

**PILOTLESS PLANE HEADING FOR RED TARGET**—This is first series of pictures to be released showing the launching of a pilotless F-6-F (at left) armed with a powerful warhead against the Communist in Korea. An AD-2 guide Drone, or guided missile, at left in center, photo, starts on its way controlled by second guide plane at right. In bottom photo guide plane (right) prepares to follow drone until plane that took off previously can take over. The first guide plane then took over and guided drone to its target and made it crash into objective. (Navy photo released by Department of Defense.)

### Five Survive 72 Hours On Top Chinese-Held Baldy

SEOUL, Korea (AP)—Five American soldiers—wounded, hungry and without a drop of water—lived through 72 hours of hellfire on the rugged Korean hill known as Old Baldy.

When their buddies from the 2nd Division retook the height Sunday after savage fighting with Chinese Reds, the five stopped playing dead and crawled or were carried from their battered bunker.

They had huddled in the dilapidated log and earth cave under the earth-shaking pounding of Allied and Communist big guns.

Twelve men had crawled into the bunker Thursday evening when an assault force of Chinese swarmed over their positions. Seven died in the bunker or may have escaped.

The account of their ordeal was given by Cpl. Ed Berlin, front-line reporter for the Pacific Stars and Stripes, who interviewed the men on the scene.

Time and again during the first night, Berlin said, Chinese soldiers threw grenades into the small enclosure. Just as often, a Red soldier would peer in and open up with a spray of machine-gun bullets. The trapped men fired back at each intruder.

Then the men in the bunker lay behind the bodies of their dead fellows and kept still, hoping, hoping, hoping the Reds would think them dead too.

One of the survivors, a 22-year-old private first class from New York City, told Stars and Stripes: "We couldn't have lasted another day but we knew they wouldn't let Old Baldy go. We never lost hope and all of us prayed."

A big master sergeant from California said the men went without food the entire time although they had plenty of rations.

"We had no water so we were afraid to eat anything," he said.

The sergeant also related how the Chinese thought everyone in the bunker was dead.

"Logs and stuff were piled in the doorway and after the last Chinese sprayed us with his burp gun they let us alone, except for their artillery and tanks. We must have gotten at least 150 direct or near hits."

The only food they touched during the 72 hours was a can of grapefruit juice and a couple of oranges. The men cared for their wounds as best they could. The private gave a lieutenant in the bunker a blood transfusion from a bottle.

During that first night, the pri-

vate said, "the Reds came up to the bunker every five or 10 minutes. Each time one of them popped his head in the door we let him have it with our carbines. After that we kept quiet but were constantly being hit by either our own or the Chinese artillery and mortars and tanks. One shell came through the aperture (in the bunker), but luckily the air strikes missed us."

"All of us were bloody and I think that's what saved us. We were afraid to fire because we might let them know we were alive. So we just got as low as we could behind the other bodies and awaited it out. We dozed once in awhile, but we couldn't sleep. No one lost his head. All of us were cool because we just knew the Second Div would retake Baldy."

"Sunday night we were sure the attack had finally started because we felt heavy artillery coming in and we heard small arms fire down the slope."

"After we got in the bunker we knew that Company 'K' had left the hill and now was coming back. About 6 o'clock Sunday some of our men got to us. We told them to come on in, but they were afraid the Chinese had hooked booby traps to us. They thought it was a trick."

"A few minutes later another group came by and they took us out. All of us were mighty happy. I can tell you."

"But we still remembered our company commander and the other who didn't make it."

"We sure were lucky," the sol-

### Portland TV On Schedule

PORTLAND (AP)—Station KPTV, the first commercially operated ultra high frequency (UHF) television station in the U. S., went on the air here Saturday and brought Portland the city's first regular television broadcast.

The station went on the air at 4:30 p.m. with Herbert Mayer, president of Empire Coil Co., and builder of the station, making a short talk.

That was followed by two short films. Then came two network shows and a feature film.

Mayer said that only a few other programs will be broadcast before the station begins regular operation Oct. 1.

Applications for one other UHF channel and three other very high frequency channels here are on file.

During that first night, the private said, "the Reds came up to the bunker every five or 10 minutes. Each time one of them popped his head in the door we let him have it with our carbines. After that we kept quiet but were constantly being hit by either our own or the Chinese artillery and mortars and tanks. One shell came through the aperture (in the bunker), but luckily the air strikes missed us."

### Chest Groups Submit Funds

LAKEVIEW — All organizations and agencies which wish to have a part in the 1952 Community Chest funds drive are asked to submit their funds requests not later than Sept. 25. It was announced by Phil Quisenberry, county Chest chairman, following a meeting held Tuesday night, Sept. 16, at the Chamber of Commerce office.

Father James O'Connor, pastor of St. Patrick's Catholic Church and Guy Miller, manager of the J. C. Penney Company store, accepted joint chairmanship of the funds drive for 1952.

The group discussed a request of the Lake County Chapter, American Red Cross, to enter with Community Chest into a concurrent funds drive this year. The group agreed to enter the plan this year, but details are yet to be worked out before final decisions and plans can be made in that direction.

Several agencies budgets are already turned in and the budget committee will probably start its screening work soon, Quisenberry

appointed the following men to this committee: Ray E. Harlan, John Buell, Carter Fetsch, Carl Pendleton, Ray Kerr, Herbert Stover, Homer Powell and Lee Hansen.

Opening date for the drive was discussed but not definitely set, as this may depend upon the speed with which details of the concurrent drive with Red Cross can be worked out.

TALK about curb service—GMC Panel Delivery Trucks are famous for it! They're truck-built to stand the rugged stop-and-going it takes to stay on top of the toughest delivery schedules. There's good reason for this exceptional performance.

There's power—horsepower unsurpassed by any other panel truck built! And to go with the "go," a GMC has wider two-shoe hydraulic brakes—longer "pillow-action" springs—

circulating ball-bearing steering that makes these nimble panel trucks handle like convertibles.

Come in, get the facts on these outstanding 1/2- to 1-ton GMC's today. The colors they carry, their smart appearance, the way they deliver the goods—all mean a GMC will speak best for your business!

## WHY MOVIE STAR FARLEY GRANGER CHOSE CAMELS!

Rehearsing and acting before the cameras places heavy demands on an actor's voice and throat...

NATURALLY, THE CIGARETTE I PICKED FOR STEADY SMOKING HAD TO AGREE WITH MY THROAT—HAD TO BE MILD!

Farley Granger tested and compared different brands and made this decision...

CAMELS GAVE ME THE PROOF I WANTED! I MADE THE SENSIBLE TEST... THE 30-DAY CAMEL TEST! CAMELS SUIT MY THROAT AND TASTE TO A T... PACK AFTER PACK!

I REALLY ENJOY CAMELS —THEY'RE MILD AND THEY TASTE GREAT, TOO!

**AMERICA'S MOST POPULAR CIGARETTE — BY BILLIONS!**

Like Farley Granger, test CAMELS in your "T-Zone" for 30 days...see how MILD and FLAVORFUL a cigarette can be!

FOLLOW the lead of Farley Granger! Make the sensible test...the thorough test...the 30-Day Camel Test! Smoke only Camels for 30 consecutive days! Test them and compare them for mildness and for flavor!

Your own "T-Zone" (T for Throat, T for Taste)—the sensible proving ground for a cigarette—will tell you how mild and good tasting Camels are. By smoking Camels steadily—pack after pack, day after day—you'll soon see why Camels are by far America's most popular cigarette! Yes, you'll see why so many smokers say, "I'd walk a mile for a Camel". Start your own 30-Day Camel Mildness Test today!
