## Prime Minister Resigns As Crisis Hits Egypt

By E. S. CHAKALES

ALEXANDRIA, Egypt (AP)—Turbulent Egypt struggled with her third cabinet crisis in five months Monday, following the resignation of Prime Minister Ahmed Naguib Hilaly Pasha and the naming of another veteran independent politician, Hussein Sirry Pasha, to form a new government.

The 66-year-old Sirry Pasha, who has been premier three times before, received King Farouk's mandate to form a cabinet Saturday night and at once began discussions with political leaders.

His task was made more complex by the usual summertime dis-

persal of government activity between the court, in residence here for the season, and offices in Cairo. Politicians shuffled back and forth between the two capitals.

One of the complications in the formation of a government arose over the question of the Interior Ministry, which controls police, municipal affairs and security. Some political observers reported Sirry Pasha had reserved this key ministry for himself. At the same time he had been reported anxious to include the retiring interior minister, Ahmed Mortada el Maraghy Pasha, in the cabinet. Maraghy Pasha, who made a good record as interior chief, was said to have balked at accepting the war or marine ministries.

No official reason was given for Hilaly Pasha's resignation Saturday, but there was speculation that he had not moved fast enough with his announced program of cleaning

up graft in the Egyptian government and winning the nation's chief aims—to oust the British from the Suez Canal Zone and to unify Egypt and the neighboring Anglo-Egyptian Sudan.

Dispatches from the cabinet crisis were subject to considerable delay. The cable and wireless office in London said an Associated Press dispatch Saturday, reporting Hilaly's resignation, was held by Egyptian censors for 36 hours.

Hilaly, himself, refused to make any statement to newsmen on his resignation. An outgoing cabinet minister, however, said the government "had found several obstacles which have made our job impossible." His only other explanation was that "certain irresponsible persons" had approached the U. S. embassy in Cairo in an effort to undermine Hilaly.

An embassy spokesman at once asserted that U. S. policy "is not to interfere with the domestic politics of another country, and this policy has been adhered to strictly by this embassy."

The Egyptian press recently had criticized the Premier for the stalemate in talks with the British on

the Suez and Sudanese questions. The British unofficially have agreed to evacuate the Canal Zone by stages but still refuse to recognize King Farouk's sovereignty over the Sudan, which Britain now administers.
