## Family Fight Broken Up

State Police broke up a moving family fight on Oregon Highway 66 near Lakeview Junction Tuesday night and filed charges of disorderly conduct and driving on the wrong side of the highway against the husband, Lane Brooks, 28, of 1620 Sargent Ave.

A call to the patrol office around 7 p.m. informed police of a fight going on in a car at the junction. When an officer went to investigate he discovered Brooks' car weaving down the highway. Brooks and his wife, Hilda, were fighting in the car when it was stopped.

Although Mrs. Brooks fainted when taken to the patrol office with her husband—she had a black eye, bloody nose and face cuts according to police—she refused to go to the hospital and took a taxi home.

Brooks was booked and held in lieu of \$75 bail at the County Jail.

## Fire Destroys Two Buildings

HERMISTON (U) — Fire destroyed three stores housed in the Burnham Building here early Wednesday.

By 8 a.m., after firemen from the city, rural and ordinance departments had fought the flames four hours, only the concrete walls remained standing.

There was no official loss estimate but businessmen familiar with the operations said the figure probably was around \$200,000. Bruce Givens, manager of Burnham's Drygoods Store, one of those wiped out, said he had no insurance. It was reported insurance coverage on the rest of the loss was small.

In addition to the drygoods store, the Tot Shop and Cap's Donut and Candy Shop were burned out. Western Union and the bus depot were housed in the candy shop.

None of the contents of the building, erected in 1947, were saved. Flames were visible for miles around and hundreds of persons watched as firemen directed their streams of water from the roof of an adjoining building.

Fire Chief Bob Russell said the fire started near the furnace room at about 4 a.m.

There was no wind, aiding firemen in holding the flames to the one structure.

## Word "All" Leads To Conviction

SALEM (U) — Writing a three-letter word on a check resulted Wednesday in a jury conviction and a \$250 penalty for Orin M. Davis of Yamhill County.

Davis added the word "all" to a cancelled check he had written. He had sworn, though, that he had put the little word on the \$50 check at the time it was written.

The State Supreme Court, in an opinion by Chief Justice James T. Brand, upheld Circuit Judge Arlie Walker of Yamhill County.

When the check was written, Davis wrote these words on it: "Eighty-two for Elmer Bachmanns Timber."

After it was cancelled, Davis added the word "all" at the end of the sentence so it would appear that he had paid for the right of way in full.

Lewis forgot one thing—banks photograph checks when they are cancelled. The bank's picture proved that the word "all" wasn't on the check when it was cancelled.

The Supreme Court also dismissed a Marion County damage suit of John Schukart against P. C. Gerousbeck, conductor of a Southern Pacific logging train which collided east of Salem with Schukart's automobile on the night of March 13, 1948.

Schukart won \$2,000 damages in the court of Circuit Judge George R. Duncan of Marion County.

In the opinion throwing the case out, Justice Walter L. Toose wrote: "It is desirable that railroad companies be required to adopt extra precautions at every country railroad crossing during the rainy seasons, the matter should be addressed to the legislature, not to the court."

The court held the railroad was not negligent. Schukart also sued the fireman, E. E. Bentley, and the brakeman, Dale Fields, but they won in lower court.

## Pentagon Shudders When Admiral Slips Up, Tells Of "Confidential" Bomb

By ELTON C. FAY  
WASHINGTON (U) — The Pentagon's custodians of military secrets shuddered as they read a Navy admiral's testimony before a congressional committee at a public hearing on a new and hitherto hush-hush guided missile.

A Navy spokesman, queried about the testimony of Rear Adm. John B. Moss at a hearing of a Senate subcommittee on small business Tuesday, said Moss "was under the impression that he was in a closed session."

Therefore, the spokesman added to this reporter, "no disciplinary action will be taken" against the admiral, who is assistant chief for material and services in the Bureau of Aeronautics.

Moss, in his testimony: 1. Identified the missile as "The Sparrow".

2. Claimed it can track down and destroy an enemy plane three or four miles away.

3. Said the present version is "PILES HEMORRHOIDS".

4. Said the present version is "RUPTURE (Hernia)".

5. Said the present version is "FREE THE DEAN CLINIC".

for firing from a plane, but a ground-to-air (anti-aircraft) type is being worked on.

There was no immediate explanation of why the admiral thought the hearing was closed to the public.

A reporter, after the hearing, asked him a question and was told the missile is "about halfway" between an experimental and a production-line stage. Of this comment by the admiral, the Navy spokesman said:

"The statement made to the reporter by Admiral Moss was so indefinite that it is considered the information given regarding manufacturing status may be placed in the same category as 'under development'. The fact the Navy is working on such missiles is well known."

Choice to prime steers ranged from \$33.00 to \$39.50 and good to choice heifers from \$29.00 to \$34.50. Cows brought up to \$25.00.
