NEW YORK (AP) — The stock market reached its second straight new high for the year Thursday with a moderate advance based on selective strength in a few major sections of the list.

Prices strengthened a bit more just before the close.

The great bulk of the list posted fractional changes either way while the wider movers stretched out between 1 and 2 points higher or lower.

Trading came to an estimated 1,200,000 shares.

Stocks showed to best advantage in steels, motors, oils, and rails, although there were spots of weakness in all of these areas.

You get MORE TRUCK FOR THE MONEY when you buy on the plain hard facts!

CHEVROLET
first in demand in value in sales
MORE CHEVROLET TRUCKS IN USE THAN ANY OTHER MAKE!

Fact No. 1 — Model for model—costs less
Stack up a Chevrolet truck against *any other truck* with comparable specifications, capable of handling the same payloads. You'll find the Chevrolet truck lists for less and brings you great features.

Fact No. 2 — Mile after mile *at rock bottom cost*
Truck users everywhere have proved to their own satisfaction that Chevrolet costs the least of all to own and maintain. Valve-in-Head economy, in the Loadmaster or Thriftmaster engines, saves on gas.

Fact No. 3 — Right truck for the job saves money
Chevrolet trucks are *factory-matched* to your payload requirements. You don't waste money by buying "too much truck"—you don't risk work interruption or slow-downs by buying "too little truck."

Fact No. 4 — Lower, slower depreciation
Records show that Chevrolet trucks traditionally bring more at resale than any other make which costs about the same new. The market value of Chevrolet trucks stays *up* because the value stays *in*.

You buy a truck to get work done fast and efficiently, *at the lowest possible cost.*

There's a Chevrolet truck that will do just that. It lists for less money than any other truck with comparable specifications. It saves on operation and upkeep. It's factory-matched to your job—frame, tires, axles, springs, engine, transmission, brakes. And traditionally, it keeps its value longer, trades in higher, than many other trucks costing more. These are the plain hard facts of truck buying. They are the down-to-earth reasons why, year after year, more truck users buy Chevrolet trucks than any other make.

More than two and a half million users are proving that it makes sense, and saves dollars, to haul and deliver with Chevrolet trucks. Come in and discuss your truck needs with us.
