

WALL STREET
NEW YORK (U) — With trading activity stepped up sharply, the stock market Monday advanced smartly.

Gains ran up to around 2 points at the best with the bulk crowded in the area under a point. Losses were small and only in unusual cases did they sag past a point.

Volume came to an estimated 2,200,000 shares, well above recent average levels. Friday's total was 1,450,000 shares.

CHICAGO GRAIN
CHICAGO (U) — Grain prices broke sharply on the board of trade Monday with dealings becoming very active late in the session.

Losses of several cents were rung up in all pits. All wheat and rye contracts tumbled to new seasonal lows. So did some corn and oats deliveries.

Brokers were at a loss to account for the decline. They noted weakness in several other commodity markets and suggested that may have been an influence here.

Wheat closed 2 1/2 to 3 1/2 lower. March \$2.31 1/2, corn 1 1/2 to 1 3/4 lower. March \$1.33 1/2, oats 1 1/2 to 2 1/4 lower. May \$1.87 1/2, soybeans 2 to 2 1/2 lower. January \$2.98 1/2, and left unchanged to 13 cents a hundred pounds lower. January \$9.55.

War Memorial Drive Starts

More than 100 cards have been mailed to as many Klamath Basin organizations to solicit aid or reaction on the rejuvenation of the Memorial Shaft on the Klamath County Courthouse lawn.

The shaft job is planned by members of the Allied Veterans Council, would cost approximately \$2,000. The renovation pledge or donations are asked by March 1 in order that the chore may get under way.

Coleman O'Loughlin, in charge of the groundwork, announced today that donations will be accepted from anyone who wishes to offer financial support.

The job calls for the plywood sheathing to be replaced by Marine plywood, the foundation and steps to be redone in concrete, and the fence and lightposts to be completed in steel. The names of the war dead are to be inscribed on bronze plaques.

There are 186 World War II casualties and 13 Korean War veterans on the shaft. The 17 World War I dead may also be named on the shaft if some proposals are carried out.

After the initial renovation expense, only routine maintenance expenses will remain, O'Loughlin said.

Man Offers Guilty Plea
Milford Marion Musser, 37, who admittedly burglarized the Peyton and Company office Jan. 2, and forged a signature on one stolen check he was successful in evading pleaded guilty in Circuit Court Saturday to a charge of forgery by endorsement.

He is being held in the County Jail while a check is being made with the FBI to determine if he has any past criminal record.

Musser, who worked for the company a short time under another name, was arrested by City Police less than seven hours after the burglary.

Rubinstein Wins Delay

WASHINGTON (U) — Serge Rubinstein, Russian-born financier fighting deportation, Monday won a fresh court order barring his arrest and detention at Ellis Island.

The U. S. Court of Appeals directed that the order remain in effect pending a decision in U. S. District Court on Rubinstein's application for an injunction against deportation.

An earlier order, issued by the Court of Appeals last Wednesday, had been scheduled to expire at 11 a. m. Monday.

Just a few minutes before the deadline, Judge Henry W. Edgerly, senior member of a three-judge Court of Appeals panel, announced the decision to extend the order.

Rubinstein's attorneys have pending in District Court an injunction suit designed to bring about a full-scale legal test of the entire deportation proceeding against the 44-year-old New York financier.

No date has been fixed for a hearing but one is expected to be set within the next few days.

Rubinstein has been fighting moves to deport him for almost 10 years. He won the first round, based on an allegation that he entered the United States from Canada in 1933 on a fraudulent Portuguese passport.

The present proceeding grew out of his 1947 conviction on draft-dodging charges.

Sabres Down Another MIG

SEOUL (U) — An American Sabre jet pilot bagged the first Communist MIG15 jet of the year today in a battle 25,000 feet above North-west Korea. The ground war was stilled by the bitter Korean winter.

The Fifth Air Force reported the Red jet fighter was shot down in flames by 2nd Lt. William R. Bowman of Sarasota, Fla., his first kill. Bowman was in a flight of Sabres flying a protective screen for fighter-bombers striking through snow flurries at Communist supply targets.

Pilots reported destroying at least 70 communist vehicles.

Several sharp clashes along the front in below-freezing cold were reported last night and early today before the skies clouded.

On sniper ridge, some 175 Chinese stormed up the slopes of Pinpoint Hill under ear-splitting artillery cover. They hit the ridge position in two waves but dropped back after less than an hour — leaving an estimated 35 dead and 20 wounded.

On the far Western Front, almost two days of no contact was ended by sharp patrol clashes.

Court to Study Taft-Hartley

WASHINGTON (U) — The Supreme Court Monday rejected a request for a quick ruling on validity of the 80-day injunction provision of the Taft-Hartley Act.

The CIO United Steelworkers Union had asked the tribunal to accept for immediate review the Dec. 29 decision by U. S. District Judge John Knight in Buffalo upholding the disputed section of the law.

Knight granted the government an 80-day injunction against a strike by the union at the American Locomotive Co. plant in Dunkirk, N. Y.

The case represented the first direct test of the injunction provision.

The union had sought to speed up the appeals process by short-circuiting the U. S. Court of Appeals in New York.

Monday's denial of the request by the Supreme Court was announced in a terse order, which gave no reason for the action.

The union has contended the injunctive provision is an unconstitutional delegation of power to the courts and that the case would become "moot" if the appeal had to follow the normal course.

The injunction against the strike is due to expire March 2, and the Supreme Court traditionally refuses to rule in a case after the central issue has been resolved by some such development. The legal term for that is "moot."

The strike, which began last August, had halted production of a special kind of nickel pipe needed in the construction of atomic energy installations. The Dunkirk plant has about 1,500 employees.

Monday's Supreme Court session was unusually brief. The tribunal handed down no decisions and no other orders of general interest.

Churchill Trip

(Continued from Page One)

the details of a reported plan by Gen. Douglas MacArthur for ending the Korean War. MacArthur announced in a speech last month that a "clear and definite solution" to the conflict existed. The general later conferred with Eisenhower.

Asked about economic relations between Great Britain and the United States, Churchill said: "Our views are very simple. We don't want to live on you. We want to earn our own living. . . . But if you shut the door and won't take anything that we want to make it is hard to see how the unsatisfactory situation can be avoided or how we can find our real strength. That's what we mean by trade, not aid."

TARIFF

His remarks referred to United States tariffs which make the import of some British products unfeasible.

Flanking Churchill at the news conference were Finance Minister Harold Baruch, at whose home the Prime Minister will be a guest while in New York, and Sir Roger Makin, the new British ambassador to the United States, who accompanied Churchill from England.

The Prime Minister declined to comment on whether he thought a personal meeting of the two leaders would contribute anything to easing world tensions.

Stalin said recently in a statement to The New York Times that he was agreeable to a meeting with Eisenhower, and British spokesmen have indicated the possibility of such a meeting would be discussed by Eisenhower and Churchill.

POLE

Churchill appeared pale as he sat before the packed room of re-

porters, his eyes blinking against occasional flashes of camera flash bulbs.

He said there was "nothing extraordinary" in his meeting—probably Tuesday—with Eisenhower. He said he had met Eisenhower perhaps 100 times during World War II.

"And even though our 101st Airborne doesn't follow the go wrong any more the previous meeting."

Teenager Kills Self

TACOMA (U) — Blaming her troubles on television, a 16-year-old high school girl ended her life Sunday afternoon with a single shot from a .22 rifle, according to police reports.

Connatus, "blasting" of her parents' set, she claimed in a farewell note, kept her from her studies and "make my head hurt."

The girl victim, Leoma L. Schaefer, only child of Mr. and Mrs. Leo Schaefer, was dressed in green silk pajamas and lying across her bed, when discovered by her mother.

The mother told police she went to the daughter's room to tell her a boy friend was waiting down stairs, when she made the tragic discovery.

The girl, a skilled riflewoman and member of the Lincoln High School rifle team, had kept the rifle with several other guns in the closet of her room, police learned.
