Rotary Tours Of 4-H, FFA Stock Begins

Members of the Klamath Falls Rotary club have begun making the annual tours of county 4-H and FFA Junior Livestock hopefuls, with the first few visits coming off this week.

The annual show is set this year on Aug. 24-25 and 26.

Robert Ellingson is this year's "Bull of the Woods," Don Kenyon is "Big Push," Earl Kent is "Little Push" and Lawrence Horton is "Procurer of the Beef" for the annual barbecue.

This will be the 17th consecutive Rotary show, and again is slated for the Fairgrounds

4-H Pheasant Growing On

4-H'ers with hatching equipment might plan to go in the pheasant business—at least for a couple of months. The State Game Commission will make 50 to 200 pheasant eggs available to 4-H'ers. These will be hatched and reared to 10 weeks of age and then released by the District Game Agent. The Game Commission will reimburse raisers $1.00 for each bird released.

It takes calm setting hens, a rearing pen, setting nest, brood coop and runway plus a feed board and water fountain to raise pheasants. The mimeograph "Directions for Raising Chinese Pheasants by 4-H Club Members" is available.

Anyone interested in this project should contact the 4-H office for further information.

2,4-D Dust Unlawful In Tulelake

It has come to the attention of the Agriculture Commissioner's office that 2,4-D dust is being offered for sale in the Tulelake Basin, Farm Advisor Ken Baghott has announced.

The use of such material by commercial pest control operators is unlawful in this area. Dust is far more difficult to keep under control than liquid spray and attempts to use herbicidal dust on grain will unquestionably result in a great deal of drift damage being done in potatoes, onions and other susceptible crops.

Oregon Harvest In Progress

PORTLAND (AP) — Harvest of Oregon's early crops was in progress this week.

Strawberry pickings indicate relatively heavy yields in most areas, the Agriculture Department's crop-weather report said Wednesday. The quality is good. Labor is short.

The Umatilla County pea harvest was expected to be in full swing by next week.

At that time the cherry crop should be moving to market in unlimited quantities, the report said.

Weather conditions were ideal for the first hay crop harvest, with good yields reported.

Winter wheat was well headed out in early areas, but high winds in the Columbia River Basin caused some minor damage. Rain would help.

Late seeding of spring grains is continuing in Eastern Oregon Counties.

Truman Asks Defense Fund

WASHINGTON (AP) — President Truman asked Congress Wednesday for a supplemental appropriation of $3,463,555,440 for the Defense Department for the fiscal year starting July 1.

The funds would be used for military public works, pay increases to military personnel, and the Alaska Communication System.

"The amounts are 537 million dollars less than the tentative estimates for these items contained in the budget for the fiscal year 1953," the White House announcement said.

The request included $2,990,487,740 for "construction of military public works essential in the expansion and modernization of our armed forces."

Of this amount, $414,515,000 is for the Army, $387,972,740 for the Navy, $1,538,000,000 for the Air Force, and 650 million dollars for the office of the secretary of defense.

This last 650 million dollars is for "establishment and development of military installations and facilities in foreign countries, including the United States participation in military public works costs shared with other members of the North Atlantic Treaty Organization."

The sum of $469,687,000 was requested for increased pay and allowances for military personnel under legislation voted last month.

The President recommended $3,380,700 for construction of living quarters, troop housing and operational facilities for the Alaska Communication System.

Ship Company Asks Release

PORTLAND (AP) — The States Steamship Company has asked that it be freed of liability for eight million dollars in damage claims of the freighter Pennsylvania.

The largest single claim against the company has been filed by the federal government. It asks $1,199,674 for cargo lost when the ship disappeared Jan. 9 in a storm off Vancouver, B. C.

Two insurance companies have filed claims totalling one million dollars. The Canadian government is asking $24,000 and the families of 39 of the ship's 46 missing crew members have filed separate claims ranging from $3,000 to $350,000.

The steamship line also has filed a petition asking that liability be limited in the event the exoneration petition is denied.

Both petitions are being considered by Federal Judge Gus J. Solomon

109 Thousand Casualties

WASHINGTON (AP) — Announced U. S. battle casualties in Korea reached 109,159 Wednesday an increase of 182 since last week.

The Defense Department's weekly summary based on notification to families through last Friday shows these new totals:

Killed in action 17,252; wounded 79,426; missing 12,481; total 109,159; battle deaths 19,244; current missing 9,690.

Casualties by services: Army 88,659; Navy 1,360; Air Force 1,174; Marine Corps 17,966.

Progress Fails In Rural Area

PIERRE, S. D. (AP) — The conveniences of the Atomic Age broke down and kept election returns in some precincts of isolated Jones, Jackson and Haakon Counties in the dark.

Electric storms knocked out electric lines and the county auditors called a halt on tabulating. They said they were locking up and going home.

They couldn't find any oil lamps in an area that 10 years ago didn't have electric lines to tap.
