Thorogood, returned to Klamath Falls with their daughter and returned to Bell after a four-day visit. Mr. and Mrs. Thorogood formerly lived in Westside.

Tree Pruning Clears Logs

FORT KLAMATH—A six-man pruning crew is working in the Seven-Mile Creek area near here removing branches from selected ponderosa pine trees.

The pruning operation will make the timber of top quality as it develops, according to Klamath District Ranger R. L. Cooper of the Rogue River National Forest. The pruners are removing knots and limbs on the lower portions of the trees, he said. The lumber made from those trees later will be clear and of higher quality.

Alvin Anderson, Klamath Falls, is in charge of the project, which so far has limbed trees selected for their age, position, condition and location over a 5,000-acre area.

Cooper said about 7,000 more acres are to be treated. The project is to last over a seven-year period. It is paid for by timber sales, Cooper said, and total costs are estimated at about \$30,000.

The ranger said clear timber today is coming only from trees 350 to 600 years old. He said there are few of those left, and the pruning will provide clear lumber in still younger trees.

The pruning crew last year worked in the Scott Creek area west of Crater Lake National Park. They prune between 40 and 60 trees a day, working throughout the winter when weather permits. In some spots, Cooper said, trimming was done from eight-foot snow banks which allowed pruners to reach higher. Trimming is done at least one 18-foot log length up the tree.

Trimming crewmen are also on call at all times for fire suppression, Cooper said.

ATTENTION!

The American Legion needs help in getting the delegates and visitors to the various functions Sunday, Monday, Tuesday & Wednesday of next week. If any one will volunteer to use their car or any of these days, please contact Legion Convention headquarters at 2-2671

AN EASY WAY TO HAVE A PIANO

You can rent a lovely new spinet piano from the Louis B. Mann Piano Company, 170 N. 5th, at a low monthly rate. After a reasonable time you can, if you wish, change from rent to purchase agreement. The rent already paid is all credited to your purchase account and no other down payment is necessary. The monthly payments can be little higher than rent. Or if you prefer, you can continue to rent.

Steel Strike Curtails Munitions Output

By HARRISON HUMPHRIES

WASHINGTON (AP)—A shutdown of the army's largest shell-making factory emphasized Wednesday the developing crisis in defense production resulting from the steel strike now in its eighth week.

Secretary of the Army Frank Pace announced Tuesday that a shortage of steel has forced the closing of the Chevrolet plant in St. Louis, which makes about half the Army's 105-millimeter artillery shell casings.

Pace said the shutdown will "seriously affect the production of finished shells by next month" when the impact begins to reach the shell loading plants.

"Of necessity," he said, "it will continue to affect the production of finished shells for several months thereafter."

The plant, employing 2,600 workers, is operated by the Chevrolet Division of General Motors.

Already, the strike over wage boost and a compulsory union shop demanded by the 650,000 members of the CIO United Steelworkers Union had curtailed production of aircraft and automotive parts vital to the defense program.

The trade magazine Iron Age es-

timated total unemployment resulting from the steel strike at nearly two million workers and the total loss to the nation's economy at four billion dollars. It said steel production losses will total 17 million tons by the end of this week.

Meanwhile, a government-backed task force of five steel industry executives proposed a formula for getting industrial production under way when the strike ends. Priority will be given defense orders.

The six-point formula, announced by the National Production Authority (NPA) and expected to be adopted with little change, calls for:

1. All military orders accepted for delivery through November to be filled by Nov. 30, if the strike ends in time.

2. Military orders on which delivery is needed by Oct. 1 to be pushed under mandatory priority directives to the mills.

3. NPA to require each mill, starting Oct. 1, to earmark a specific tonnage of its output solely for

the military and atomic energy programs to prevent overloading of a few mills with defense orders and creating local shortages for civilian use.

4. Tightening of inventory controls to prevent any hoarding of steel.

5. No change in the programmed allocations of steel for the fourth quarter of this year, but adjustments to be made in the January-March quarter of 1953 for those who cannot get the allotment tickets honored this year because of the shortage of metal.

6. Allotments of steel for fourth-quarter delivery to be made valid for delivery as late as January or February next year.

Happy Is The Day When Backache Goes Away

Nagging backache, loss of pep and energy, headaches and dizziness may be due to slow-down of kidney function. Doctors say good kidney function is very important to good health. When some everyday condition, such as stress and strain, causes this important function to slow down, many folks suffer nagging backache—feel miserable. Minor bladder irritations due to cold or wrong diet may cause getting up nights or frequent passages. Don't neglect your kidneys if these conditions bother you. Try Doan's Pills—a mild diuretic. Used successfully by millions for over 50 years. It's amazing how many times Doan's give happy relief from these discomforts—help the thousands of kidney tubes and filters flush out waste. Get Doan's Pills today!

TOPS IN PAY LOAD!

If you use gasoline-powered tractors in the 45,000 GCW class, here's big news. This new GMC Series 470 will haul more pay load than any other vehicle of its rating with comparable standard equipment—up to more than a half-ton than some!

That's because GMC has found new ways to take dead weight out of truck design by advanced engineering.

One example is GMC's sensational new "302" valve-in-head engine that delivers 145 h.p. at 3200 r.p.m. It weighs less than other engines of equal power by as much as 500 lbs. Yet it's the highest-compression gasoline truck engine ever built—gives you extra mileage from regular fuel!

Come in. Compare them—in power, in pay load, in rugged long-life construction—against all the rest!

Then check the price and you'll agree: nowhere else will so little buy so much in a 3- to 4 1/2-ton truck.
