Unander Wants Prison Change

PORTLAND — Sigfrid B. Unander, state treasurer-elect, favors a full-time parole board and an intermediate penal institution for youths.

He told members of the Oregon Prison Association and the Oregon State Sheriffs' Association Thursday that he also might decide later in favor of a hospital for treatment of sex deviates, psychopaths and others.

The intermediate penal institution would handle youths too old for the boys' training school, yet worth sparing from the state penitentiary.

Prison riots were discussed by Warden Virgil O'Malley of the

state prison, who said, "Riots are only symptoms of underlying weaknesses."

He listed some of these as lack of a program, idleness, and inadequate personnel.

"The most dangerous evil of all, lurking ever in the shadow behind the prison administrator, is venal or stupid political interference," he said, adding that it was one of the

things that led to the Michigan prison riot.

The sheriff's group was to meet Friday with district attorneys, also holding their annual meeting here.

The district attorneys heard a number of suggestions for new

laws, including one proposed by district attorney, to allow law of illegal motion has been per-

There are hundreds of gins, but there's NO gin like Gordon's

Here's why: Gordon's is made from a 183 year old formula which can't be duplicated. It is a favorite the world over. Gordon's has the distinct advantage of Liqueur Quality and High Proof (94.4), which means smoother drinks and sustained flavor. Change to Gordon's and see the change in your gin drinks.

YOU on a staircase can make a wonderfully feminine picture. Realize that you can look down at the stairs and grasp the railing without losing an "iota" of inherent grace. Graceful movement, "floating" down the stairs depends entirely on correct knee action. Don't straighten your knee out as you step. Be sure to pull your derrière in tightly with the muscles that control the hips. Place your whole foot on the stair step, not just the ball of the foot. Bend your knees and never unbend until you are up or down. If in a formal, catch the frock between fingers at knee level, never to the side.
