

WALL STREET

NEW YORK (AP)—An advance on a fairly broad front Thursday took the stock market higher for the third straight session.

Gains running to as much as 3/8 were present in almost every section of the list, and some pushed to around 2 points at times. Losses were usually small and not concentrated.

Volume increased for the third straight session to an estimated 1,800,000 shares, the best in nearly three weeks.

The best activity at advancing prices was found in railroads, motors, and aircrafts.

Beef Leads Price Decline

By The Associated Press
Beef took the consumer food news spotlight this week as retail prices of steaks, roasts and other beef cuts declined as much as 10 cents a pound in widespread areas.

Some markets also featured specials in fryer and broiler chickens, leg or shoulder of lamb, picnic hams and fresh pork butts. But prices of meats other than beef were generally irregular.

Eggs were unchanged to a few cents a dozen lower. A long list of fresh vegetables edged a little lower as increased shipments followed improved crop weather. Naval oranges, tangerines, pears and fresh strawberries were reduced in most places, too.

The decline in beef prices was a continuation of a trend which has been going on for several weeks now under pressure of abundant supplies. Livestock prices recently dipped to the lowest levels in years. Many more cattle are being fattened on Midwestern feed lots than at this time last year. Storage stocks are heavier.

A special subcommittee of the House Agriculture Committee has unanimously recommended that the government price and grading controls on cattle and beef be lifted.

The subcommittee, headed by Rep. Hill (R-Colo.), said the controls are interfering with normal marketing and price relationships, and argued that supplies are so large that there is no reason to expect beef prices to go above present ceilings this year.

Here's the Agriculture Department's national list of most-plentiful foods for thrifty buying in February:

Raisins, cabbage, domestic dried figs, oranges, grapefruit, processed citrus products, pea beans dry, baby lima beans, carrots, lettuce, almonds, walnuts, filberts, peanuts and peanut butter.

Also: heavy turkeys, eggs, butter, cheddar cheese, cottage cheese, nonfat dry milk solids, buttermilk, vegetable shortening, margarine, salad oils, lard and frozen fish.

CHICAGO GRAIN: **CHICAGO (AP)—Soybeans** paced the grain market into lower ground on the board of trade Thursday.

Dealings were quiet until the closing minutes when a burst of selling hit soybeans, particularly the 1953 crop months. They went to new seasonal lows. Some selling apparently was precautionary prior to issuance of a government report on bean stocks in all positions.

Wheat closed 1/4-1 1/2 lower, March \$2.28 1/2-3/4, Corn 1/2-3/4 lower, March -1.1 1/4, Oats 1/2-3/4 lower, March \$1 1/4-1/2, Rye 1 1/4-2 1/2 lower, May \$1.82-\$1.81 1/2, Soybeans 1 1/4-3 1/4 lower, March \$2.94 1/2-2.94, and Lard 1 cent lower to 3 cents a hundred pounds higher, March \$9.10.

New Drug Aids Sprain Hurts

CHICAGO (AP)—Use of a drug so fast-acting that a person can walk around on a sprained ankle shortly after receiving an injection was described Thursday to the American Academy of Orthopaedic Surgeons.

The comparatively new drug is called Hyaluronidase. It is an enzyme made from the tissue extract of the bull.

Dr. W. R. MacAusland Jr., of the U. S. Air Force hospital, Maxwell Air Force Base, Alabama, gave this report.

Swelling is reduced and pain relieved within two hours after the drug is injected into an injured ankle. The patient can walk, bearing his full weight, and severe swelling is prevented. This speeds complete recovery.

Dr. MacAusland said he has used the drug successfully in human injuries for the last two years.

Mrs. Cornett Urges Work

Mrs. Cornett addressed the Republican Club of Oregon. She said it is time to begin thinking about party finances. "We must begin to roll up our sleeves to work for victory in 1954," she said.

Mrs. Cornett related her experiences at the inauguration of President Eisenhower.

Staged Raid

(Continued from Page One)
cannon fodder for propaganda purposes.

The attack, planned since Jan. 19, moved along on schedule—air planes, artillery, tanks—until the infantry ran into deadly Communist ground mines and hand grenades within 1 1/2 yards of Spud Hill's crest. The soldiers finally pulled back to their own lines.

The spectators watched from a forward observation bunker. They were provided with mimeographed seven-page time-tables, bound in cardboard with a three-color decoration on the cover.

The spokesman for the division which took part in the Spud Hill attack spoke up against Bray's criticism that a "program" of "scorecards" had been distributed to generals and newsmen watching the operation from a bunker. The spokesman said:

"Every operation has an operation order and all we had was a complete operation order. An operation order is a timetable. It says that certain things will happen in a certain sequence. The only difference between this one and any other operation order was that this one had a little fancier cover. And it was a home-made cover at that."

Another officer of the same division, which may not be identified for security reasons, said the attack was held to test and demonstrate the effectiveness of close-air-ground support. This was why military officials were on hand, he said.

And he added:

"If we were going to have a similar operation tomorrow we would do the same thing whether there were visiting generals or newsmen there or not."

Shasta Parks Use Increases

MOUNT SHASTA—Shasta National Forest's recreational use has increased the past year over 1951, Supt. Robert E. Jones announced today.

In a report issued on forest use, Jones noted use at developed camp sites and picnic areas had increased from 47,000 visits in 1951 to more than 62,000 in 1952—a 57 per cent increase.

Total visits to Shasta National Forest, the supervisor said, exclusive of highway travel, numbered 345,000 as against 123,000 in 1951.

In addition Jones noted that another 1,800,000 persons enjoyed attractions along highways traversing the forest, according to highway division counts.

Significant trends were noted especially in the Shasta Lake Recreational Area where 47,000 visits were counted as compared with 26,000 the year previous.

20-30 Effort Succeeding

The Klamath 20-30's club's efforts to gather up surplus winter sports equipment in this area to be reduced to youngsters who can't afford any is getting good results, but Pres. Fred Hadlock reported today there is still need for a lot more.

Any sort of equipment will be accepted, from skis to bobbeds. A collection point has been established at the city fire department and at Troy Cook Feed Store, on South Sixth Street.

Games Feature Dimes Drive

TULELAKE—Climaxing the March of Dimes campaign that ends Saturday night, residents of the community will be treated to a three 'round' game of basketball in the high school gymnasium that will be an eye-opener seldom seen on the local court.

The free entertainment will include a preliminary contest between two grammar school squads followed by a tangle between two girls' lineups. The main goal will be between the Tulelake Inn and the Newell Netted Gems.

Half time entertainment will include an impersonator, a tumbling act and several musical numbers.

No admission is charged but donations may be left to help swell the polo fund in containers at the entrances.

The "March of Dimes Down the Bar" at the Sportsman's Hotel and the Homestead, tried for the first time this year has added a generous sum toward the \$500 goal. Cash taken by this method at the Sportsman alone, totals more than the amount taken in last year in all the containers in town.

Dimes are placed under tape on the bar, the contributor's name written above them, if desired, and the Dimes March On to each end of the bar.

U.S. Generals Meet in Korea

TOKYO (AP)—Three of America's top generals met in Tokyo today for strategy talks on the Korean War.

Within an hour Gen. J. Lawton Collins, U. S. Army chief of staff, and Lt. Gen. Maxwell D. Taylor, Eighth Army, flew in from opposite directions for conferences with Gen. Mark Clark, the U. S. Far East commander.

The meeting came amid continuing speculation that the war soon will take a new turn—either in a full-scale Allied offensive or in greater direct pressure against the Chinese Communists.

Taylor arrived from Washington. Collins flew back from a quick inspection trip in Korea.

It was the first time in the Korean War that the U. S. chief of staff, the Far East commander and an Eighth Army commander had been together in Tokyo.

Taylor leaves for Korea in a day or two to take command of the Eighth Army from retiring Gen. James A. Van Fleet, who has had the job since April, 1951.

Collins said he would leave tomorrow on a quick tour of Japan's Northern defenses—both on the main island of Honshu and on Hokkaido, which lies only a few miles from Soviet territory.

Collins was brimming with enthusiasm over the Eighth Army. He particularly praised the ROK (Republic of Korea) Army.
