

More Flood Control Asked

WASHINGTON (AP) — Greater support for agriculture upstream flood control projects will be asked both of Congress and of the Democratic National Convention, Sen. Monroney (D-Okla.) said Wednesday.

Monroney, who will be a delegate to the convention in Chicago later this month, said efforts already have been started to include a platform plank favoring the proposal.

He told a reporter he also plans to ask the President to have upstream project funds included hereafter in the appropriation bill which provides funds for flood control and rivers and harbors projects.

He proposed, however, that the Agriculture Department continue to control expenditure of funds earmarked by Congress for upstream control work. Army Engineers handle funds for the larger projects.

Monroney tried unsuccessfully this year both to add five million dollars for the work to the Agriculture Department appropriation, and to earmark for the purpose two per cent of the Army Engineers' flood control funds.

He said proponents of upstream projects will ask next year for "a great deal more money" than has been provided for that type of work.

Monroney contends that provision for 365 millions for big dams on main stem rivers and only \$7,700,000 for upstream water and flood control projects is not in proportion to the importance to the upstream program.

Young Navy Worker Dies

BREMERTON (AP) — Bill Lyle, 18, a McMinnville, Ore., youth employed at the Fleet Sound Navy yard in Tiger Lake, southeast of here in Mason County.

The body was recovered shortly after Lyle went under and the Bellair fire department administered emergency treatment, then brought him to Bremerton. Surgery was resorted to in an attempt to restore the youth's heart action but without success.

He is survived by his mother, Mrs. Margaret B. Lyle, at 1135 Lafayette Ave., McMinnville.

TELLTALE THEFT
