

THE CHARM of a hand applique characterizes Danapoint. This rather formal texture weave, a blend of wool and man-made fiber, is shown in two designs, this over-lapped leaf motif and a formal scroll in not so much high relief. Shown here in oyster white and cream, a dramatic foil for handsome, dark furniture and flecked black upholstery fabric.

DESERT COLORS, dry brush technique and complete versatility are the attributes of Sagebrush, new woven cotton carpet which provides a subtle foundation for provincial settings. It's a natural for ranch house furnishings and a softening influence for stark modern interiors.

RANCHCRAFT is a stunning new carpet design created to cater to the needs of ranch style decoration. It is effective with informal modern and provincial furnishings. Made on two heights of pile, this new wool carpet features vinyl in the ground pile to enhance the design and fortify the texture. Practical for all rooms that take hard living.

Bright, New Carpet Colors Do Something For a Room

The basic foundation of any room is the carpet or rug which sets the color keynote for the room. American women who show great courage in the selection of colorful wearing apparel are often quite timid about using the same courage in the selection of a carpet color. Time was when the solid virtues of taupe, grey or medium green carpets were considered the backbone of any decorative scheme. These were good conservative colors that "went with everything". In time, homemakers discovered that good conservative colors may be completely out of step with the rest of the room. Conventional colors in carpets or rugs are neither fun to live with nor do they "do" anything for a room. The smart new colors shown in the 1952 Carpet Fashion Opening collections can be the foundation for many charming rooms which express best the kind of living your family wants. Grey, green, beige and rose are still with us. These are basic colors and when used to emphasize a decorative scheme they are ideal colors. But something new and exciting has been added to carpet colors in 1952. Colors are crisp, sharp off-color and a few are downright bold. Astonishing combinations make some of the new carpets and rugs stunning foundations for many types of rooms. The new carpet colors aren't all high shades. Nut colors are to be found everywhere from black walnut to a just off-white Brazil nut meat tone. Sun or earth tones give a new look to beige. There are two distinct schools of thought in the beige colorings: cool light and clear tones and warm, sunny pink

GELATIN EGGS
When using eggs for Easter baking, break out just enough of the tip in the small end to remove contents. Dry thoroughly. Fill with fruit-flavored gelatin in different colors. Set filled egg shells in muffin cups to chill until gelatin is firm. Break away shells, serve "egg" in nest of green coconut.

Yours truly,
