Most Sensational Values You've Ever Seen - Bar None!

Never before have nationally advertised power tools been offered at such tremendous savings. You save up to 33% because our supplier must convert some of his warehouse space to production. Prices have been slashed to move tools fast. In all our years of selling tools, we have never before had such values to offer you—nor have we seen anything that compares with them.

Sold Singly or in Combination
Whether you buy one, two, three, or all five tools—in addition to the savings you make right now—these tools will go on saving money for you year after year on home improvements and furniture you can build yourself. They are quality-made tools—not toys. As an example of value, the 8" saw weighs 50 lbs. That's cheaper by the pound than meat!

Supply is Limited—Don't Delay
This is one of those "once in a blue moon" opportunities—too good to pass up if you'll be needing power tools this year. Come in and see them at once. Judge their quality and value for yourself.

All 5 tools can be powered with 1 motor—using a motor rail and clips. Takes less than half a minute to shift motor—and you don't destroy your work set-up.
