

### Business, Labor Groups Oppose Controls Program

WASHINGTON (AP) — President Truman, striving to get his ailing wage controls program functioning again, was confronted today by snowballing opposition from organized business and one big segment of organized labor.

The President, just returned from Independence, Mo., may tell a morning news conference what luck he is having in persuading industry members to serve on the stalemated Wage Stabilization Board.

The U. S. Chamber of Commerce has openly urged all businessmen to refuse posts on the WSB and both the Chamber and National Association of Manufacturers demanded that Truman kill off both wage and price controls.

Other government curbs, meanwhile, were being relaxed.

H. A. McDonald, chief of the National Production Authority, last night ordered curbs on use of scarce metals for construction eased considerably beginning Jan.

because of an improving supply.

He also ruled the automobile industry may plan 1 1/2 million units in the April-May-June period next year, compared with 1 1/2 million allotted for the January-March quarter.

Walter Reuther, new president of the CIO, arrived in town to try to put over the CIO's new anti-wage controls policy. The union's other big organized labor group, the AFL, so far is saying controls should be continued.

Truman, faced with this growing clamor for an end to economic curbs, has been insisting he should turn over a functioning stabilization program to President-elect Eisenhower next month.

There was no indication that Truman's attitude has changed. He and his economic stabilization chief, Roger L. Putnam, have been trying to round up enough businessmen to serve in the vacated industry posts on the WSB.

**PENNEY'S**  
ALWAYS FIRST QUALITY

Penney's is your Santa!

Store Hours: Mon.-Fri.  
9:30-5:30, Sat. 9:00-5:30  
Elevator Service to All Floors
