# New Egyptian Boss Takes Drastic Actions

CAIRO, Egypt (AP) — A government decree impounding all of ex-King Farouk's vast holdings in Egypt is expected to be issued Tuesday night, Justice Minister Mohamed Aly Houshdy announced. The announcement came as Premier Aly Maher opened an anti-corruption drive to probe

bribery, graft and unlawful profits by government officials. At the same time, the powerful Wafd party — which governed Egypt during most of the time the official stealing is supposed to have taken place — launched a purge of its own ranks. It kicked out nine members, three of them former cabinet ministers, and set up a party com-

mission to examine "any complaint brought against the probity of any Wafd member." Maher, chosen "purge" premier by the Army following its coup which led to the abdication of King Farouk, in two separate decrees Monday: 1. Set up a commission of career judges to "investigate and punish administrative offenses by govern-

ment employees." 2. Ordered "all responsible officials or officials filling representative posts" to submit a full statement of their income to a second commission before the end of the year. If an official's income increases after he takes office, he must explain why. Official sources said government bans against 173 foreign publica-

tions, including Life magazine and the Saturday Evening Post, have been lifted. These publications were barred from Egypt for publishing stories unfavorable to King Farouk.

## Interpreters Check Truce

MUNBAN, Korea (AP) — United Nations interpreters checked over English, Chinese and Korean texts of the Korean armistice draft Wednesday to make sure they all say the same thing. Communist interpreters are making the same study. Word on the draft in the three languages has been agreed on by staff officers of both sides. Full delegations, still deadlocked on the number of prisoners to be exchanged in the event of a truce, will meet Monday, ending a week-long recess. A Peiping radio broadcast heard in San Francisco said Communist liaison officers promised to the U.S. jet planes flew over the Panmunjon conference site three times Monday in violation of the neutrality agreement. There was no comment from U.N. command officers.

## Miners Rush For Uranium

PRINCE ALBERT, Sask. (AP) — One of Northern Canada's biggest rushes for mining claims was in full swing Tuesday, with uranium instead of the traditional gold as the lure. Hundreds of prospectors scampers about Saskatchewan's northwest corner, staking claims to explore hundreds of square miles for the prime raw material of the atomic age. More than 800 claims, each 1,500 feet by 1,500 feet, were expected to be marked off during the first two days. The staking started officially at 8 a.m. Monday, but officials figured that some prospectors in remote corners of the bush probably got a head start. The newly opened area covers a major part of the Beaverlodge field on the north shore of Lake Athabaska, reportedly one of the richest uranium-bearing finds on the continent. The territory had been let on three-year concessions to some 30 large mining syndicates. Upon expiration of the concessions recently, the companies were allowed to stake claims to 10 per cent of their original tracts and the rest was opened to the public.

## Shiny Firemen Answer Alarm

PORTLAND (AP) — Firemen from the central station answered an alarm Tuesday in their best bibs and tuckers. They spent a messy 30 minutes putting out a small fire at a downtown hotel. It was the day of the annual chief's inspection. Firemen had spent hours pressing their dress uniforms, shining shoes, and getting really spruced up. They were lining up for the inspection when the alarm sounded.
