Demos To Sit In On Aid Discussion

WASHINGTON (AP)—Two Democratic governors who supported President Eisenhower in last November's election will sit in on a White House conference on federal aid policies on Feb. 26.

Sen. Taft (R-Ohio) said Gov. Allan Shivers of Texas and Gov. James F. Byrnes of South Carolina have been invited to the meeting, along with Gov. Alfred E. Driscoll, New Jersey Republican. All will be on hand as representatives of the Governors Conference.

Taft said the White House conference will discuss legislation to set up a special commission to study the relationship of state and federal governments, duplications in their services and a proposed division of tax revenues.

QUAKES

FINLEY, Tenn. (AP)—Two more minor earthquakes jarred houses and rattled dishes and windows in this Northwest Tennessee town yesterday. No damage was reported.

BUDDY POPPY GIRL — Actress Kathryn Grayson, above, has been chosen by the Veterans of Foreign Wars to be their Buddy Poppy Girl for 1953. Proceeds from the sale of the poppies go to disabled servicemen who make the artificial flowers.

Sabres Put Axe To Red Migs Today

By ROBERT B. TUCKMAN
 SEOUL (AP)—U. S. Sabre jets today destroyed at least seven Red MIGs jets, the U. S. Fifth Air Force reported.

The Sabres were screening a massive two-pronged strike against a Communist infantry and tank training school near Pyongyang, the Korean capital.

Today's seven boosted to 35 the number of MIGs reported destroyed or damaged in four days of fierce aerial fights. Of these, 14 were destroyed, 5 probably destroyed and 16 damaged.

Incomplete reports today said Sabre pilots shot down five MIGs deep over Northwest Korea and destroyed two more by out-manoeuvring them in swirling dogfight that produced the 36th ace of the Korean War.

The new ace is Capt. Manuel J. Fernandez of Miami. He was credited with two kills today. This confirmed total to six MIGs destroyed.

Two forces totaling 379 Allied fighter-bombers smashed the training school center at Kangso, directly west of Pyongyang.

Fifth Air Force and Marine planes rained more than 75,000 pounds of explosives on the target area in morning and afternoon strikes.

Pilots said their bombs touched off many secondary explosions, indicating direct hits on ammunition and fuel dumps. Numerous fires and hurled clouds of smoke into the sky. An estimated 139 buildings were destroyed.

There was little action along the icy-cold ground front. U. S. Eighth Army reported only brief skirmishes as temperatures plunged below zero all across the peninsula.

Mag Sought To Give Word of Illness

City Police are trying to locate a Grants Pass man, William Dehl, believed to be working in this vicinity, to give him a message from his wife.

The Dehls' son is ill at Grants Pass, and Dehl is asked to get in touch with his family.

Solons Lose Junket Okay

WASHINGTON (AP)—The House Rules Committee yesterday turned thumbs down on one proverbial congressional activity: global trips at public expense.

The policy-shaping group, which passes on what legislation should be submitted to the House, whacked from three committee investigative requests any authority to travel abroad. In approving bills giving investigative authority to the foreign affairs, armed services, labor, ways and means, and post office committees, it okayed services and foreign affairs overseas travel only for the armed groups.

"The lid is on junkets," explained Chairman Leo Allen (R-Ill).

Patrol Plane Tells Of Smoke From Volcanoes In Alaska's Katmai Park Area

KODIAK, Alaska (AP)—The crew of a U. S. Navy patrol plane told today how they flew through billowing black smoke and peeling ash spewed into the air in a mass eruption of volcanoes in the Katmai National Monument area.

The pilot, Lt. James T. Ingram, was flying over the Shelikof Strait, between Kodiak Island and the mainland, when a huge, black ball of smoke was seen rising into the air some 20 miles from the plane.

"It rolled up like smoke from an oil fire," Ingram said. "It went up about 15,000 feet."

Ingram said he circled to the left of the eruption and two minutes later a second cloud of smoke boiled up eight miles northeast of the first plume and moved close to it.

Merle Oberon Comes Out Of Retirement For T-V

By BOB THOMAS
 HOLLYWOOD (AP)—Merle Oberon is back before the Hollywood cameras after a five-year absence, but this time it's for television.

One of the screen's most noted beauties, Miss Oberon was making her second TV film, a Ford Theater drama for Screen Gems. So I dropped by the set to find out the why and wherefore of her absence from the local movie mills.

The answer has something to do with Howard Hughes, plus the death of romance on the screen.

"I have made pictures abroad," she explained. "In fact, I just finished one in Monte Carlo—'24 Hours in a Woman's Life.' But I haven't been able to do any pictures in Hollywood because I have been under contract to RKO for a picture a year.

"During the past three years I have been sent scripts, but they were the kind of thing you would expect from Howard Hughes. I turned them down, and the studio had to pay me (reportedly \$100,000 per year). Of course, the money was nice, but there were disadvantages, too. I was kept from doing other pictures in Hollywood."

Her absence from the Hollywoods was also due to the current film preoccupation with realism. The studios are too concerned with the rock-'em and sock-'em kind of picture to do anything sentimental.

"I think that's a mistake," commented Miss Oberon, who is identified with such romances as "The Dark Angel" and "Wuthering Heights."

"Hollywood is overlooking the female audience. After all, it's the woman who chooses the movies to see—or at least we like to think so. I should think a good love story would make a hit right now. The appeal is universal. I've done a lot of traveling in recent years, and I find people all over the world who remember 'Wuthering Heights.'"

The actress remarked that she is now considering a couple of movie scripts and intends to stay in Hollywood for a while. A British subject, she has applied for American citizenship.

"I have long intended to take out American citizenship papers," she said, "but the restrictions on travel have prevented me. I like to travel, but I would hate it if I couldn't come back here. I know how bad Charlie Chaplin and Orson Welles must feel." (Chaplin faces an immigration hearing if he tries to re-enter the U. S., and Welles is reported in tax difficulties.)

(Welles, appealed to the tax court in Washington last Sept. 18 against claims for back taxes amounting to \$24,302 for the year 1947.)

(The claim by the revenue bureau involves income from a corporation in which Welles and Rita Hayworth, then Welles' wife, had part ownership. The corporation had been formed after the release in June, 1946, of a picture called "Stranger." Welles, in his petition to the tax court, declared he owed the government nothing additional.)

(The case will be heard in Los Angeles but no date for the hearing has yet been set. Welles need not be in this country for the hearing of the case, which can be handled in his absence by attorneys.)

Sen. Ferguson Calls For Red Blockade

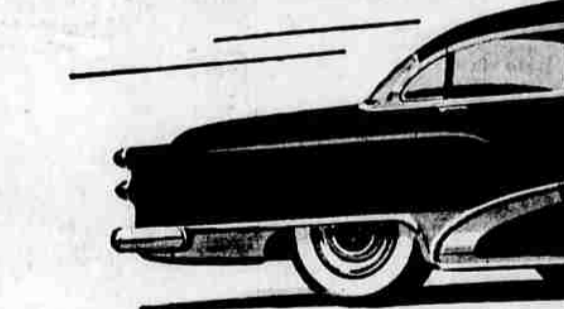

WASHINGTON (AP)—With or without the consent of its allies, Sen. Ferguson (R-Mich.) says, the U. S. should step up prosecution of the Korean War with a naval blockade of Red China.

"If Communist China and Russia come to the conclusion we can't win a war on a 150-mile front," Ferguson said last night, "they are apt to conclude, and so are our allies, that we don't know how to win a war, or fight a war."

But Rep. Roosevelt (D-N.Y.), debating Ferguson on a television program, said such a move could touch off World War III. Besides, he said, other countries are also wondering "why Russia and China are not winning this war on a 150-mile front."

EVEN THE MUFFLER DOES THINGS TO THE POWER

BACK in the old days, any man who wanted real performance used a "cutout" on his car.

It was a device that by-passed the muffler—because mufflers have always cut down on usable power. But it made a lot of noise.

Muffling that noise—and still getting rid of exhaust gases as fast as they come from the cylinders—has stumped the automobile people for years.

Now, Buick engineers have racked up another "first."

They have come up with a muffler of supreme quiet and zero power loss—first time in history.

It is called a dynamic flow muffler. And it is one of many advances that make the great 1953 Buick ROADMASTER even greater.

For this automobile—the greatest Buick in fifty great years—has a brilliant new V8 Engine that can turn up 188 hp. And every one of its horsepower can be delivered as usable power—since none is restricted in muffler passage.

As you would expect, there is more to this magnificent motorcar than power, great though it is.

There's a finer ride, better maneuverability, easier handling—now with Power Steering as standard equip-

ment, and Power Brakes optional at extra cost.

And there's the amazing new Twin-Turbine Dynaflow bringing quieter, jet-fast getaway to complete and utter smoothness.

Why not come in and see for yourself just how great the greatest Buick in half a century really is?
