

FORT KLAMATH

By MYRTLE WINKER

Mrs. Thomas P. Fisher, 300, Union, and daughter, Phyllis, of Klamath Falls, visited Thursday, April 19, at the home of her parents, Mr. and Mrs. Wesley Smith, and while here called on old friends Mr. and Mrs. Orla Erickson, at their home at the Modoc Lumber Co. camp at Seven Mile. On Friday, Mrs. Fisher and children, accompanied by her father, made a trip south to Donahue, Calif., where Fisher is engaged in logging.

Incidentally omitted from name of dinner guests March 16 at the home of Mr. and Mrs. Gene A. Page and son Gerry were those of her parents, Mr. and Mrs. William Priole, of Chiloquin.

Spending the Easter weekend here at the home of Mr. and Mrs. Frank Strahan was his brother and wife, Mr. and Mrs. Sydney Strahan of Gold Hill, Ore. While here, the guests were taken on trips to points of interest in the Klamath basin.

Robertson returned Friday from Bellingham, Wash., where he was called by the death of his maternal grandfather, 82-year-old George Woods, who passed away there on Thursday, April 18. Funeral services were held Tuesday, April 15. The first spring shipment of cattle to Wood River Valley arrived Saturday, April 12 when several truckloads of stock were brought to the Leonard Meachke ranch from the winter feed lot at Malheur. The cattle will have to be fed hay for a time, however, as the pastures at the Meachke ranch north of Ft. Klamath are still blanketed with about three feet of snow. Last week the winter feed lot at Malheur, Oregon, Elliott of the Klamath Agency region, brought in several hundred head of stock to his ranch, where pasture grass should be good soon, as it is out of the deep snow here.

Mr. and Mrs. Wilbur Hescock were called to Klamath Falls Saturday morning, April 12 by the death of her father, Floyd Brandenburg of Merrill, who passed away early that same morning at Hillside hospital, where he had been removed Friday night from his home at Merrill. The elderly man had been in poor health for the past several months.

Information has been received here by Don Wimer in regard to three banded geese shot in November, 1951, in the vicinity of Upper Klamath Lake. The report was sent from the U.S. Department of the Interior, Fish and Wildlife Service, Patuxent Research Refuge, at Laurel, Maryland, and stated that the three birds were Canada geese, banded at Simon Lake, Cariboo, British Columbia, Canada, on July 1, 1951, by Dr. J. M. Cowan, who banded all three geese at the same time. The communication was signed by Beth H. Low, biologist of the section of Distribution and Migration of Birds, Branch of Wildlife Research, at Laurel, Md., and stated that a carbon copy of all three reports of statistics on the banded geese was being sent to the Canadian Fish and Wildlife Service office at Ottawa, Ontario, Canada.

According to information on the reverse side of the reports received here, to date nearly six million birds have now been banded and from four to five hundred thousand are being banded each year. From these birds, some five hundred thousand recoveries and return records have already been obtained. Further, it is stated that the success of the bird-banding work is dependent on the voluntary cooperation in reporting all the banded birds which are found. Suggestions made for the reporting of bands found are: if the bird is alive, write down all numbers and letters and release the bird with the band still attached. If the bird is dead, remove band, flatten it out and tape to your letter, and send it to the proper address for examination. If desired as a souvenir, the band will be returned, but record should be made of numbers in case band should be lost.

Further interesting facts given are that wild birds banded and released in North America have

been recovered as far away as Argentina, Siberia, Africa, Greenland, France and the North Cook Islands of New Zealand in the Southwest Pacific, and that from these recovery reports the ages which birds attain in the wild are being ascertained. A few examples given are: Black Duck, 17 years; Caspian Tern, 22 years; Purple Martin, 14 years; Chimney Swift, 12 years; and Chickadee, 9 years. His means and these numbered birds, important investigations relative to the migrations and life histories of North American birds are being carried on. The birds are attached to the birds by volunteer cooperators who serve without pay, and are scattered over the continent in Alaska, Canada, Mexico, and the United States, also in South America and the Hawaiian Islands.

A crowd which filled the local Methodist community church to capacity heard the special Easter message given in his sermon Sunday morning at 9:30 by Rev. C. E. Ely, pastor. The church altar was banked with an array of lovely flowers, including Easter lilies, daffodils, blooming potted plants, ferns, ivy and other greenery. During the service, a special musical number was presented with Mrs. Richard H. Wilson, lovely soprano, including "Easter Lilies," daffodils, blooming potted plants, ferns, ivy and other greenery. Baptized by Rev. Echin at the special Easter services were: Gerald Adrian Page, infant son of Mr. and Mrs. A. Page, and Steve Denton, small son of Mr. and Mrs. Delbert Denton. Young girls receiving baptism were Marie Nicholson, daughter of Mr. and Mrs. Stewart Nicholson, and End Williams, daughter of Mr. and Mrs. H. C. Williams. Patsy Lou and Shavon Hescock, daughters of Mr. and Mrs. Wilbur Hescock. Rev. Echin also gave the church vows to the following of new members of the local church: Mr. and Mrs. Frank Eward, Mrs. Frank Denton, Mr. Harold Miller and Raymond S. Lousley, and two of the girls mentioned above, Marie Nicholson and End Williams.
