

TULELAKE GRAIN CO.

A Pledge to the Growers in the Klamath Basin

Over a period of five years our company has invested over one million dollars in grain handling facilities in this area and we have devoted our full efforts in finding the best markets for your grain products.

Tulelake Grain Co. announces the appointment of Harold W. Poort

as general manager and as special representative of Kerr Gifford & Co., Inc. in the Klamath Basin and Tulelake and tributary areas. Mr. Poort was formerly manager of the grain department of the Farmers Grain Cooperative in Ogden, Utah, which is the largest grain buying cooperative in the Inter-Mountain area. Harold Poort has been trained to service the farmers needs, and it will be our pledge to render a service to the grain growers of the Klamath Basin in receiving, storing and marketing their grain. There will be no change in the policy of our company.

LOUIS STEWART will assist in the buying of grains and clover, and FRANK WAGNER will remain as office manager at Merrill. JOHN SANDERS will be in charge of the feed mill operations at Merrill soliciting the requirements of the farmers for feeds, seeds, fertilizers, and other farm supplies. TOMMY CHATBURN will assist Mr. Sanders in these duties. BRUCE HAGERMAN will be in charge of turkey operation.

Tulelake Grain Company operates grain storage and grain handling facilities at Kandra Siding on the Great Northern Railway; Staley on the Southern Pacific Railway; Jap Camp on the Southern Pacific; Stonebridge on the Great Northern; Merrill on the Southern Pacific and Great Northern; Lost River on the Southern Pacific; and Dairy on the O.C.E.

All storage facilities will be supervised and operated by experienced personnel, and will be in complete readiness to receive and handle your crop. It is only by proper service and by affording the top market on your grain crops and on clover that we can expect to merit your business and your faith in our management. We pledge that we will continue to merit your confidence in us.

You are assured of our full cooperation at all times,

Thomas Kerr

PRESIDENT

Tulelake Grain Co.
