Lattice work in front of a planting box gives the appearance of a large front window, but the living room is secluded at the rear, where it opens on a garden porch with an outdoor barbecue fireplace. The photo shows an interior view of a corner of the dining room looking toward the kitchen in a house built from this design. This is plan 9234 by Rudolph A. Matern, architect, 90-04 161st St., Jamaica 2, N. Y. The house covers 1,173 square feet without garage, which is figured separately in building estimates.
