TWO MALIN boys, John Saunders, 23, right, and Norman Herringshaw, 22, are serving in the navy. Saunders, son of Mr. and Mrs. Loyal Saunders, home recently on leave, is at Fort Hueneme, Calif., with the Seabees. He enlisted Dec. 26. Herringshaw, son of Mr. and Mrs. Sam Herringshaw, now in Japan, visited an aunt and uncle, Mr. and Mrs. John Herringshaw, former residents of Malin, now in Honolulu, enroute to the Far East.

Pend Oreille Dam In Use

PORTLAND (AP) — Albeni Falls Dam on the Pend Oreille River, U.S. into operation ahead of schedule, will add 100,000 kilowatts of power to the Columbia Basin system this year, the Corps of Engineers said Wednesday.

The power will be produced by releasing 1,400,000 acre feet of stored water from the dam's reservoir for generators of existing downstream federal power plants.

Reservoir regulation was started last week with the lowering of the 10 spillway gates of the dam near Newport, Wash.

Col. E. C. Itschner, North Pacific Division engineer, said the reservoir, which includes Lake Pend Oreille, will be filled gradually to an elevation of 2,062 feet in early August.

This level will be maintained until fall when water will be released for downstream power production and navigation.

No power production facilities have yet been built at the dam itself, but excavation for the powerhouse is underway. The first power unit is scheduled to begin production in August 1954. The project, with a power rating of 42,600 kilowatts, is to be completed a year later.

Power production from stored water at the dam will be further increased when Chief Joseph, McNary and The Dalles hydroelectric projects are completed, Itschner said.

Full Koje Story Due

WASHINGTON (AP) — A House subcommittee promised to tell Congress Wednesday more about Red uprisings in the Koje Island prisoner-of-war stockades.

Presumably this will amplify the Army's own public report sent to the House Tuesday in which Gen. Mark Clark, United Nations commander in Tokyo, described a year-old campaign by Communist prisoners to control their 70,000 fellow inmates.

Rep. Sikes (D-Fla) said his Army appropriations subcommittee will tell about the testimony Monday of Secretary of Defense Lovett and Gen. J. Lawton Collins, Army chief of staff. They "cleared up a number of points" for the subcommittee, Sikes said.

The House tentatively accepted the Army report on the prison isiand. But it voted to ask the State Department for more details on what it knows about Koje and about two Communist-inspired riots in Japan last month.

Prison Guard Stabbed

SANT FE, N. M. (AP) — A guard at the New Mexico penitentiary was found stabbed to death Wednesday in a tier of cells which housed new arrivals and prisoners being disciplined.

Asst. Warden Morris Abrams said an unarmed cell keeper, Filemon J. Ortiz, 54, had been stabbed in the chest and that traces of blood and other evidence indicated he had been dragged about 40 feet along the floor.

Authorities could find no immediate motive for the slaying. Neither Abrams nor Warden Joseph Tondre knew of any trouble which Ortiz may have had with the prisoners.

Plans Set For TV Center

PORTLAND (AP) — Radio station KOIN has purchased a half-block in downtown Portland for construction of a television center.

The property on Southwest Columbia street between 1st and 2nd Avenues will provide space for present facilities and future expansion, Harry Buckendahl, vice president and general manager, said.

The station plans to apply for TV Channel 6 here.
