

Pebble Is Top Evidence In Brammer Trial

BALTIMORE (AP)—A small pebble, probably a little larger than John's would use in a slingshot, was found today in the Brammer murder trial. An oblong quartz stone was introduced yesterday as the one found

jammed under the base of the accelerator on a car which hurtled into an embankment and overturned in view of two policemen in a gravel car. The officers found the body of Mrs. Dorothy May Grammer in

side the upset automobile. Several deep gashes were on her head. Blood matted her hair and was spilled on the seat. Her husband, George Edward Grammer, 35, manager for a New York metals firm, is accused of killing her with a blunt instrument and trying to make her death appear to be an accident.

New Bulker Aids Big Harvest

TULELAKE — A self-propelled potato bulker, only one of its kind in Kiskiyou County, helped harvest the largest single field of potatoes in the county this year, 20 acres on the Bill Hooper ranch south of town.

Tulelake, member of the potato distributing firm, the Northwest Produce Co. Other firm members are Dick McDougal and Vince Choltack.

Crash Fatal To Cattleman

Klamath and Lake County friends of W. H. Hill Mills were saddened today with the news of the cattleman's death. Tuesday night in a plane accident at the San Francisco airport.

The bulker harvests from 8 to 10 acres of spuds a day, handling from 130 to 150 tons of tubers. It is operated by 10 to 15 persons and several pickers. It does not dig, but follows the digger.

Mills, operator of Mills Livestock Company in Sacramento, Calif., was killed instantly along with his pilot, Clarence Bowman, when the plane crashed on a take-off from the airport.

The machine, built by Ernst Bros. Bakerland, was designed by Brown. Bugs found in some other bulkers were eliminated, Brown said, in the new equipment.

Mills is well known in the Klamath country, having visited here for many years on cattle and sheep-buying trips. Mills was about 60.

Fifty feet of conveyor chain kept the potatoes moving into V bottomed dump truck beds with conveyor bottoms. Seven trucks handled the potatoes from two bulkers.

Known survivors are his sister, Mrs. Tom Watson of Sacramento, and his parents living in Ranier, Tex.

Family Has Reunion Here

Mrs. Harry E. Green, Omaha, daughter of Mr. and Mrs. Carl W. Henry, and sister of Mrs. Sidney Weinstein, all of Klamath Falls, has been visiting here for the past several days.

Doctors Buy Canned Bone

CHICAGO (AP)—Cartilage packed in glass jars for use in plastic surgery can now be bought by doctors.

Her visit made possible, a reunion of family members, first in several years at the home of Mr. and Mrs. Henry last Sunday. Present were Mr. and Mrs. Sidney Weinstein, Klamath Falls, Mrs. Green's brother and sister-in-law, Mr. and Mrs. J. Kelly Farin, Eugene, and Mrs. Green and the hosts.

The material, used as the base on which to build new chins, noses and ears, is taken from the ends of the breastbones of freshly slaughtered steers. Cleaned and trimmed, it forms a soft, white, rubbery half pound 4 by 2 inches and up to one half inch in thickness.

Her visit made possible, a reunion of family members, first in several years at the home of Mr. and Mrs. Henry last Sunday. Present were Mr. and Mrs. Sidney Weinstein, Klamath Falls, Mrs. Green's brother and sister-in-law, Mr. and Mrs. J. Kelly Farin, Eugene, and Mrs. Green and the hosts.

The cartilage is being marketed by Armour and Company.

She visited here for the past several days. She was met in San Francisco by her mother who will go south to the Bay City with her when Mrs. Green leaves for home Thursday.

Lyon Named To Beaver Staff

OREGON STATE COLLEGE—Jack Lyon of Klamath Falls has been appointed to the general staff of the Beaver, annual publication at Oregon State college.

JUDGE CLIPS 'BARBERS'

BILLINGS, Mont. (AP)—A young man who had asked three friends to cut his hair claimed in court he was butchered instead of barbered. Gilberto Castanillo said the three left him looking like a Mohawk Indian with only a tuft on top. The judge clipped the "barbers" for \$40.

The yearbook presents pictorially a review of college life. The staff is selected by the editor-in-chief from students who are willing to put forth the necessary time and energy. The first college yearbook was published in 1894 and named "The Hayseed"; later it was called "The Orange"; and finally "The Beaver".

Don't neglect your kidneys if these conditions bother you. Try Doan's Pills—a mild diuretic. Used successfully by millions for over 60 years. It's amazing how many times Doan's give happy relief from these disorders—help the millions of kidney tubes and filters flush out waste. Get Doan's Pills today!

Lyon, sophomore in lower division of liberal arts, is the son of Mr. and Mrs. Everett L. Lyon, 2209 Ward St., Klamath Falls.

Happy Is The Day When Backache Goes Away

Nagging backache, loss of pep and energy, headaches and dizziness may be due to slow-down of kidney function. Doctors say good kidney function is very important to good health. When some everyday condition, such as strain and stress, causes this important function to slow down, you may suffer nagging backache—feel miserable. Minor bladder irritations due to cold or wrong diet may cause nagging backache or frequent urination. Don't neglect your kidneys if these conditions bother you. Try Doan's Pills—a mild diuretic. Used successfully by millions for over 60 years. It's amazing how many times Doan's give happy relief from these disorders—help the millions of kidney tubes and filters flush out waste. Get Doan's Pills today!

MUSTEROLE

Harry Plans Another Whistlestop Tour

WASHINGTON (AP)—President Truman fires up his campaign train special again tonight for a three-day speaking tour into politically critical New York and New England.

Truman's new Northeastern trip is expected to be aimed at more of the same. There will be up to 12 speeches a day in New York, Connecticut, Massachusetts, New Hampshire and Rhode Island—mostly in industrial areas.

The White House indicated the 68-year-old Chief Executive will be drumming on the road for the Democratic presidential candidate, Gov. Adlai E. Stevenson, almost until the eve of the Nov. 4 election.

Gains claimed for union labor and workingmen in general, and for small businessmen under Democratic administrations are expected to figure heavily on his new drive. Civil rights issues also may draw special attention.

He conferred late yesterday at the White House with the party's Finance Committee, obviously discussing his coming drives and the state of the party money chest.

Truman hardly has had time to get his laundry in order since returning Sunday from a 15-day, 8,500-mile whistle-stop tour on which he made 90 speeches.

New York with its big 48 electoral votes, Massachusetts with 18 and Connecticut with eight are generally regarded as politically pivotal states which could go either way. New Hampshire is traditionally Republican and Rhode Island has leaned toward the Democrats. They have four votes each.

His just-completed swing was aimed, in the President's words, at stripping some of the glitter and glamor from Gen. Dwight D. Eisenhower, Stevenson's Republican opponent.

RICHER MILK... LOWER PRICES

Vote 332 X YES

for a **FAIR MILK LAW**

The MILK PRODUCTION AND MARKETING ACT on your November ballot will give the people of Oregon a FAIR milk law—fair to consumers and producers alike. It will do away with state enforced milk prices, by which the present unjustified middleman's margin is protected by law. It will permit the lower pricing of cash-and-carry milk, relieving store customers from paying the higher costs of home delivery whether they use it or not. It will protect fair farm prices.

Don't be deceived by these LIES about the new milk bill

A reckless, unscrupulous minority of selfish interests is telling barefaced lies about milk. These interests are preying upon the fears of Oregon mothers for the health of their children.

Behind a misleading front of baby pictures they make a false emotional appeal. They hope this will keep you from forming judgments based upon the truth. We herewith quote some of these lies and accompany them with verified facts.

The lies are quoted directly from the campaign literature of the minority group of milk interests leading the fight against the new milk bill.

LIE No. 1 "Baby's sanitary milk supply endangered."

This is a downright falsehood, as shown by the following statement by Dr. Thomas Meador, Portland city health officer: "Sanitary regulations for milk are set up by the state department of agriculture. Repeal of the present milk control law in favor of the proposed new law backed by the Affiliated Milk Committees of Oregon would have no effect whatsoever on the sanitary requirements set up by the state law. In addition to the state regulations on purity of milk, Portland has its own milk code, the operation of which would be affected in no way by repeal of the milk control law."

LIE No. 2 "The new substitute milk control initiative . . . could disrupt your steady milk supply" and "put Oregon's many small dairymen and distributors out of business."

Lie No. 2 is a complete reversal of the actual facts. While our population has increased by almost 60% our dairy farms have decreased by 19% the number of dairy cows is down 23% and our milk production has decreased nearly 8%. Here are the figures from "Agricultural Statistics" issued by the United States Bureau of Agricultural Economics:

NUMBER OF FARMS IN OREGON		
	All Farms	Dairy Farms
1930.....	51,938	8,150
1950.....	59,827	6,618

While the total of all farms increased 15% the number of dairy farms decreased 19%.

NUMBER OF DAIRY COWS IN OREGON		
1934.....	263,000	
1951.....	202,000	

This is a decrease of 23% since 1934.

MILK PRODUCED IN OREGON (in pounds)		
1934.....	1,323,000,000	
1951.....	1,208,000,000	

This is a decrease of over 7 1/2% since 1934.

POPULATION IN OREGON (Oregon Blue Book)		
1930.....	953,786	
1950.....	1,521,341	

During the decline of the dairy industry in Oregon the population increased 59 1/2% over almost the same period.

How has Oregon made up this deficiency in its milk supply? The answer is largely in the fact that Portland gets the greater part of its milk from the neighboring state of Washington, which has no state controls that limit milk production.

The Oregon Producer-Distributors Association, composed of small dairymen who produce and distribute their own milk, has announced its support of the new milk bill with these words: "Under Oregon milk control (in effect since 1934) the number of producer-distributors has shrunk from 600 to less than 100. Unless we organize we will find ourselves out of business."

In the face of these facts the noisy opponents of the new milk bill are claiming to be the friends of the small dairymen. DON'T LET THEIR LIES FOOL YOU. VOTE 332 X YES
