

KEY TO THE CITY—Col. Francis S. Gabreski, 33, returned from Korea after 100 combat missions and an ace of two wars, receives "the greatest thrill of my life," during parade and civic reception in San Francisco. At City Hall he received the key to the city from Mayor Elmer Robinson. Left to right are: Mrs. Eleanor A. Arnold, widow of the late Gen. of the Air Force Henry H. Arnold; Gabreski; Robinson; Mrs. Gabreski, and daughter, Djoni, 6, one of four children.

Better Days For Elders Predicted By Labor Bureau

By ROWLAND EVANS JR.

WASHINGTON (AP) — By 1975 the average man can look forward to nine years of retirement before he dies, compared with only six years now and three in 1950.

That is just one conclusion reached in a lengthy study made public Monday by the Bureau of Labor Statistics (BLS).

"The gap between the working-life span and the total life span," the BLS report said, "continues

to widen for most American workers.

One of the most important problems confronting the nation, BLS said, is how to prevent a waste of the productive capacity of older workers.

The study said "arbitrary age discriminations against older workers who must seek new jobs and compulsory age retirement of able employees deprive the nation of productive capacity."

Real estate firms and anthracite coal mines, the report said, employ the highest proportion of older workers—men and, in the real estate business, women over 45.

Almost half of all persons in real estate and 44 per cent of anthracite coal miners are 45 or older.

Some other conclusions reached by BLS:

1. The 12 million men and women over 65 today comprise twice as large a portion of U.S. population as the 65 and overs in 1900.
2. Americans 45 and older may increase to a total of 63 million by 1975, or nearly half of all those aged 20 or more.
3. Men are dying faster than women, and that trend is due to intensify. For instance—today there are one million more women 45 or older than there are men, but by 1975, BLS said, there will be six million more. Average life expectancy for a white man born in 1949 is 65.9 years; for a white woman, 71.5.
4. By 1975 the U.S. population will be 190 million, or about 40 million more than now.

Cons Leave Old Jail

McMINNVILLE (AP) — The Yamhill County jail, virtually falling apart between the bricks, was abandoned Saturday night by two more prisoners.

They used a window sash to knock the bricks out from the crumbling mortar.

Their hole was right alongside a recently patched place used by a departing prisoner two weeks ago.

It was only a matter of hours, though, before one of the men, Albert Uman, 29, Williams, was found at his parents' home in Portland.

The other, Donald Memory, 16, of Cleves, O., still was hunted.

The people recently voted money for a new jail and it will be built next year. The present one was built nearly 65 years ago.

Snead, Ferrier Pick Up \$5666

TOLEDO, O. (AP) — Eleven of 12 professionals headed Monday for Detroit and the Motor City Open starting Thursday — next stop on their golf tour — after winding up the Inverness best ball matches here Sunday. The pros carried \$18,000 in gold with them.

Sam Snead of White Sulphur Springs, W. Va., and Jim Ferrier, captured tourney honors for the second time with plus 13. They picked up winnings of \$5,666.66.

The winners were 37 under par for 90 holes after playing the final nine holes Sunday in 28 strokes, eight under par, for the tourney record.

Ed (Porky) Oliver and Doug Ford took second place with a plus one.

Boy Collapses During Hike

OREGON CITY (AP) — A 17-mile hike through rough country in the Bogby Hot Springs Area south of Molalla was too much for Gustav "Jackie" Venthin, 16, Cotton, Sunday and a group of loggers carried him the last four miles.

They had answered a call for help from Venthin's two fishing-trip companions who had wrapped him in blankets and loaded out for aid when he collapsed.

The three had gone on a two-day fishing trip that took them 17 miles beyond a road Saturday night and Sunday morning they were exposed to heavy rain and cold. The exposure apparently was too much for Venthin.

His companions were Monte and Miekie Cassidy of Molalla.

Venthin was brought to a hospital here where his condition Monday morning was reported to be very good.

Youth Has Car Trouble

NEW YORK (AP) — Glasses on or off, 19-year-old Herbert Feldman made something of a spectacle of himself.

First, Feldman crashed his car into the fender of Detective John J. Fleming's car Sunday. Fleming noted that Feldman's driver's license bore the notation: "void if not wearing glasses."

Feldman was not wearing glasses. Fleming took him to a station house and gave him a summons.

This time, with glasses on, Feldman got in his car to drive away. Greatly agitated, he drove the vehicle into another car and caromed off it into Detective Fleming's car.

Feldman then sat on the station house steps until a friend came to drive him home.

Spring Cleaning Job Planned

Mr. and Mrs. C. H. (Barney) Barnstable, 123 High Street, left this morning on a month's vacation trip.

During the first week of their absence, their Chat N' Nibble restaurant on Esplanade Street, is to be closed for renovation. During the remainder of the Barnstable's trip, the restaurant will be operated by employees.

The Barnstables plan to visit in Idaho, Iowa, Nebraska and California and will tour Yellowstone National Park en route.

Car Crash Kills Man

PORTLAND (AP) — A car overturned just northeast of Portland Sunday and sheriff's aides found one man trapped under it, and another beside under it.

The dying man was August L. Carlson, 68. The other man was the driver, Donald B. Broome, 23, who said he was alone in his car and didn't know he had hit a pedestrian. He said an oncoming car's lights blinded him and sent him out of control.

TRACK

Los Angeles—Sgt. Mal Whitfield ran 400 meters in 46.9 as the final tryouts for the selection of the U.S. track and field Olympic team were completed.

Warner Loses Diamond Ring

ANTIBER, France (AP) — Jack Warner of the American film company, Warner Brothers, reported Monday he had lost a \$9,000 diamond ring while swimming in the Mediterranean here.

He hired two young divers to help him search for it and promised \$1,000 if they recover it.

Extra Quick Pickup

with today's **EXTRA TIGER POWER**

Extra quick pickup...smooth gliding get-away. Both are yours to enjoy with Tiger Power in your tank. And today's Flying "A" Ethyl has extra Tiger Power! It's now richer than ever in "tiger stocks"...the power-packed molecules that make new cars and old eager for action.

More "tiger stocks" mean higher octane... unmatched anti-knock performance...silent surging power to meet every extra engine demand of today's high-powered cars.

Want proof? Try a tankful of Flying "A" Ethyl today. See what it's like to get going in your car...with extra Tiger Power!

FLYING A ETHYL GASOLINE

RICHER than EVER in "TIGER STOCKS"
...the most potent motor-fuel ingredient ever refined!

Why "TIGER STOCKS" Unleash EXTRA Power

Refined by a special Associated process, the "tiger stocks" in Flying "A" Ethyl are far more active... packed with more concentrated energy than any other gasoline ingredient. The process is highly technical, but the Tiger Power it develops is easy to observe in your car. Here's extra power you can feel on hills...on highways. Balanced power that keeps engines quiet as a cat on tiptoe. Responsive power that eases you through traffic, without stalling. Try it and see!
