## Stocks

**NEW YORK (AP)**—A demand for steel and motor stocks shoved the stock market ahead Tuesday.

After sagging a little from the day's high points, prices perked up again and were moving forward at the close.

There was some backing away from the day's tops in several of the groups but most issues clung to the gaining side of the ledger. Activity ran to around 1,200,000 shares.

## GRAINS

**CHICAGO (AP)**—Grains pushed ahead a little toward the close of Monday's board of trade session. There appeared to be renewal of mill buying in wheat, and traders had reports of stem rust in the spring wheat country. Some profit cashing developed on the advance. Corn moved upward with wheat, the deferred contracts showing to the best advantage.

There were minor gains in oats. At the finish wheat was 1/4 higher, July 1.81 3/4, oats were unchanged to 1/4 higher, July 77 3/4, rye was 1/4 to 1 cent higher, July 82.08 1/2, soybeans were 1/4 lower to 1 cent higher, July 83.36 1/2, and lard was 5 to 20 cents a hundred pounds lower, July 11.20.

## LIVESTOCK

**CHICAGO (AP)**—With the expected number of hogs on sale Tuesday, the market got off to a moderately active and steady start.

But then demand slackened off and the price structure fell back to a steady to 25 cents lower appearance.

Cattle were steady to 50 cents higher and lambs strong to 50 cents up with the top on springers \$1.00 higher.

Most butchers brought \$20.50 to \$22.75, a few topping at \$22.85. Sows were mostly \$16.25 to \$19.25 and a top of \$19.50.

Good to primo steers and yearlings were worth \$20.00 to \$35.50 while good to low-grade heifers took \$29.50 to \$33.00. Heifer cows topped that division at \$25.00.

At a top of \$31.00, spring lambs were in the best shape price-wise in more than a month. Old-crop lambs and yearlings were valued at \$25.00 and below while ewes remained at \$7.50 downward.

## Window Kicker Gets Jail Term

Ray Eshelman, 42, of 1319 Nimitz pleaded guilty in Municipal Court this morning to charges of disorderly conduct and being intoxicated, and was sentenced to 30 days in jail plus \$115 fine.

He kicked the window out of a car, parked at 7th and Main last night.

The car, a 1932 Studebaker sedan was owned—and occupied—by Mr. and Mrs. A. V. Waters, 3208 B. 6th. It was parked near the corner and Eshelman, according to witnesses, was "loitering nearby," leaning against a parking meter.

The Waters started to drive off and Mrs. Waters slammed the car door. Apparently that didn't suit Eshelman. He went over and started pounding on the door, creating a disturbance, generally. Finding he couldn't get the door open, he hauled off and kicked out the glass.

Mrs. Waters ran into the Corner Store, shouting for help, while her husband chased down Eshelman, who had run across the street.

A considerable crowd gathered at the corner, attracted by the disturbance, and Eshelman was taken into custody by a City Police officer.

## FALSE ALARM

FLUHRER'S

**"Are you telling ME..."**

the state dictates WHO may produce milk and HOW MUCH?"

Yes

No farmer can sell milk for home or restaurant use without permission from the Milk Administrator.

Milk Control decides how much milk will be available for your use.

It picks out which—if either—of two neighboring farmers can sell their milk even though both may be equally able to produce wholesome Grade A milk.

If Milk Control permits either of them to produce such milk, it then tells each farmer how much he may provide for your use.

This powerful, single control over Oregon's milk supply is called the "quota system."

If a farmer's cows forget this, get out of line and produce more than the quota picked for him, he must take whatever price he can get some other way—such as selling it at much lower prices for cheese, powdered milk, and the like.

Not Oregon's producers, but the State, decides exactly who will produce the milk for our needs and how much each farmer can produce. Such limitations frequently have made it necessary to depend upon the uncontrolled Washington market for enough milk, instead of our own Oregon farmers.

**SHOP SAFEWAY... FOR FINE FOODS AT EVERYDAY LOW PRICES**

The questions and answers below show some other ways in which Oregon Milk Control affects YOU.

Q. Does Milk Control hold prices up?  
A. YES. That is the purpose for which the law was designed. It sets floor prices, not ceiling prices.

Q. Does Milk Control discourage competitive distribution of milk?  
A. YES. No one can enter the milk business if the Administrator says such new competition might disturb existing distributors.

Q. Does Milk Control allow you a lower price when you carry milk home yourself?  
A. NO. You pay the higher costs of door-to-door delivery whether you use this service or not.

Q. Does Milk Control limit the richness of milk?  
A. YES. The richness (butterfat content) of milk sold in each price range is limited by the rulings of the Milk Administrator.

Q. Does the Oregon Milk Control Law regulate Sanitary conditions?  
A. NO. It has absolutely nothing to do with the sanitation, health inspection, cleanliness, or the purity of milk.
