WALL STREET
NEW YORK — Lower margin requirements Tuesday stimulated the stock market into a rousing advance.

The rally carried prices up to around 3 points at the most until profit-taking cut back the gains to between 1 and 2 points at the outside.

Trading volume was heaviest in the first hour when the tape was late and business amounted to 470,000 shares. For the entire day the total came to an estimated 2,300,000 shares, highest in around three months.

Big Spring Opening To Be Held

Klamath Falls downtown business

section will take on a carnival air next Tuesday evening. The Klamath Merchants Association in presenting the annual Spring Opening has arranged for a gala evening, featuring special window displays, some with live models, and band music.

The windows are to be unveiled at 7:30 p.m. and at that time the Klamath Union High School Band is to begin a progressive concert, moving from block to block up Main Street. While the band is playing in the center of a block, traffic will be closed in that particular block.

Each participating merchant is offering a valuable merchandise prize. These merchants are now passing out numbered tickets on request. When the windows are unveiled, a lucky ticket number will be shown by each firm and the holder of that ticket can claim a prize the following day. The tickets may be obtained at no obligation; it is not necessary to make a purchase to secure a ticket.

Walt Kennett, Miller's manager, is general chairman of the Spring Opening. Today he again urged merchants who have not yet done so to pick up their tickets at the Chamber of Commerce. The cost to the merchant is \$5 and this money is to go toward paying expenses of the KUHS capella choir to the Northwest Music Educators meeting in Bellingham next month.

Masons Get New Contract

PORTLAND (U.S.D.A.)—Portland area

AFL cement masons have a new hourly pay rate of \$2.43 an increase from \$2.43, the union business agent reported Monday.

The agent, C. V. Keller, said the contract was with the building division of Associated General Contractors Association and the Portland Home Builders. He said about 200 cement masons are affected.

Negotiations now are being opened, he said, with the heavy construction division of Associated General Contractors for rates on bridges, dams and similar projects.

New Zealand Beef Raises Big Beef

PORTLAND (U.S.D.A.)—Oregon butchers

were urged Monday to discourage the sale of imported New Zealand frozen beef.

H. A. Carlson, secretary of the Oregon Independent Meat Dealers Association, said butchers should promote the sale of beef from the Pacific Northwest. That will insure meat supplies in the future, he said.

The New Zealand beef appeared in several Portland markets last week and sold for 30 to 40 cents a pound until the supply was exhausted.

ROBERT Le ROY STEELE

KF Man In On Rescue

A Klamath Falls service man,

Robert LeRoy Steele, was a member of a crew of one of two USAF C-119s, mercy planes that flew emergency help to Holland, devastated in the recent tragic floods. Word of his participation on the missions was received this week by his parents, Mr. and Mrs. Frank Steele, 3704 Cannon Ave.

An unidentified buddy of young Steele was killed in the crash of one of the mercy planes near Wiesbaden, Germany.

Planes flew hundreds of shovels, donated by the Danish government from Copenhagen, made hundreds of sorties to drop food, clothing and life-saving equipment, sandbags, water and tarpaulins and evacuated one thousand Dutch residents stranded on an inundated island.

Young Steele participated in many of the flights. He has spent the past 1 1/2 years in Germany, making one trip by air during that time to the U.S. to return a plane to Germany. He called his parents from the East coast at that time.

Storms Pelt S. California

By The Associated Press

Rain, sleet and snow pelted areas over Southern and Southwestern States Tuesday but it was dry and mild over the northern half of the country from Wisconsin to New York.

Snowstorms whipped the mountain areas of Southern California while in the lowlands fairly heavy rain ended a 40-day winter drought.

There was a wide belt of precipitation from the Gulf through Texas northward into Kansas and southern sections of the South Atlantic States. A mixture of snow, sleet and rain was reported from Northern Texas into Kansas.

But snow measured up to 16 inches in some parts of the winter playground areas of the San Bernandinos (Calif.), mountains. Rainfall was general south of Fresno, Calif. The fall measuring about one-quarter inch at Los Angeles was the first in 40 days.

Strong winds accompanied the storms in California, with gusts up to 80 miles an hour in the northern part of the state. Some telephone lines were toppled and big military air transports were unable to land at Travis Air Base.

Spy Trial Carries On

WASHINGTON (U.S.D.A.)—Dr. Joseph

W. Weinberg, a key figure in a congressional investigation of atomic spying, was called to trial today on perjury charges based on his sworn denial he ever was a Communist.

The House UN-American Activities Committee, which at first referred to Weinberg only as "subject X," accused him of slipping atomic secrets to a Communist party functionary to be passed on to Russia. It questioned him in 1940.

A grand jury charged Weinberg lied to the committee in three instances.

1. When he said he had not been a member of the Communist party.

2. When he said he did not remember having known Steve Nelson prior to April 26, 1949, when Weinberg and Nelson were brought face to face by the committee.

Atomic Test Plans Laid

LAS VEGAS, Nev. (U.S.D.A.)—Preparations

are accelerating today for the March atomic test series at the Nevada Proving Grounds, with a threatened strike of security guards settled.

The Atomic Energy Commission announced reactivation of its radiation monitoring and warning system, used in tests last year to protect test personnel, nearby residents and distant areas.

Approximately 20,000 men of the armed forces will participate in this year's tests, which may bring the first "live" use of nuclear shells fired from the new 280-millimeter, 85-ton guns which have been demonstrated publicly, but with standard ammunition.

The strike threat by civilian security guards evaporated when one man, Wayne Hunter, who had been dismissed, was reinstated.

County Men Will Quit Pension Plan

A loosening of regulations of

the Oregon Public Employees Retirement System will allow several more employees of Klamath County to withdraw from the pension system Feb. 28, when most of the county workers get out.

Previously the regulation had been that persons who had reached their earliest retirement age could not withdraw, but had to stay in and take their pensions.

But a court ruling Feb. 19 has held that even persons reaching their earliest retirement age could withdraw if they wished.

There are 17 employees of Klamath County in that age bracket who wouldn't have been eligible to withdraw from the state system under the previous interpretation of the retirement act regulations, and 10 of the 17 had already expressed themselves as wanting to quit the state system.

In view of the new ruling, the director of the retirement system, Max Manchester, Salem, has notified County Clerk Charlie DeLap that the 17 persons of retirement age may again petition for withdrawal.

Presumably they will be released from the state pension plan Feb. 28 when the other county employees go off.

The intention of county employees is to seek to come under federal social security provisions, paying
