

Klamath, Lake Counties Get Forest Fund Shares

Income from Fremont National Forest from timber sales, grazing and other sources during the 1951 fiscal year amounted to \$143 an acre, according to report of John E. McDonald of Lakeview, forest supervisor.

The total income was \$1,785,879, of which \$1,756,587 came from sale of timber, \$28,104 from grazing fees and \$1,068 from miscellaneous sources.

The giant national forest covers 1,772,637 acres, of which 1,252,280 acres are federally owned, lying in Klamath and Lake counties.

One fourth of the income is paid to the counties where the forest is situated in lieu of taxes, so the 1951 fiscal year payment to Lake County totaled \$296,624 and Klamath received \$149,846 from the Fremont, representing about 26 cents an acre.
