

Ballot Measures - No. 4

## Truck Tax Measures Rate Top Importance

(This is the fourth in a series of articles discussing the various measures on the Nov. 4 general election ballot.—Ed note.)

By HALE SCARBROUGH  
Two of the measures on the Nov. 4 general election ballot necessarily must be considered together, because the nature of the two dictate that a yes vote for one calls for a no vote for the other, and vice versa. Otherwise they contradict each other.

## In The Day's News

By FRANK JENKINS  
As these words are written, the pleasant and prosperous little city of Casper, Wyoming, holds the center of the political spotlight in America. There Governor Stevenson declares today:

"There are desperately important issues in this campaign... but you would never guess it from listening to the Republican candidates. They prefer SLOGANS, EMOTION AND CONFETTI!"

In Casper last night, Senator Tait listed what he called the three BIG issues of this campaign. This is how he listed them:

1. Corruption in government.
2. The threat to American liberties from the growth of BIG GOVERNMENT.
3. Foreign policy.

If our government is corrupt and STAYS CORRUPT, our liberties will soon be gone. All history tells that lesson into our ears.

The essence of the American way of life is our fierce belief as a people that OUR TOWN is the axis around which the world revolves. No other country is like that, it is OURS ALONE—as the big department stores say of their most cherished and distinctive specialties. If our federal government gets too big and stays too big, it will SWALLOW UP our town.

If that happens, our distinctive way of life will be gone and we will have been stamped into the prevailing pattern of the rest of the world.

A word about foreign policy. It is foreign policy that takes our boys away from home to die in foreign lands. If we're to go on sending our boys away to die in foreign lands, we must have a foreign policy we're willing to die for and have our sons die for.

We HAVEN'T such a foreign policy now.

Is that "confetti"? Is it sloganeering? I think not. But if it is, I'll STILL TAKE IT in preference to these slogans around which Harry Truman, who is the REAL ARCHITECT of the Democratic drive to stay in power, is building his whistle stop campaign:

1. "You never had it so good."
2. "Don't let 'em take it away."

I'll admit that the three big issues that Senator Tait names and that General Eisenhower COMPLETELY agrees with are based upon emotion.

## Grand Jury Returns 8 True Bills

A total of 34 indictments, only eight of them open, were brought in last night by the Klamath County grand jury at the close of its week-long session.

In addition the jury found two not true bills which dismissed charges against persons in custody and inspected all the jail and detention facilities in the county.

The eight true bills which were not secret charged: Keith E. Peck with negligent homicide, concerning the automobile accident, Sept. 6 of Lowell Wilson of Dorris, Peck is to be arraigned in Circuit Court on the charge Oct. 27.

Robert Kral with contributing to the delinquency of a minor, a 19-year old girl whom he is accused of taking from her home here Aug. 19.

Giles L. Dingus with obtaining money by false pretenses, a \$10.25 check he is accused of passing Aug. 22, at the 2nd Street Grocery.

BURGLARY Frank Gestvang with burglary, not in a dwelling, in connection with the Sept. 22 burglary of the Roy Call Wrecking Company office.

Maurice Berry with assault, armed with a dangerous weapon, the June 12 stabbing of another Negro, Charlie Lewis.

Ernest Stanley Gayhart and Irma Sue (Callahan) Wiscarver with larceny from the person, the alleged theft of \$20 July 26 from Paul E. Knauss.

Carl Petersen with incest, the alleged crime involving his sister, Raymond Ambrose Pennington with non-support of four minor children.

All at either in custody or free on bail. The two not true bills cleared Rube Moore of a charge of statutory rape, and John Gamble and Blanche Lake of charges of larceny by embezzlement.

RELEASED Circuit Judge David R. Vandenberg ordered Moore and Gamble released from jail last night. Miss Lake was free without bail.

In its written report, the grand jury lauded the City of Klamath Falls in the operation of its new jail building, also termed the Crescent Jail entirely adequate, and found the juvenile one and Klamath Nursing Home clean and in good condition and operation.

But it pointed out overcrowded conditions at the County Jail and suggested that an addition be planned to increase its capacity by a third, either by adding a third story or a wing.

## Optimistic Tone Marks Opening Of Chest Drive

A Klamath County Community Chest drive becoming popularly known as a "we will" campaign was launched this morning.

The drive, split into four divisions, is headed by Elton Smith, U.S. National Bank. The four divisions and their directors are: Chest Secy. Beth Anderson is office manager at headquarters.

The tone of optimism that has marked this year's chest drive was strongly evident yesterday afternoon as campaign workers and directors held a final briefing session.

This morning the drive began without any fanfare; there was no "kickoff breakfast" or other special activity to mark the start.

"We are going to work and spend as little time as possible on such side activities as 'report luncheons' and such," said Smith.

"We'll keep a running tab on campaign returns at headquarters but we won't take time to call all workers in for periodic report meetings," he added.

The chest goal this year is \$76,948, split between state and local community service and welfare agencies.

As usual, the Advance Gifts section got under way a week earlier than the other three divisions and first reports are "heartening," according to Elton Smith.

## Authorities To Question Small Child

CHESTER, Calif. (AP)—"Did you have a nice ride, Sondra Gay?" That is the first of a series of questions authorities hope brutally beaten little Sondra Gay Young will answer—and lead them to a robber who beat her and bludgeoned her father and three children to death near here Friday.

Sheriff's officers said they pinned great hope on the memory of 3 1/2-year-old Sondra Gay, as numerous other leads dissolved under investigation.

Sheriff M. H. Schooler of Plumas County said his investigation had narrowed to "four hot suspects," but none were "close to arrest."

Sondra Gay is recovering slowly from skull fractures. She was found Saturday stuffed in the trunk of the family car along with the bodies of her grocer father, Gard Young, 43, two sisters, Judy, 6, and Jean, 7, and a neighbor boy, Michael Sallie 4.

Officers said the killer or killers apparently waylaid Young as he returned to this small logging town with \$7,128 cash from his customary Friday trip to a bank at Westwood, 14 miles away, to get funds to cash loggers' checks.

The children were along as a special treat. "Did you like your popsicle?" is another question Sheriff Schooler has propounded for Sondra Gay's mother, Mrs. Christal Young, to ask as soon as the child can be questioned, probably Tuesday or Wednesday.

After Young withdrew the cash from a bank he bought the children popsicles and candy. Then they started home.

Another question will be "did someone hit you?" If the answer to that is "yes," the next will be "do you know who hit you?"

Officers presume the killer or killers knew Young, and hope Sondra Gay recognized and can name him.

NO PRINTS A bloodied pipe found at the scene of the quadruple killings proved valueless when fingerprint experts reported partial prints on it were not recognizable.

Three Arkansas men questioned at Albuquerque, N. M., were released after officers said their stories of having spent the past week gambling at Las Vegas, Nev., checked out. They had been picked up because their Buick was described as similar to one seen trailing Young's car.

Bud Chandler will again be moderator.

On tonight's panel, J. E. Thomson, late mill employe at Weyerhaeuser here, will offer a wage earner's point of view. Other panel members are: Mrs. Naomi French, executive secretary of Klamath Camp Fire Girls and aide in the Community Chest's Wage Earners' Division; Ernie Taylor, treasurer and office manager at Palmerton Lumber Company; Elton Smith of the U. S. National Bank, Community Chest campaign director; and G. R. Durham, Salem, executive secretary of the Oregon Chest.

The company asked the Power commission for permission to amend the license it received Jan. 30, 1947, for the Tokatake Project to include the Lemolo No. 1 and Lemolo No. 2 projects, which would cost \$19,916,700.

A diversion dam about a mile downstream from the mouth of Lake Creek would be built for Lemolo No. 1. The dam would have an overall crest length of 885 feet, a maximum height of 120 feet and would provide a reservoir 415 acres in area. A 40,000-horsepower turbine in the power house would connect to a 28,000-kilowatt outdoor-type generator.

For Lemolo No. 2 a diversion dam 185 feet long and 25 feet high would be built about 500 feet downstream from the mouth of Warm Springs Creek and Lemolo No. 1 powerhouse. Power would be generated by a 46,000-horsepower turbine connected to a 33,000-kilowatt outdoor-type generator.

Queen Elizabeth II had her first look Tuesday at the scene of the disaster. The royal train passed through the wrecked suburban station, 10 miles northwest of London, enroute from Balmoral Castle, Scotland, where members of the royal family have been vacationing.

Funeral services for Richard (Andy) Moore, 33, 3949 Shasta Way, are to be conducted through the Elks Temple tomorrow 2 p.m., with lodge officers and the Rev. David Barnett Jr., First Presbyterian Church, officiating.

The young man lost his life in a hunting accident Sunday. He was the husband of Mrs. Virginia Bragg Moore and son of Mr. and Mrs. Vernon Moore, Merrill Road.

Both Juckeland Truck Sales and Service, where he was manager of the used car lot, and Baisger Motor Company, where his father is general manager, will be closed for the funeral tomorrow afternoon.

Interment will be in Klamath Memorial Park.

BAN FRANCISCO (AP)—The port of embarkation said the transport Aiken Victory will arrive Thursday with 1,234 Army men, most of them combat veterans from Korea. It was originally scheduled for Wednesday.

MIAMI, Fla. (AP)—Boss, a sad-eyed bloodhound owned by the sheriff's office, turned up in the city pound five days after he apparently disappeared during a manhunt.

Angry sheriff's deputies charged Tuesday that city officials practically kidnapped the bloodhound while he was hot on the trail of a fugitive. They said a police inspector lured him into a car and took him to the pound.

City officials replied that wasn't so. A woman reported a sick dog out near the city limits and they picked him up.

The dog just looked like a sick dog to the men from the pound.

They said they had no way of knowing he was an officer of the law out on official duty.
