145 single or 18 albums of 7" records, plus space for long-playing and standard records.

ADVANCED DESIGN ... Turntables pull out, push in for easier operation, controls for radio reception, bass and treble control, dial and volume control. Built-in diapole antennae for both FM and AM listening. Turntables are spring-mounted.

MATCHLESS RADIO RECEPTION ... Bring the clarity and richness of FM radio to your home, listen to standard AM broadcasts. A new extended tone range for both radio and records bring concert-hall quality to your living room. Tone-compensated controls bring you tone-accuracy at any volume.

IT PAYS TO BUY AT **B & B**

B & B Radio & Electric
