

HST to See Eisenhower Immediately on Return

WASHINGTON (AP) — President Truman said Thursday he expects to receive Gen. Eisenhower at the White House immediately after the general returns Sunday from Europe.

The President also told a news conference he would see Eisenhower again before the general leaves for Abilene, Kan., where he will make a major address June 4.

The speech will be the first on the domestic scene for Eisenhower since he was projected into the midst of the Republican scrap over the presidential nomination.

On other matters, Truman told reporters:

1. He will vote for Atty. Gen. J. (Buck) Taylor for the Democratic nomination for the Senate from his home state of Missouri.
2. Taylor is opposed by W. Stuart Symington, former RFC administrator and holder of other important offices in the Truman administration.
3. He doesn't want to say anything now about the international situation. This was in response to a request for comment on what a reporter described as the recent deteriorating developments in Korea and Berlin.

OBSERVATION

The President said he might have some observation about the international situation after he has an interview with Secretary of State Acheson, who is due back Friday from Europe where pacts were signed linking Western Germany with the North Atlantic Allies.

3. He still isn't ready to indicate any personal choice as to whom the Democrats should nominate for President, but he will make a whistle-stop campaign for the party this year.

The President said he will reply to those urging heavy cuts in his foreign military and economic aid program when he takes to the road.

Fishing Report

PORTLAND (AP) — Fair angling is in prospect this week end, the state game commission's report says.

Northwest — Coastal streams generally fair. Mt. Hood streams high and clear with bait best. McKenzie and Willamette Rivers and tributaries are somewhat improved over last week. North Santiam only fair, but South Santiam has provided some limits on bait.

Dorena Reservoir angling has slowed and fishing is fair to poor. Many Cascade lakes opening Friday are still snowbound.

Southwest — Fishing fair in south coastal streams and lakes. Salmon fishing in Lower Rogue River fair to good. Rogue River salmon fishing good from Grants to Galloway. Water is high but only slightly colored. Trout fishing is fair and improving in the Rogue and fair to good in the main tributaries. Salmon angling is slow throughout the Umpqua River. Saturday is the last day for salmon fishing in Umpqua River above Scottsburg. Trout angling is fairly good in Idleyld Rock Creek area. Umpqua National Forest lakes and reservoirs open Friday.

Central — Odell Lake is producing some excellent catches of Bluebacks and Rainbows. Crescent Lake yielding some Rainbow. Nice catches on the Lower Deschutes. Upper Deschutes is high. In Klamath area good catches are being made on Wood River and Seven Mile Creek. Both forks of Sprague River are high but some limit catches are being taken. Upper Klamath Lake has been producing Bluebacks and Rainbows. Espee Ridge and some nice fish are being taken at Rocky Point. Edge of the Woods opens Friday. Most high Cascade lakes are impassible because of snow. Klamath River closes to anadromy June 1.

Northeast — Limit catches of Blueback are being taken on troll in the evening at Willowa Lake. Some good catches of Rainbows have also been taken. Grande Ronde River and Catherine Creek are fair and should be better. Strawberry and Mazono Lakes are producing fair catches. Most streams and main rivers in John Day area remain high and angling is poor. Fishing in Umatilla is poor. Water conditions are ideal in Morrow and Gilliam counties. Fishing in Wheeler County is good.

Southeast — In Harney County fish Lake is producing many nice catches of 10 to 20 inch Brook. Brook streams are still high and muddy with the small tributaries dropping and fair for angling. High country is still impassible. In Malheur County Owyhee Reservoir is fair to good for crappie and bass.

Deputy Prison Warden Named

SALEM (AP) — Lawrence T. O'Brien, captain of the guards at Folsom Prison in California, was appointed by the State Board of Control Thursday as deputy warden of the Oregon State Penitentiary.

He succeeds E. C. Halley, who is retiring.

O'Brien has been in prison work for 16 years. He held supervisory jobs at Alcatraz Federal Prison, in San Quentin Prison, and in other federal prisons before he went to Folsom.

The warden, Virgil O'Malley, also came from California.

Four-H News

HENLEY BEEF CLUB

The club meeting was called to order by the vice-president Rodney Wright, in the absence of the president. Roll call was taken: 11 members were present. They were: Hollis Kiger, Don Wallin, Audrey Kiger, Dig Williams, Henry Williams, David Garrison, Rosy Scania, Betty Scania, Margaret Scania, and Leonard Garrison.

We discussed plans for the tour to be held this summer and 4-H summer camp. We decided to have a float in the 4th of July parade. Several members are planning to attend summer school at Oregon State College.

Refreshments were served by the hostess, Mrs. Ray Garrison. The club then went to see the 4-H calves and played baseball.

Leonard Garrison

POE VALLEY SWEETTES

On 4-H Sunday, May 18, the Poe Valley Sweettes had a tea for their mothers at Mrs. George Relling's home.

There was a business meeting which Martha Tubach, president, brought to order. Virginia Roenicke and her mother were the only one unable to attend. Mrs. Relling presented four champion ribbons to the girls that had won them at the fair.

After the meeting was adjourned there was a program for the mothers. Mary Wells, Janice Marshall, and Jean and Lois Funderberger did a skit that showed what they learned in 4-H this year. Then Norma Jean Lyon and Martha Tubach played separate songs on their saxophones. To end the program, Carol Relling played the piano. The refreshments, which the girls had prepared themselves were served to the mothers.

This was the last meeting of the year.

Norma Jean Lyon

BUSY BEE LIVESTOCK CLUB

A film strip on breeds of chickens was an interesting feature of one of the last meetings of the Sprague River Bee Livestock Club. The business meeting was held and refreshments were served at the Laboda home and then everyone went to the schoolhouse to see the interesting pictures.

New members present for the meeting and signed up for poultry were Geraldine Woods, Nancy Decker, and Roland Hall.

Geraldine Woods was chosen news reporter for the summer.

Rural Life Sunday was observed by the Sprague River 4-H Clubs, Sunday, May 25 at Tabernacle Church.

The 4-H members composed the choir and gave a short program. The Rev. D. J. Tuning from the Friends Church delivered the message.

Both churches combined services for that hour and we wish to thank the Rev. Pearl Clements and the Rev. Ann Morrison for their cooperation in making this day a success.

Chambers, Bentley Believe Red Agents Prying in U.S.

WASHINGTON (AP) — Ex-Communist Whittaker Chambers and Elizabeth Bentley told Senate investigators Thursday it must be assumed that Communist agents are at work in the government trying to pry out secrets.

Both said they had no personal knowledge of Red spies on the federal payroll, but Chambers commented it would be childish to assume there are none.

Miss Bentley, who says she worked with two espionage rings here during World War II, testified her contacts informed her that two cipher groups were operating inside the government.

She said they had not yet been exposed and "obviously are still operating."

NO LIGHT

She could shed no light, however, on who they might be or in what departments they might be working.

However, she remarked that the Communists were not interested in lowly clerks or typists who do not have access to official secrets. Chambers and Miss Bentley were before the Senate Internal Security Subcommittee.

Each has been a frequent witness for the past several years at congressional inquiries into alleged subversive activities.

It was accusations by Chambers which led to the jailing of Alger Hiss, once a high State Department official, now serving a five-year prison term for perjury. He was convicted for denying under oath that he passed State Department documents to Chambers, who was a courier for a pre-war Communist espionage ring.

The Senate subcommittee questioned Miss Bentley and Chambers, now a Maryland farmer, at an unusual seminar-type discussion of the Communiques and activities of Communist agents.

Others who participated were Adm. R. H. Hillenkoetter, former director of the Central Intelligence Agency, and Herbert Philbrick, a former FBI undercover agent in the Communist party.

Before beginning the seminar, the senators heard Maj. Gen. Claire L. Chennault, wartime Air Force commander in China, testify that American post-war policies hurt the Chinese Nationalists and helped the Chinese Communists.

He also said that before the end of World War II, some U.S. Army officers in China were advocating aid to the Chinese Communists, "presumably to fight the Japanese."

He said that the situation had become so bad that in February, 1945, Gen. Albert C. Wedemeyer, then U.S. commander in China, issued an order to every American officer in China that they were directed to execute policy and not make it.

Parked Car Yields Body

NEWPORT BEACH, Calif. (AP) — The trunk of a parked car, from which blood was dripping, was pruned open with a crowbar by police Thursday and the body of a man was found huddled in the back.

Police Sgt. Harry Lacey said the man was not immediately identified and the trunk was closed again to await arrival of Los Angeles police department crime laboratory experts.

The 1951 Buick sedan was parked in a lot at Norm's landing on the day front entrance to exclusive Lido Isle.

Sergeant Lacey said the car was found after his department received a report from the Riverside county sheriff's office that a Sam Davis of Desert Hot Springs was missing.

The Riverside sheriff said Davis and Henry R. Sutter, 45, left Desert Hot Springs Monday in an automobile.

In Los Angeles, police homicide detectives said they had picked up a man by the name of Sutter and were questioning him in the case.

Truce Block Laid to Reds

MUNSAN, Korea (AP) — The chief United Nations truce delegate Thursday accused the Communists of blocking a Korean armistice out of disappointment that so few Red war prisoners want to go home.

In another futile session at Panmunjon, Maj. Gen. William K. Harrison Jr., reminded the Communists they had agreed to the screening—which determined that nearly 100,000 of 169,000 Red POWs and civilian internees are unwilling to be repatriated.

He suggested another recess to give the Communists time to reconsider their demand for the return of prisoners. But the Reds insisted on another meeting at 11 a.m. Friday (6 p.m. PST Thursday).

"The factor which prevents an armistice today," Harrison said, "is not your objection to the screening process itself but rather your chagrin at the small number of persons who stated that they would not forcibly resist repatriation—a number which was obtained by the fairest means possible and by a device which had your full acquiescence."

Continuance of RFC OK'd

WASHINGTON (AP) — The Senate Banking Committee voted 6-0-3 Thursday to keep the Reconstruction Finance Corporation (RFC) in business as the government's chief lending agency.

But it decided to write a number of reforms in the law setting up the RFC.

Earlier this year the Senate had voted to abolish the scandal-stained agency, but it reconsidered and sent the question back to the banking committee for more study.

The Senate had substituted the end-RFC proposal for a reform bill sponsored by Sen. Fulbright (D-Ark.).

The banking committee Thursday reinstated Fulbright's reform proposal and sent that measure to the Senate floor.

Friends of the reform plan concede that prospects are none too bright that the reform measures will be brought to a Senate vote again.

Foreign Aid Bill Passed By Senate

By JOE HALL

WASHINGTON (AP) — The Senate has overwhelmingly passed a \$6,700,000,000 foreign aid bill but the mutual security program is almost sure to be cut further before any money actually becomes available.

The final Senate vote on passage Wednesday night was 64 to 10 with 39 Democrats and 25 Republicans joining in support of the measure to aid America's friends all over the world. Nine Republicans and one Democrat, Olin Johnston (SC), said "no."

But the bill now goes into conference with the House which voted last Friday, 245 to 110, to authorize the spending of \$6,163,000,000 in the fiscal year starting this July 1.

ANOTHER CUT

This \$37-million-dollar difference between the two branches means that an additional cut in the Senate total is almost inevitable.

Then, after the compromise authorization measure is passed, the lawmakers will get another crack at the program when an appropriations bill actually making the money available is debated.

President Truman asked for \$7,900,000,000, declaring this was the minimum needed for America's security. He has been sharply critical of the cuts voted by the House.

The bulk of the money in the authorization bill is for direct military assistance designed to equip the forces of American allies in Western Europe and elsewhere.

Administration forces in the Senate beat down all efforts to cut the \$6,900,000,000 voted by Senate committees until late in Wednesday's session.

Then Sen. Long (D-La.) was able to get through a 200-million reduction by a 37 to 34 vote, partly because half a dozen senators voting against cuts had gone home. Earlier Long's proposal for a 400-million cut lost 40 to 37.

However, some Republican senators had been confident that the Senate would vote at least a half-billion slash on the floor. An amendment by Sen. Welker (R-Ida.) to do this was defeated 41 to 53.

Truman Seeks Billions For New Atomic Work

WASHINGTON (AP) — President Truman asked Congress Thursday for \$3,341,000,000 for a "major further expansion" of atomic production facilities. But he did not disclose details.

The money, in the form of a supplemental appropriation, would go to the Atomic Energy Commission and the Tennessee Valley Authority.

Truman said, in a letter to House Speaker Rayburn, the expansion is necessitated by the fact that "the Soviet Union has shown no disposition to cooperate in an international program for control and regulation of armaments."

Lacking international control of national security and the security of the free world demand that we maintain and increase our leadership in this field.

The President asked the funds for the fiscal year starting July 1.

READY TO MOVE

At the same time, he declared: "The United States stands ready to move ahead on the United Nations plan or any other plan that is no less effective in controlling atomic energy and thereby insuring the prohibition of atomic weapons."

Sen. McMahon (D-Conn.), chairman of the Senate-House Atomic Energy Commission, said in January that Truman had decided to recommend an atomic expansion program. McMahon had been advocating a six-fold expansion, to about six billion dollars a year, but acknowledged he didn't expect Truman to go along with a program of that size.

Any expansion presumably would not only speed up additions to the U.S. stockpile of conventional A-bombs, both of World War II and smaller size, but would permit pushing ahead with greater speed the development of new military uses.

Of top priority among the new uses is the hydrogen bomb, which some scientists have estimated is potentially as much as 1,000 times as powerful as the uranium A-bomb.

The new facilities, which will provide greater capacity for the production of fissionable materials and for the fabrication of such materials into atomic weapons, will strengthen our atomic energy program over and above the expanded program initiated during the course of the past two years. I recommend that we undertake this new expansion promptly.

TOTAL COST

"The total cost of the new facilities required, including those to be constructed by the Tennessee Valley Authority for power generation and transmission, is estimated at approximately 4.2 billion dollars for construction over a period of about five years, of which a major portion is needed at this time.

"The funds required to complete the construction program and to operate the resulting plants will be requested in future budgets.

Expenditures by the Atomic Energy Commission and the Tennessee Valley Authority in fiscal year 1952 for this expansion program are estimated at about 650 million dollars.

Farm Prices Show Increase

WASHINGTON (AP) — The Agriculture Department reported Thursday that farm prices rose one percent between mid-April and mid-May.

A sharp upturn in prices of hogs was primarily responsible. Prices for cattle, calves, wool, corn, soybeans, most fruits, potatoes and cabbage also increased.

On the other hand, some farm commodities declined, principally dairy products, poultry, eggs, cotton, hay, wheat, oats, barley, sheep, lamb, tomatoes and onions.

Scientist Sees Power Planes

LONDON (AP) — A top British government scientist predicts that airplanes will be designed soon to zoom straight up on takeoff and plummet straight down for landings.

Sir Harry Garner, chief scientist of the Supply Ministry, made his forecasts before the Royal Aeronautical Society Thursday night.

He said also that an atomic powered plane already is "said to be in hand in the United States."

Morris Deals Under Probe

WASHINGTON (AP) — A Senate committee reported Thursday the Justice Department is looking into possible criminal violations, as well as conspiracy to defraud the government, in ship deals involving Newbold Morris, ousted government cleanup man, and Joseph E. Casey.

Casey, a Washington lawyer, is a Democratic congressman from Massachusetts, a number of other big names were involved.

Charging that its own inquiries into the deals had exposed profit grabbing, tax avoidance and a web of international schemes to place U.S. ships illegally in alien hands, the Senate investigations subcommittee demanded:

1. That the government seize and declare forfeit the tens of millions paid for — eight oil tankers sold to Casey and his associates and 30 vessels sold to others under similar circumstances.
2. That the Internal Revenue Bureau and Justice Department "take appropriate action" to collect huge sums in taxes and subcommittee alleged were illegally avoided in the deals. In the case of the Casey group, it said, the recovery might be between \$850,000 and \$1,400,000.
3. That Congress close what the subcommittee termed a tax law loophole benefitting the China International Foundation, Inc., which Morris heads. It termed China International a charitable foundation formed ostensibly to benefit Chinese Nationalists.
4. That the Justice Department look into what the subcommittee called evidence that the old Maritime Commission, which sold the ships, was guilty of confusion and mismanagement. It said this was "bound to create the impression that the 'back door' approach was the best approach" to the commission.

Chairman Hoyt (D-N.C.), in a speech in the Senate, said it was a unanimous report of his subcommittee.
