Special Lens Saves Sight

VANCOUVER, B. C. (AP) — An artificial lens, made of plastic and smaller than an aspirin tablet, has restored the sight of a woman here.

Blinded by cataracts in both eyes for 10 years, Mrs. M. Bogert, 57, of Kuperby, B. C., underwent an unusual operation it was reported by surgeons at the Vancouver General Hospital.

The artificial lens was placed inside her left eye after it was molded to the same shape as the natural lens.

"I can see my daughter's features for the first time in 10 years," said Mrs. Bogert.

"Now I can hardly wait to see my other four children."

Surgeons here followed the technique evolved by Dr. Harold Ridley of London, England. He has performed 25 such operations in England.

In a routine operation, a cataract was removed from Mrs. Bogert's right eye, but surgeons feared a similar operation on her left might leave her totally blind for life. Prior to the operations she was able to distinguish between light and dark, but that was all.

She consented to the new operation on her left eye and the placing of the plastic lens in replacement of the natural lens. The plastic is the perspex type used in the hatch covers of fighter planes.

No Progress in Korean Truce

MUNSAN, Korea (AP) — Blustery Gen. Nam Il, chief Red delegate at the Korean armistice talks, toned down his voice Monday as he railed again at Allied handling of Communist prisoner riots on Koje Island.

But calm, quiet Maj. Gen. William S. Harrison, head United Nations Command negotiator, said "I have no idea that it has any significance at all."

The Red chieftain used milder tones in repeating his charges that the Allies are slaughtering Red prisoners on Koje, the U. N. prison camp island, and planning to retain permanently other Communist captives.

Whatever the meaning of the change in attitude, Harrison said the Communist negotiators Monday "didn't act like they were mad at anybody."

There was no progress in the 26-minute session on the issue blocking an armistice—what to do about 100,000 captured Red soldiers and civilian internees who say they would rather die than return to Communist rule. The Reds demand their soldiers back. The U. N. Command says not a single prisoner will be forced to return.

Harrison again suggested a recess until the Reds had something constructive to offer. Nam Il demanded another session Tuesday at Panmunjom at 11 a.m. (6 p.m., Monday PST).

California Sees A Blast

LAS VEGAS, Nev. (AP) — A strong atomic blast, old hat to atom weary citizens of Las Vegas, jolted and excited residents over wide areas of Northern and Southern California from the Yucca Flat test site.

Two thuds loud enough to awaken residents and rattle windows were heard in Modesto, Calif., 350 miles from the blast, according to city editor Otto Schroder of the Modesto Bee.

In San Francisco, a radio news writer, Ed Arnow of KNBC, was driving to work when he saw a brief flash of light covering the sky.

Police switchboards throughout the Los Angeles metropolitan area lit up like Christmas trees when excited citizens called to find out what had happened.

A thousand troops watched from foxholes about 7,000 yards from the explosion.

They jumped from their positions 20 seconds after the detonation and moved "very close" to the firing area behind tanks and army radiological safety monitors.

Paper Workers Get Wage Hike

PORTLAND (AP) — Some 17,000 pulp and paper workers in 36 Pacific Coast mills will receive a 4 percent hourly wage increase under terms of a new contract announced Saturday by union and management representatives.

The agreement also provides for a union-managed financed health and welfare program. Management will pay up to 60 percent of the program's cost.

The new contract, effective June 1 if ratified by union membership and approved by the Wage Stabilization Board, will increase hourly straight time wages to about \$1.91.

71 CASUALTIES

WASHINGTON (AP) — The Defense Department Monday identified 71 additional battle casualties in Korea in a new list (No. 577) that reported 16 killed, 64 wounded and one missing.

Crew of 100 AP Men To Cover Convention

To cover the drama, action and color of the Republican and Democratic national conventions in Chicago this July, the Associated Press will assemble a staff of more than 100 topflight reporters, photographers, and technicians.

They will comprise the team that has been setting the pace all year for expert, penetrating and graphic coverage of the national political scene.

For both conventions—the GOP starting July 7 and the Democrats beginning July 21—the AP's talented Washington corps of editors and reporters will join forces with staff men from more than a dozen key bureaus. All will be under the general leadership of W. L. Beale Jr., chief of the Washington bureau and veteran of eight national conventions.

The bylines of Jack Bell, Don Whitehead and Reiman Morin will be prominent in the convention news report. These three topflight political reporters have written top stories of the state primary campaigns and covered politics from coast to coast.

They will be in the thick of pre-convention activity until the minute the first gavel calls the Republican convention to order on Monday, July 7.

be on hand. So will Jim Marlow whose column "The Nation Today" will be devoted to explaining and backgrounding significant developments.

The staff will include other specialists in various phases of the national political scene—defense, international affairs, organized labor, the farmer, developments of special interest to women.

A special staff of regional reporters will concentrate on developing state delegation news for the readers back home. They are selected with an eye on the key candidates and the salient areas of delegate strength which may call the turn in naming the party nominee for the next occupant of the White House.

To report the convention story with maximum speed and efficiency, the Associated Press will extend its nationwide teletype circuits and wirephoto network directly into the convention hall—this year the international amphitheater. Teletype wires will lead directly to the convention platform, to an AP workroom in the amphitheater and to another special AP workroom in the headquarters hotel of the national political committee, the Conrad-Hilton.

Staff photographers will cover all scenes of convention activity.
