Lovely Lana Turner Says No to Wedding Bell Talk

By **ERSKINE JOHNSON**
HOLLYWOOD (NEA)— Exclusively Yours: Lana Turner is planning to surprise Lana Turner in 1953. She's not going to get married—she hopes.

As a fellow who almost always goes to Lana's weddings, I was curious about whether there will be a Husband No. 4 now that she's shed Husband No. 3, Bob Topping. "I hope not!" she screamed with a wince between sessions of a hot Samba with Ricardo Montalban for "Latin Lovers." Fernando Lamas was Lana's Latin lover in the original casting, but when she cast him out of her life MGM also cast him out of her picture.

Now that Lamas has taken it on the lam, it's a "well-adjusted" Lana facing the new year, she says, with the exception of one thing:

"I have to get out of this town for a while. I need a new perspective. There's talk of a movie in Italy and I've got my fingers crossed."

Deanna Durbin's saying she doesn't want to make another movie, but her discoverer, Producer Joe Pasternak, is convinced the greasepaint lure will have her facing a camera again.

"They haven't sent one another since her return to Hollywood from France, but they've had numerous telephone conversations and Joe Carran (D-News) has his way.

McCarran, former chairman of the Senate internal security subcommittee, offered a resolution to this effect to the Senate yesterday.

McCarran Wants Stern Rules

WASHINGTON (P)—The Senate would assert the right to lock up summarily any government official who refuses to surrender subpoenaed documents if Sen. McCarran (D-News) has his way.

McCarran, former chairman of the Senate internal security subcommittee, offered a resolution to this effect to the Senate yesterday.

HOME-GROWN AIRPLANE

MANILA (P)—A plane made of bamboo and wood—the first of its kind—built entirely of Philippine material—will undergo tests soon, Antonio J. de Leon, aeronautical engineer who designed the craft, says the project was undertaken to determine whether aircraft bodies could be manufactured in the Philippines without imported material. The Philippines Air Force and the Institute of Science and Technology have joined in the project.

Lauritz Melchior Works To Aid Talented Youths

By **BOB THOMAS**
HOLLYWOOD (P)—Stars of show business are always talking about how newcomers deserve a break. But few of the stars ever do anything about it.

Lauritz Melchior is the exception. The king-size tenor is embarking on a new and different kind of concert tour, designed both to do business and supply an audience for a half-dozen aspiring young singers.

Melchior and company will motor to 100 towns throughout the Eastern and Southern U. S. The troupe will present varied musical menus—"from the smorgasbord to the sweets"—with the design of pleasing all tastes.

Over a stein of beer at his mountaintop home, Melchior explained the reasoning behind the tour.

"For one thing, I think television has brought a complete change in the concert field. I believe the time has passed when one artist accompanied by one piano can stand on a bare stage and entertain an audience for two hours. People expect more than that.

"But the bigger reason is that I feel that it is time that someone did something to find an audience for the fine young voices we have in this country. I think it is tragic that there is virtually no opportunity for a new artist to be heard.

"What opportunity is there? The Metropolitan has a season of 20 weeks. A young singer would make about \$125 a week there. And he never knows until a month before the season whether he will be engaged.

"There are a few other opera companies. Some of them charge a young singer \$5,000 for the privilege of singing a leading role. A newcomer knows he stands no chance for success unless he becomes a crooner.

"It is the same with composers. They know they have no audience for serious works, so they write things like 'Open the Door, Richard.'"

The singer added that the Euro-
