Double Delegates Loom In Texas Parties Split

By The Associated Press

Texas Republicans and Democrats alike seemed bent Tuesday on having two sets of delegates each to the presidential - nominating conventions.

In each camp — Republicans at Mineral Wells, Democrats at San Antonio — state conventions were split in two.

Backers of Gen. Eisenhower and Sen. Taft of Ohio were at loggerheads in Mineral Wells, where 38 delegates will be chosen.

The San Antonio convention, to pick 52 Democratic delegates, was cleft along pro-Truman and anti-Truman lines.

Jack Porter of Houston, Eisenhower leader in Texas, scheduled a rally Tuesday. He announced that, unless delegates favorable to the General are seated at the state convention, Eisenhower forces will walk out and name their own national convention delegates.

Gov. Allan Shivers, leader of the anti - Truman Democrats, held the reins at San Antonio. He favors an uninstructed delegation to the national convention.

Opposing Shivers' group is one favoring the administration, headed by Fagan Dickson, who has rented a hall for the expected walkout.

Due east of Texas, it was a different story. A half-million turnout was expected for Florida's second presidential primary of the year — the big prize being its 24-vote Democratic delegation.

In Missouri it was all over but the ultimate balloting.

A Jefferson City Democratic convention put together a 32-vote uninstructed delegation to the July 21 convention at Chicago.

The delegation, which includes President Truman, was chary of expressing a preference.

Truman expects to go to the convention after the ticket is chosen — a proxy will cast his half-vote—but it was obvious the delegation was awaiting a sign from him.

Two other state conventions were on Tuesday's calendar — Kentucky Democrats with 26 votes and Connecticut Republicans with 22.

And the campaign wheels were where 70 GOP ad 68 Democratic delegates will be elected in a primary a week from Tuesday.

Florida voters faced a scrambled list if 84 candidates for the 24 delegate spots.

Of the 84, Sen. Russell had 41, Sen. Kefauver had 26, with 15 unpledged.

The two others were committed to Republicans — Eisenhower and Gen. MacArthur.

Russell defeated Kefauver three weeks ago in Florida's presidential preference poll.

The Georgian outdistanced the Tennessean by 82,600 votes, getting 54.5 per cent of the total cast.

In Connecticut it was Taft-vs-Eisenhower, too.

Barring a long-shot upset, the state convention at Hartford was prepared to put all 22 of its votes behind Eisenhower.

Taft people played for that long shot, arguing they should get some votes because they say half the state's popular sentiment is for Taft.

At Louisville, Kentucky Democrats were set to stamp "For Alben W. Barkley" across their 26-vote slate.

The party's state committee has endorsed native-son Barkley for promotion from vice president to president.

California's preferential ballot lists four slates of delegates, two from each party.

Election law prohibits write-ins and the opposition to Kefauver and Republican Gov. Warren amounts uninstructed delegations.

Warren looks like an easy victor next week over what he calls a coalition of hate.

But the big fight is among Democrats — he calls it his toughest Stop-Kefauver hurdle to date.

Heading Kefauver's opposition is State Atty. - Gen. Edmund G. Brown, who wants the state delegation left uncommited.

The Associated Press tabulation of nationwide delegate strength shows Taft ahead of Eisenhower 399 to 359.

Kefauver leads the field among Democrats.

Tabulation is based on concessions, instructions, pledges and avowed preferences.

Steel Battle To Congress?

WASHINGTON, (AP) — President Truman was reported Monday considering a new move to toss the tangled steel controversy into the lap of Congress if his seizure of the industry is ruled illegal.

The Supreme Court recessed Monday without announcing its decision in the steel seizure case.

The court will meet again next Monday and perhaps the following Monday as well in an effort to clear its docket. It originally had planned to recess for the summer next week.

Philip Murray's CIO Steelworkers have expressed impatience at not getting a pay raise since their contracts expired last Jan. 1 and the union has plainly indicated it will launch a new industry-wide strike if government operation of the mills is ended by the high court.

The strategy Truman plans if the seizure is knocked out and a strike develops is said to be to continue to steer clear of using the Taft-Hartley act's emergency provisions and again appeal to Congress — as he has done twice before — for legislation dealing with the situation.

Portland Fire Lookouts Set

PORTLAND (AP) — Portland now has an inside-the-city forest fire lookout system.

Three lookout points were set up Monday to keep watch on 3,000 acres of city-owned forest which runs along a ridge in the northwest section of the city.

Several hundred acres were blackened and a number of homes threatened in a fire in the area last summer.

Grads Get Double Dose

BLOOMSBURG, Pa. (AP) — Commencement exercises at Bloomsburg State Teachers College were a little longer than had been planned.

Author Salom Rinzk of New York was the scheduled speaker for the affair Monday. However, his bus was delayed by a flash flood.

Bloomsburg Teachers' president, Dr. Harvey A. Andress, started the exercises on time. When it became evident that Rinzk would be late, Dr. Andress asked a member of the school's board of trustees, Victor C. Diehm, to take over.

Diehm, owner of Hazleton, Pa., Radio Station WAZL, delivered an impromptu address. As he finished and the crowd prepared to go home, in walked Rinzk.

There was only one thing to do. Dr. Andress introduced the scheduled speaker — and everyone sat down again.

Men Trail Lost Bloodhound

PITTSBURGH (AP) — Two men have finally tracked down a bloodhound which got lost itself while trailing a prisoner who escaped from the nearby Beaver, Pa., jail.

Duke, the bloodhound, is valued at $750. Duke was found in a cave at Monaca Heights, near Beaver, by his owner, Robert Grimm, of East Palestine, O., and a deputy sheriff after a two-week hunt.

The escaped prisoner was promptly captured by Pittsburgh police in a downtown hotel but the hunt for Duke went on until Monday.

What gives Olympia rare flavor?

*"It's the Water"

Tumwater, Washington, where the Olympia Brewing Company is located, is one of the few places in the world where waters ideal for brewing have been discovered. This water performs the following functions: 1. Extracts hidden flavors from hops and grains. 2. Creates a more active fermentation, giving sparkling life to the beer. 3. Assures constant purity. 4. Prevents detrimental changes that might otherwise occur when the beer is bottled and chilled.

Ice Harbor Lock, Dam Held Doubly Beneficial

WASHINGTON (AP) — Pacific Northwest spokesmen said Monday Ice Harbor lock and dam combine essential national defense and long-range peacetime benefits.

They urged a Senate Appropriations subcommittee to restore five million dollars for work on the Snake River project to the Army Engineers' civil functions appropriation bill. The item was cut out of the bill by the House.

"While this project is urgently needed in the immediate present," said Herbert G. West, executive vice president of the inland waterways association, "after the emergency has subsided and passed, the same tax dollar expended on Ice H arbor becomes a peace - time dollar of equal merit as the one expended for national defense."

SUBSTITUTE

Because of illness, West was unable to present his statement personally. It was given to the committe by Irwin Hoff, administrative assistant to Sen. Magnuson (D.-Wash.).

Magnuson and West noted that a House report rejecting money for Ice Harbor was based on a desire for assurance that the Washington State project would not endanger fish runs, would aid navigation without the necessity of building other up-river dams and was needed for power purposes.

They referred to a letter sent recently by Albert M. Day, U. S. fish and wildlife service director, to the House Committee.

Clarifying earlier testimony before that group, Day said:

"Any impression which my testimony may have left that the extermination of a species would result (from construction of Ice Harbor) was in no way intended by my statements. I think there is no question that species as such are not in danger of extinction.'

Ice Harbor's construction also would provide open river navigation all the way to Lewiston, Ida., its proponents said, without the necessity of further work.

SHIP TIME

Navigation would be possible four to six months out of each year, they said.

As to power, witnesses cited earlier testimony by Bonneville and Atomic Energy Commission spokesmen that Ice Harbor offered the only logical source of power for the nearby Hanford plant.

West said at least 500,000 acres of irrigable land on both sides of the lower Snake River could be benefited by the project.

Rep. Horan (R-Wash.) also testified in behalf of Ice Harbor and other Northwest projects.

He urged consideration be given to an appropriation for surveys of water conditions on the Similkameen river.
