4 New UHF TV Stations Due

NEW YORK (AP) — Ultra high frequency (UHF) television takes a giant stride today, with four stations receiving transmitters for sending programs on channels newly opened to video.

They will race to get on the air as quickly as possible, and the winner will be the nation's second UHF station and the first with commercial equipment.

Station WFTS-TV in Atlantic City, N. J., is claiming the honor in advance, saying it will have its transmitter installed and test signals on the air within hours, possibly by midnight, with regular programs starting at 5 p.m., EST, Saturday.

All our stations have trucks and engineers waiting at the Camden, N. J., plant of the RCA Victor Division of Radio Corporation of America. By early afternoon they hope to be rolling toward their stations with their priced equipment. The other three are WDBA-TV, York, Pa.; WDBT-TV, Wilkes-Barre, Pa.; and WBTV-TV, South Bend, Ind.

The first UHF station on the air was KPTV in Portland, Ore., which started Sept. 19, but it temporarily is telecasting with equipment used by RCA for its experimental station at Bridgeport, Conn.

The engineering products department of RCA Victor said additional transmitters for UHF stations were on the production line and would be shipped as fast as completed and tested. Other manufacturers, including General Electric, have similar equipment in the works.

The new UHF stations will be watched with close attention by the industry to learn what telecasters and set owners in other parts of the country can expect when additional stations of that type go on the air.

Ultra high frequencies were opened to TV the first time when the FCC last summer ended its 21-year freeze on permits for new stations. It set up 70 new UHF channels to supplement the 12 very high frequency (VHF) channels that had previously been in use.

The new UHF stations can not be tuned in by most sets now in use without converter attachments or on models designed for the purpose, internal adjustments. New sets to tune in both bands now are on the market.

When the FCC ended the freeze it provided for 2,053 TV channel assignments, with 617 being VHF and 1,436 UHF. All 108 stations on the air were VHF.

The commission since then has granted permits for 137 new stations—43 on VHF and 94 on UHF.

Because of the shortage of equip-

ment for the new UHF transmission, of the nine stations coming on the air since then only Portland's KPTV has been UHF—and that with experimental equipment.

Give your child a future for Christmas

Music is the finest heritage you can give your child. While providing limitless enjoyment, it subtly develops important phases of character and personality that equip the child with confidence and pride of accomplishment—important to him in later life.

Right here in Klamath Falls is the largest stock of leading make pianos in this part of the West. Kimball, Knabe, J. & C. Fischer, Wurlitzer, Winter, and many others. Taft-Hartley Hearings First Item On Agenda of New Republican House

WASHINGTON (AP) — Hearings aimed at redrafting the Taft-Hartley labor law have been set as one of the first major pieces of business by the new Republican house.

Rep. McConnell (R-Pa.), due to become chairman of the House Labor Committee, said today the whole field of labor-management relations would be reviewed by his committee at sessions tentatively set to start early in February.

"From that I hope we can evolve a bill," he told a reporter. "If the Taft-Hartley law can be patched up and worked out—all right. If not, a whole new bill may have to be written."

Although McConnell has not taken a public position, his dissatisfaction with Taft-Hartley as the nation's basic labor law is widely recognized on Capitol Hill. He is understood to feel that Taft-Hartley is too complex, not easily understood by either labor or management, and a symbol of unnecessary controversy which the Republicans would do well to erase. The GOP platform endorsed the law, but called for any changes shown by experience to be needed. The platform didn't spell them out.

Across the Capitol, Sen. Taft (R-Ohio) is for retaining the law which bears his name. Any effort to bring out a wholly new law seems certain to stir up the powerful opposition of the Ohio senator.

Taft does favor changes in Taft-Hartley and already plans to introduce in the Senate again most of the 28 amendments passed in 1949 but which died in a hostile House.

McConnell's views on a labor law are likely to prevail in the House Labor Committee, where he commands the respect of Southern Democrats as well as Republicans. "I'd like to have a simple law, understandable to the man on the street and one which both labor and
