It Happened This Way in New Pine Creek

By IRVIN FARIS

Daylight Saving Time (couldn't be anything else) has nearly wrecked this that was once a strong body and has caused Father Time to set back, obviously troubled, wearing a foreboding frown as he views with alarm the human family struggling with these ungodly long hours and long days — in the performance of their mutiple activities.

But nevertheless amid this struggle of highly commercialized human energies, various farm crops are developing fast under the impetus of late, heavy rains and by the able assistance of Old Sol who is certainly doing his heavenly bit these fine, warm summer days to make things grow.

In this vicinity most of the alfalfa will be in stack or bale this week and ranchers already have begun to cut their fast ripening meadow hay. The grain is beginning to turn and the way the heads are filling on the thick stems, the over all picture makes the valley beautiful and augurs well for an abundant crop yield.

As the good hay crop is being harvested—another rather mysterious crop is coming into observation—that strikes the eye with a question mark? What in the world is happening to men's faces? Yes—you've guessed it. It is the result of seeds sewn by the Lion's Club in the interests of the Lakeview Roundup Whiskerino contest — which have begun to sprout rather profusely, with cooperative gusto! Yeah! repercussions of this heterogeneous broadcast are being felt clear down here at the south end of the county on the state line.

But what has Laughing Boy Mercer done? No—Mercer! What no latitude for self-styling — no individuality? Is this crop being regimented? Remember all seeds do not fall on fertile soil. Therefore all plantings cannot be alike. Some continuous lines you aim to develop will be broken — spotted — terrible! Cooperation in the endeavour (which is hard enough at best) is one thing. Uniformity of design for everyone regardless — is quite another! There must be some mistake. You don't want this Lake County tribe of he-males looking like the south end of a band of monkeys going north? Continuous lines!! No!

This logic is prompted by word that many perfectly good whisker growers have gotten so disgusted with their crops that they have plowed under the whole effort all because of the following edict as published in last week's Lake County Examiner: quote—

"The beards must form continuous lines, that is, chin whiskers must join sideburns at or near each ear; mustaches must join sideburns at or near each ear. However, mustaches with goatee will pe permitted provided mustaches and goatees are joined by continuous lines of hair both east and west of the mouth." Now — what is the status of one facing the west watching the sun go down?

No. Might be advisable to forfeit the speculative fruits of the crop and pay the fine! S-a-y-y? Yeah—'tis so. That $6,500 debt must be paid somehow—quite so! But — shall the original idea of the Whiskerino be forsaken meanwhile! No, let's stay with our guns and our crops and help publicize a great show—the Lakeview Round-up to be held August 30, 31 and September 1st.

Attending the regular meeting of the East Side Grange meeting last Saturday evening, July 19, was Mr. and Mrs. Yancey, officers of the Klamath County Pomona Grange. The purpose of their visit was to help make plans for the big, two county wide Pomona Grange picnic which will be held July 27 at Booth Park about twenty miles west of Lakeview on the highway toward Klamath Falls.

A large crowd is anticipated for this event as a special program of music, singing and various contests is being planned with numerous prizes to be awarded. All grangers and their guests are invited to attend this big gathering.

After the Grange meeting Saturday evening the members present enjoyed a few rounds of square dancing before the midnight supper was served. Mr. John Noble, of Ashland, Oregon, who is visiting his daughter, Mrs. John Richardson and family, called the turns.

Mr. Joe Harris of Portland spent a week recently visiting his daughter, Mrs. JoAnne Means and family. He had not seen his daughter for nine and a half years.

The mining season is on again in full prospective force when mine owners are doing both commercial and regular annual improvement work to hold their claims. The three most active mines at present are: Consolidated, owned and operated by Elmer Ahlstrom and Raymond Powell, Lakeview, where a recently installed mill is working this summer; the Klondyke mine, owned by the Klondyke Mining Company and operated by Ed Benefiel—where also a mill is grinding away; and the Moonlight Mine, owned by Carl Fetch, Raymond Powell and Wellman Smith.

The latter, recently returned from Grants Pass, is getting heavy snow damage under repair and is making ready to extend the main shafts, both lateral and vertical.

Wellman was somewhat vexed and perplexed, Monday July 21, when he went after water where it was piped from a spring along the road down at the old High Grade mine. He had been working there just the day before cleaning out the pipe etc., and had disconnected one joint of inch and a half pipe. This he left lying beside the trench where it had been embedded.

When he took his barrels to fill with the nice cold spring water which he could catch from the end of the pipe when he connected it back up—to his puzzled chagrin the joint of 1½ inch pipe was gone!

"Don't know why they waited until now, just when I needed it to steal it," he opined. "It's been there all the time. I got a hunch who stole it though and I'm sure going after it."

Bill Larkin of Alturas, is up working his claim this summer. William C. Larkin and family of Santa Rosa who is currently visiting with Mr. and Mrs. Bill Allen will also do some improvement work on his claim up in the High Grade district.

When she pulled into New Pine Creek Mrs. Lois B. Kenworth and her small daughter, Margaret of Campbell, Calif., had travelled alone over 5000 miles visiting in St. Louis and viewing various Rocky Mountain National Parks, including the Yellowstone. In response to the remark, "You have great courage," she replied nervous like, "It's not so much courage as just faith in my Dodge Sedan."

The unusual pair were guests at the State Line Motel Monday night. She was acquainted with the Penhalls who visited here last week and went to school with John Penhall's sister at Campbell.

Mr. and Mrs. H. F. Stangy of Woodburn, Oregon are spending a few days visiting with Mr. and Mrs. B. F. Palmer. Mrs. Stangy and Mrs. Palmer are sisters.

Last Saturday, July 19, Mr. and Mrs. Wally Miles now of Dayville, Oregon, came for their two daughters, Barbara and Kathy, who have been visiting since the Fourth of July with the Palmers — their grandparents. Wally Miles, a former gypo lumber handler of Lakeview, is now in the logging business at Dayville. He owns his own equipment and logs on rather a small scale but he had about 3 million feet of logs to get out before the snow flies this fall.

Audrey Millsap, of Willow Ranch Loretta Anglano and Dickey Cooper, accompanied by Mrs. Louise Miller are making preparations to attend the Juvenile Grange Summer camp at the skyline lodge about 9 miles out from Bend. Last year there were eighty youngsters in attendance at the camp and this year the forecast is that a much larger number will attend. The Juveniles' plan to depart Aug. 4.

W. J. Sanford of Sacramento arrived Sunday for a visit with his son, Earl Sanford and family. En route he visited relatives at Grass Valley and his daughter, Mrs. Beatrice Atcheson in Cedarville. Although Mr. Sanford is an octogenarian, you'd never know it by the way he gets around. He drove his own car up in making the trip.

A. L. Florence and family; C.C. Jordan and family and John Hall and family all employes of the Moore Construction Company of Oakland are making their homes temporarily at the State Line Motel. All three men are heavy equipment operators working on the California State highway between New Pine Creek and Alturas.

Mr. and Mrs. Erwin Lenkeit and family arrived by their private plane last Saurday and spent about four days with his parents Mr. and Mrs. Art Lenkeit. It took them about five hours to fly up from Los Angeles. The airway was a little rough over the area of the Donner Pass due to air currents which had a bumpy wash-board effect on the plane. They will leave their two boys here for a month while Mr. and Mrs. Lenkeit fly to South Yellowstone where they have reservations. Erwin will do some fishing at that point, where that sport is reputed to be extra good as all fish under twelve inches are requested to be thrown back.

Mr. and Mrs. A. W. Roop of Oklahoma City arrived last Friday to spend a week or so visiting their daughter, Mrs. Robert S. Hayes and family at the Buck Creek Ranger Station.

Professor Roop is assistant principal at the Oklahoma City High school where 2,100 students are enrolled. In that capacity, the school management has 80 teacher to look after and Prof. Roop, with a class or two to teach, is kept busy with numerous details in keeping everything in the institution going properly. The Roops are enjoying this country immensely. This is the first time Mr. Roop has been this far west but Mrs. Roop visited her daughter last year.
