Inauguration To Be Huge

WASHINGTON (AP)—The Republican chairman of the 1953 Inaugural Committee says the ceremonies launching Dwight D. Eisenhower as president of the United States probably will be the biggest, best attended and most costly in history.

Joseph C. McGarraghy, a local Republican leader and lawyer, said in a radio interview yesterday the cost will be around one million dollars. The Truman inauguration four years ago cost about \$700,000.

London Tolls Damage As Smog Lifts

By PHIL CLARKE
LONDON (AP)—London's great fog—worst in the city's long history—began to lift today and the grimy Britons got their first peek at the sun in four days.

The thick smog, laden with tons of choking soot from the British capital's thousands of chimney pots began to clear soon after dawn.

For the past three days transportation in the sprawling city has been all but paralyzed. Some persons were killed or injured in accidents, and the underworld unleashed a new crime wave behind the dense smog curtain.

The transport tieup blocked milk supplies into the city and a critical shortage threatened. As trucks were delayed, many babies went hungry.

But by 10 a. m. today London's buses, subways, taxis and motorcars were running at nearly normal pace again and the Monday mid-morning rush hour went off without a serious hitch.

First reports on the smog's crime wave listed dozens of burglaries. One robber climbed 60 feet up the

outside of a fashionable Hyde Park apartment building to steal \$28,000 worth of furs and jewels from a third-floor flat.

A six-man gang attacked an American airman, William J. Blinn last night in a London suburb. They punched him in the face, robbed him of his wristwatch and some American dollars and escaped in the mist.

Since Friday the dark pall had hung, sooty and inescapable, across the 40-mile width of this city area of nine million persons.

While honest men, with reddened eyes and sore throats, groped their way through the smog, criminals had their best cover in years.

"I'm afraid we shall find some

With lights burning through the day in every home and office, the electricity consumption soared, forcing the nationalized electricity authority to order the first power cut of the winter.

With 500 airliners grounded, the fog has cost the airlines \$6 a minute since Friday morning. The capture of the winter.

Plants and offices will have to pay for the fog in hard cash through lost output resulting from workers arriving late or not at all.

Fires blazed unhindered while firemen were stalled in the fog. Blackjack gangsters struck and melted into the darkness. Desperately sick persons waited hours for ambulance.

A large supply of licorice was found in the tomb of King Tut-Ankh Amen's tomb when it was opened in Egypt in 1923.

It also was piling up the biggest cleaning bill ever in dirty curtains and upholstery.
