The first intimation of this invasion of the rights of man comes in a release from the press division of the American Institute for Recognition of Fire and Ice. Woman, but so far my spies have been unable to run down anything. Basically here is the outline of this new feminine march: The women want a change. "One morning (and I quote) soon you'll wake up and the country will be full of Fire and Ice women." "You'll know them (more quotes) by their hish makeup, their skating on thin 'ee hairde, their clothes with the louch of the sire and their new feminine mood." The women I am sure this thing was written by a woman, go on to say that American women have spent the past decades building up a resentment against the male imposed tradition that this fire and ice nonsense has all been concentrated on the women of Europe. I really must protest against this. I believe that if we males stick together we can outwit the sly female of the species. There are few loopholes in their argument that will allow egress to the harassed male if he moves quickly and surely. The largest of them being the statement in the release that this whole hot and cold idea will be a new feminine mood. Now, that there is such a thing as a feminine mood. T will not argue. But that there is such a thing as a new one—well, you'll have to show me. I'm the duil, stody old-fashioned (without the cherry and orange peel, please) type that can't tell a new feminine mood from the one that was in vogue

### Inflation Is Democrat Policy Charges Ike In New York Talk

ABOARD EISENHOWER SPE-

CIAL (P)— Gen. Dwight D. Eisenhower's Republican campaign for the presidency was augmented to day by a bitter attack on President Truman by Gov. Thomas E. Dewey, the party's 1948 nomines.

Dewey planned to accompany the 1922 GOP candidate on a cross-state tour from Albany to Buffalo, N. Y., starting this morning.

Eisenhower last night told a wildly cheering audience in Troy that the Democratic administration had adopted the inflation policy to win the election by duping the people into thinking they had more money.

But Dewey, in introducing Eisenhower, delivered an even more blistering attack. He accused Truman feating an 'unboly, filthy, stinking campaign."

Hetering to Republican charges that Truman falsely accused Eisenhower of religious and racial bias. Dewey asked:

"How low can you get to conceal akeletons in your own White House?"
