

Foreign Aid Guards Set

WASHINGTON (AP) — Fresh from an initial victory, President Truman and his foreign aid program lieutenants worked Thursday to build a rampart of Senate votes against any further cutting of its billions.

Administration backers beat off a move to clip 400 million dollars from the \$6,900,000,000 total by a 7 to 6 vote late Wednesday in the Senate Armed Services Committee.

Thus the bill — already trimmed a billion from the President's original request for \$7,900,000,000 — returns to the Senate in the same form it went to the committee last Monday.

There was plenty talk of a floor fight over further reductions, possibly as low as an even six billions.

President Truman, in a serious-voiced discussion of foreign aid and military funds Wednesday night, said:

"We are winning the cold war, and I fear very much that if the Congress continues to follow the attitude that it has on these immensely important appropriation bills, we may lose it, and then—and then the defense appropriations will look like a drop in the bucket."

Truman, who spoke at the annual dinner of the Civil Air Patrol, was followed by Air Force Secretary Finletter and House Speaker Rayburn.

Finletter told CAP members and their Congressmen guests the defense program "simply will not bear cutting."

Rayburn said he was no alarmist but added: "I am not in a mood to be timid with my money or anybody else's when it means the defense of this country."

SAYS HE DENIED PASSPORT — Dr. Linus Pauling, California Institute of Technology chemist, works in his Pasadena, Calif., laboratory after telling newsmen the State Department has refused him a passport to visit England. He said the decision was made "because of suspicion that I was a Communist and because my anti-Communist statements have not been sufficiently strong." He said he has given the department a statement that he has never been a Communist. Pauling, who had planned to take part in a conference of the Royal Society of London, is shown explaining a molecular model.

For Athlete's Foot — Use T-4-L for 3 to 5 days. It not treated, your feet back. Watch the old, tanned skin slough off to be replaced by healthy skin. Get instant-drying T-4-L from any drug-drying. Now at Currier's for Drugs.

THEATER TO BE CHURCH

NEW YORK (AP) — They're making a church out of a movie theater in the Brooklyn Roman Catholic diocese. The St. Sebastian Church has purchased the Woodside Theater and plans to start work soon to turn it into a modern, air-conditioned, 2,000-seat church. Parishioners have already raised over \$500,000 for the project, the Rev. Edward A. Moran, church pastor, has announced.

SEE YOUR ELECTRICAL CONTRACTOR

The time to plan the wiring that will accommodate your needs is before you build. Be sure the home you are dreaming of will allow complete use of all your electrical appliances where and when you need them. Some day you will need adequate wiring — it costs a great deal less to install it as you build. Electricity offers you countless comforts and conveniences for your new home. Take advantage of it by:

1. specifying wires that are large enough to prevent blown fuses
2. installing enough outlets and switches located conveniently
3. seeing that there are enough circuits to accommodate all needs.
