

ARE THEY THE SAME GIRL?—The possibility that Connie Smith (left) who disappeared from a girls camp in Connecticut two months ago, and Kim (right) self-designated Indian girl found in the woods near Fort Worth, Tex., recently, are one and the same girls is being explored by Connecticut state police and Connie's father. Connie is only 10, but is well developed for her age. Kim, who said she was a member of an Iroquois Indian tribe living on a St. Regis River Island between Canada and the U.S., is now on a ranch near Antelope, Tex.

Editors And Writers Say Ike Could Win Race Now

By DOUGLAS B. CORNELL
 NEW YORK (AP)—Newspaper editors and political writers over the country consider Republican Dwight D. Eisenhower the probable winner over Democrat Adlai E. Stevenson — if the presidential election were run off today.
 But many newsmen who took part in a nationwide survey undertaken by the Associated Press believe large numbers of voters haven't made up their minds. They say it is too soon to tell who may hit the wire first in November.
 Where editors say they have spotted present trends toward the GOP, the reasons they mention most frequently are currents of time for — a change sentiment and Eisenhower's personal popularity.
 In state after state, newsmen believe the general will make a

better showing in his first bid for an elective office than GOP nominee Thomas E. Dewey did four years ago.
 The collective opinion of editors and correspondents, brought together from surveys that tapped political sentiment at the grass roots in a great majority of the nation's counties, is that Eisenhower would be fairly sure of 15 states with 163 electoral votes if the vote were taken now.
 They believe an additional 12 states are doubtful but would be inclined at this time to go Republican. If Eisenhower collected all their 142 votes, his total would reach 295 — 29 more than the 266 required to clinch the election.
 Newsmen believe that Stevenson, at this point, could be reasonably certain of 12 states with 121 electoral votes and that he might pick up three doubtful ones with 49 votes.
 That adds up to 170 votes — 96 short of the 266 mark.
 Half a dozen states with 66 votes are regarded by newsmen as on the fence at this time. Even if Stevenson bagged all of those, he wouldn't have enough to win on newspaper scoreboards.
 So, as the editors see it, Stevenson will have to smash away in the few weeks remaining before the election at states that now look safe for Eisenhower and those that appear to be wavering toward the general.
 But the Illinois governor knows what he is up against, for the survey estimates dovetail with Stevenson's statements soon after he was nominated that he faces an uphill fight, that a desire for a change in Washington is perhaps the biggest hurdle he will have to clear.

Soroptimists Hear Teachers

"Know the Klamath Basin?" was the topic of the meeting of soroptimists held Thursday at the Pelican Cafe. It was most interestingly presented by Harold Ashley and Mrs. Buena Stone who are very well known in the educational field being connected with the city schools. They were introduced by Mabel Howard, acting chairman of the day.
 Mrs. Stone acted as commentator while Ashley showed beautiful colored pictures of many various wild flowers which grow around the basin, of rock formations and scenes of the mountains, lakes and country roads which made all feel much better acquainted with Klamath Falls and the Basin.
 Guests for the day were Mrs. Sam Coon, Baker, Ruth Peyton, Klamath Falls and Dorothy McDonald, Portland.
