The eight-week summer school of especial interest to elementary school teachers who desire refreshment courses or who are working for bachelor or master's degrees will begin June 16. Included in the course will be eight two-week workshops.

Students are currently enjoying a spring recess following winter examinations. Classes will reconvene, March 25 and registration will be closed Monday, April 7.

With the coming of spring the thoughts of artists turn to plans for treks to the country to sketch and paint and likewise, the thought of all the Klamath Art Association members are centered on plans for their Summer Art Workshop. We have been busy with plans for advance publicity, printing circulars and trying to engage the best possible teachers to make the school a great success.

We received a letter from the Secretary of the Lincoln County Art Center, the Gallery By the Sea in Delary, Oregon, telling of an exhibition in their gallery of the water color paintings by Percy L. Manser of Hood River till March 30.

Mr. Manser is one of the Northwest's outstanding artists of both oil and water color.

Student paintings and weaving are on exhibit in the studio, and the public is cordially invited to visit the gallery and studio which are open during the winter months from two until four p.m. each day except Monday.

If any of you happen to be traveling along the Oregon coast, a stop at this lovely gallery and studio will be well worth your while. It just proves what a small community can do when they work together, and it will give you some idea of the goal that the Klamath Art Association is striving toward.
