

Administration Takes Headed View That Dollar Only Way Out

ON—Secretary of Humphrey is keeping a silver dollar, old, put there by a adviser to look at the dollar had lost its buying power, and be a major objective of the new administration. Humphrey said the dollar is the rock on which to build a "freer economy" and the menace of inflation of the six immediate months set the dollar in its State of the Union. "A balanced budget," he said, "is the first step toward a freer economy."

Stand-By Controls Solons Aim

By EDWIN S. HAASINSON
WASHINGTON (AP)—A small bipartisan group of senators set out today to hand President Eisenhower's standby controls over the nation's economy—whether he wants them or not.
Two Democratic members of the Senate Banking Committee—Senators Frank P. La Follette of Idaho and Robert O. Anderson of Oregon—said in an interview they would push for the standby powers bill that Chairman Caperhart (R-Ind.) planned to introduce today.
It would allow the President or Congress to freeze all wages, prices, rents, credit and production of the nation almost instantly.
Intended for use in case of war or other emergency, the drastic freeze would apply for 90 days to give Congress and the White House time to work out whatever controls

might be needed for a longer period.
The move appeared certain to kick up a congressional battle. Senate Republican Leader Taft of Ohio has publicly served notice of his opposition to any standby controls. So has Chairman Wolcott (R-Mich.) of the House Banking Committee.
Eisenhower has said he sees no need to extend the present controls law, due to expire April 30. And he has indicated he will not ask for standby powers to control wages and prices.
A limited extension of rent ceilings, which also expire April 30, has been asked by the President to apply to critical military and defense centers that lack adequate housing. A request is also expected for extension of authority to allocate scarce materials needed for defense. That authority is due to expire June 30.
Sen. Robertson said the plan is to wrap up whatever extension of existing controls is asked by the Eisenhower administration in one package with the standby controls.
