Mrs. Jesse Drew and Mrs. Billy Drew and daughter, Mary Louise, accompanied by Mrs. Ernest Bisbey, attended the extension meeting held in Bonanza last Saturday.

Mrs. Sarah Michael visited on Monday with Mrs. Emma Rueck.

### SIGN MUST WAIT

BRANTFORD, Ont. (AP)—A provincial inspector, spotting a newly-painted sign reading "Gao!" on the Brant County Jail, said that the proper way to spell it is "Jail." Maj. Sidney Rogers, jail governor, said it would probably remain "Gao!" until they get another prisoner who can paint signs. The man who did the present sign was released recently.

### NOTICE CEMETERY MONUMENTS

Our truck will be in Klamath Falls and other Klamath Co. points Tuesday, May 27th, with memorials for Decoration Day. Give your order to Clarence Ward, Klamath Monument Co., 925 High St., by Friday, May 23rd, to get it on this load.

### THE OREGON GRANITE CO.

Fine MONUMENTS Since 1898

Home Office: Medford

### Oil Workers' Return Lags

DENVER (AP)—The back-to-work movement of a large portion of the nation's refinery and pipeline oil industry workers was a slow trickle Saturday, the 17th of a nationwide strike.

Meanwhile, some industry supplies continued short, especially aviation gasoline.

Settlements, which were expected to be quick if not completely satisfactory, are slow in coming.

General disappointment was expressed over the government's ceiling offer of a 15-cent hourly wage hike. The coalition of 22 AFL, CIO and independent unions had been asking 25 cents, plus other benefits.

### Helps Heal And Clear Itchy Skin Rash!

First applications of highly medicated Zemo prove it promptly relieves itching, burning of eczema, rashes, athlete's foot, psoriasis and similar surface skin and scalp irritations. Zemo stops scratching and so aids healing. Then see how quickly skin starts to clear. Buy Zemo Strength Zemo for stubborn cases. → **ZEMO**

Thanks, Professor Dodson,  
but we can't take the credit!

C. R. Dodson, Head of the Petroleum Engineering Dept., University of Southern California

"I recently attended the opening of your new \$5 million research center. As an engineer I was tremendously impressed with both the plant and the facilities. My congratulations for the creation of this outstanding center for petroleum research."

Charles R. Dodson

This letter from Professor Dodson, along with several others we received on the same subject a few weeks back, started us thinking. In the final analysis, why did we build our new research center? After a good deal of soul-searching, we came to the conclusion that under anything but our American profit and loss system we probably wouldn't have built it. For, believe us, it took a lot of planning and time and effort and money.

But because our American system provides both competition and the opportunity to make a profit, we have the incentive and the pressure to keep everlastingly at this business of pioneering. So do our competitors.

As a result of this constant, never-ending research by U.S. oil companies, we Americans have the finest petroleum products at the lowest prices in the world.

Without a doubt, our free competitive economy deserves the lion's share of the credit for these accomplishments.
