

Mrs. Addie Lee Newsome

Man Beats Bugs With New Spray

Amateur gardeners will be able to protect their plants from insects and disease with a "weatherproof" spray this year for the first time. This new plant "bug-and-disease" killer laughs at rain and weather. It is elastic and stretches as the plant grows. Wind and heat do not dissipate it and it stays on the plant through the heaviest rains. In this recently-introduced product, an adhesive—a latex derivative which holds the chemicals on the plant, has been added to proven chemicals, including ferimate, DDT and rotenone. Home gardeners can now cut garden work in half because of less frequent spraying.

The new product was developed by an amateur gardener from Jefferson, Iowa. After rain washed the spray from his 1200 rose bushes on six consecutive nights, Frank Milligan, a lumber and grain man from the small Hawkeye town, became interested in weatherizing a spray for his own rose garden, the largest in Iowa.

ASKED HELP

He sought the advice of 64 colleges and universities with horticultural departments. The schools agreed on insecticides, fungicides and fertilizers, but it was from a sub-tropic area that he learned of an elastic "weatherproof" substance that defies downpours without impeding normal plant growth. He found, also, that the adhesive had been tested by the Boyce Thompson Research Institute and found effective.

During the 1951 season, the determined amateur added the adhesive to established chemicals for use in his own garden. His garden flourished, and the immediate interest in the new product, among both individuals and garden clubs, encouraged Mr. Milligan to market the product. It is now available in both spray and dust form. Additional information can be obtained from Frank Milligan in Jefferson, Iowa.

NO BETTER

Homemade raisin oatmeal cookies can't be beat for tasting good with a tall fruity drink or a dish of ice cream. For summertime we like the thin lacey raisin oatmeal drop cookies best.

● Cleans kitchen table tops, counters, sinks, waste cans, wash bowls, bath tubs.

Family All Arrives First Time-Years

For the first time in 36 years, children of Mrs. Addie Lee Newsome, Swan Lake, were all at home at the same time. The reunion, May 17th honored her 84th birthday.

Mrs. Newsome, a native of Virginia came to Klamath Falls in 1920. She lives alone near a daughter and son-in-law, Mr. and Mrs. C. R. Collman, does all her own housework, makes and cares for a garden, builds fences, carries water (her home is not modern) and does numerous other chores necessary to maintaining a home.

She is the mother of six children, Mrs. Helen Kerr, 3151 Biscuit, Klamath Falls; Mrs. C. R. Collman, Swan Lake; Mrs. T. M. Williams, Colton, Washington; John Petty, Kinross, Ore.; Sgt. Oliver Newsome, U.S. Army Airforce, just back from three years in Germany, now in San Bernardino, Calif. One child died in infancy.

Present also were nine of her 13 grandchildren and three of her nine great-grandchildren.

Recipe

SWEET-SOUR DRESSING

Dice four slices bacon and brown. Remove bacon to bowl. Add one-fourth cup honey, one-third cup vinegar, one teaspoon salt and dash of pepper to bacon fat. Heat to boiling. Add browned bacon and pour over lettuce or cooked cabbage.

HONEYMOON FROSTING

Beat one egg white with dash of salt until stiff enough to hold up in peaks, but not dry. Pour one-half cup honey in fine stream over egg white, beating constantly about four minutes, or until frosting holds its shape. (This is a delicate frosting and does not store well overnight. Cake should be frosted the day it is served.)

ICED TEA

Make fresh tea double strength. Strain and pour over crushed ice in tall glasses. Serve with equal parts of honey and lemon juice well blended. Garnish with fresh mint leaves.

A CROCUS
Overnight they're underfoot in
Some new locust, crocus,
Leaving me amazed again
At his hocus-pocus.

...and to play refreshed have a Coke

It's so easy to find in so many places
... so easy to ice in a cooler
for out-of-the-way places.
