Yes, sir, magnificent is the word for this majestic beauty in motion.

There's an earth-hugging, mile-skimming feel to it, as it bullets along the highway.

It holds a straight course without weaveseems to snug down to the road on curves.

A massive X-braced frame gives it solidity. A torque-tube firms its keel. End-sway and sideroll are neutralized. The engine is Hi-Poised mounted on rubber pillows - and big, softacting coil springs on all four wheels soak up the jars and jolts, float you over road-ripples, "washboard gravel" or weather-pocked macadam as if they weren't there.

Even its Dynaflow Drive\* contributes to the smoothness of its forward motion by cushioning the transmission of its power.

How about taking one of this year's Buicks - SPECIAL, SUPER OF ROADMASTER - on a cruise of discovery all your own?

Touch off its Fireball 8 Engine that's a gassaving high-compression valve-in-head-head it out for the roads you know by past experience-and let it speak for itself. Even the price tag is eloquent proof that this is the car for you.
