**Leading Soviet Scientist Passes**  
 MOSCOW (AP)—Soviet papers today reported the death of Nikolai Sevastyanovich Derzhavin, a leading authority on Slavic culture. The 76-year-old member of the Presidium of the Academy of Sciences died in Leningrad after a long illness. Three of his scholarly works—"Origins of the Russian People," "Blaze in Ancient Times" and "Christo Botyev"—had been awarded Stalin prizes. Derzhavin was rector of Leningrad University from 1922 to 1925.

**KILLER SENTENCED**  
 MANILA (AP)—Ang Tul Choc, who shot and killed two crewmen in an effort to commandeer a transport plane Dec. 30, was sentenced to 19 years and eight months in prison Thursday for attempted murder of a high school girl.

**ARRIVES**  
 SAN FRANCISCO (AP)—The Navy transport Barren, newest and most luxurious vessel of the Military Sea Transportation Service, arrives today with 1,134 servicemen from the Far East.

She is shown center, receiving the achievement award from Vera Chase, selection committee chairman, Ada Sproat, president of Quota Club, at the left. Choice was made on basis of Mrs. Vitus' many hours of community service, including the blood bank, her outstanding success as campaign director for the March of Dimes, and her interest in all civic problems. —Photo by Floyd

## Britain Sees Firm Pound Basis Soon

**By FRANK O'BRIEN**  
 WASHINGTON (AP)—An informed source said today Britain has laid before the U. S. government proposals aimed at "real progress" toward making the pound sterling a freely convertible currency. The proposals, understood to be hedged with various protective devices, would need U. S. approval and co-operation to become effective. As outlined, they would include: A dollar fund to stabilize the pound, a plan for pegging prices of free world raw materials, and plans for tightening up on inflation in the British Commonwealth to give the pound a firmer value. The proposals were sent here in advance of next week's visit by British Foreign Secretary Anthony Eden and Chancellor of the Exchequer R. A. Butler, the source said. They were described as the heart of talks in which the British hope to lay a foundation for an enduring solution to their economic troubles. The British pound may now be exchanged for other currencies—converted, that is—only with the consent of the British government. Free convertibility, strongly urged by present U. S. fiscal leaders, would mean allowing free exchange of the pound, at least in current trade. Treasury officials tacitly acknowledged advance receipt of the British proposals, but would not discuss them. One ranking Treasury official said, however: "We have emphasized, and the British have agreed that these are exploratory, get-acquainted talks of an informal nature, and that there will be no firm or final commitments made." This was obviously designed to reassure France, Italy, Germany and the many other nations whose economies depend to a great extent upon American fiscal policy. British Prime Minister Churchill's pre-inaugural visit, with President Eisenhower in New York, caused widespread jitters about "the British getting in first." And the Eden-Butler visit, scheduled next Wednesday, has added to this. The source of the information about the British proposals had just returned from a foreign contact with world economic affairs, a signment which put him in contact with other officials, said Britain's proposals for "trade, not aid" shored closely to decisions of the December conference in London among prime ministers of the British Commonwealth nations.

## Nation Enjoys Fair Weather

**By The Associated Press**  
 Generally fair and comparatively mild weather was reported over most of the nation today. The U. S. Weather Bureau in Chicago said temperatures were above normal in nearly every section but some colder weather was on the way for north central areas. Below zero readings were in prospect for Northern Midwest regions tonight, with lows of 5 to 15 below forecast for Northern Minnesota. There were wet spots from Eastern Montana to Northern Maine early today. Light snow fell in Western South Dakota, Eastern Montana, in the Great Lakes region and in Northern Maine. Rain and snow showers were reported in Michigan, while showers hit areas in Western Washington and in the area around Brownsville, Tex.

## University Of Kansas Riots Flare

**KANSAS CITY (AP)**—A dispute over administration of the University of Kansas City has erupted into a campus-wide controversy, including student boycotts and revolt against the school's president. An estimated 500 of the university's 1,800 students voted at a mass meeting to boycott classes, at least until noon today when another mass meeting was scheduled. The Law School faculty voted an expression of "no confidence" in Dr. Clarence R. Decker, university president since 1938. Students circulated petitions declaring a "complete lack of confidence in Dr. Decker and university policies." President Decker said he believed the problem was twofold: 1. A struggle between personalities who have gotten on each other's nerves. 2. A struggle for power within the university. Resignation of four top school administrators Wednesday brought the dispute into the open. Decker termed the resignations a "palace revolution" and told a student mass meeting to judge him "with mercy and wisdom." He characterized the situation as "a family problem that has been tossed into the hands of the public."

## Russ Paper Hits Theater

**MOSCOW (AP)**—The Soviet government newspaper Izvestia complained today that the sound in bad in many new Russian theaters, concert halls and movie houses. They are being built without proper attention to acoustics, the paper explained. As examples, it cited Kalinin Dramatic Theater, completed just last year; a Stalingrad movie house where bass notes have to be tuned out because they reverberate for three seconds; Moscow's Tchaikovsky Concert Hall and the Red Army theater here. Demanding more attention to acoustics, the paper concluded: "Purely as are pure our feelings. Let our words resound as clearly as our thoughts are clear."

## Chance Recording of Song Hits Jackpot for Ex-GI

**By BOB THOMAS**  
 HOLLYWOOD (AP)—Home from a two-year stretch as an Army draftee, Richard Bowers settled down last month to civilian life in his home town, Vaux Hall, N. J. He got a job as a drill press operator in an electrical plant in the Newark suburb. He also applied for a civil service job with the government. Then things started popping. One day he came home from work, and his sister excitedly reported that someone had telephoned him from California. Dick thought it was merely one of the Army buddies he had known in Japan. But it turned out to be Fred Raphael of the Walt Disney music corporation. After a few minutes of conversation, Dick was on his way to fame and fortune. The 25-year-old Negro was lifted from obscurity because of a chance happening on the other side of the continent. A chaplain's assistant named Dean Taylor stepped off a naval ship with a record he had picked up in Japan. It was called "Gomen-Nasai!" ("Forgive Me"). The haunting, Japanese-shaded tune retells the tragic "Madame Butterfly" theme of an American serviceman who asks for a prime rib of— contract. The handsome singer's future life began to shape up. He signed a pact with Columbia Records for eight sides a year, unusual for a newcomer. Columbia Pictures flew him to Hollywood to sing "Gomen-Nasai" in a picture called "Mission Over Korea." When I talked with him here, he seemed to be taking his new life in stride. He is now caught up in a whirl of TV and radio appearances to plug the song. He said that he had sung before only on an amateur basis. He
