Talent Agents Give Up In Hollywood - Turn To Sweets

By BOB THOMAS
 HOLLYWOOD (AP) — "These are our new stars," said Harry Lipton, onetime agent for such divergent attractions as Marilyn Monroe and Lotte Lehmann, pointed at a showcase. It contained a mouth-watering display of English toffee, nougats, chocolate creams and a luscious raspberry caramel. These are the new clients for Lipton and his brother Leon, who have given up the bitter existence as talent agents for the sweeter things in life.

Boy Admits Slaying Two Young Girls

NEW CITY, N. Y. (AP) — A 10-year-old boy admitted today, authorities said, that he lured two little girl schoolmates into a woods and killed them.

The boy, Carleton Mason of New York City, denied he attacked the victims sexually but refused to tell his motive. Atty. John Skahan of Rockland County said.

Coroner M. J. Moore reported an autopsy showed the girls — Esther Nagy, 8, and Marjorie Boudreau, 8, both of New York City — were victims of sodomy.

Esther was stabbed to death and Marjorie died of a brain hemorrhage, caused by a blow on the head. The autopsy also showed evidence of strangulation in both cases, Moore said.

The Mason boy was a member of a searching party which found Marjorie's body Sunday night, several hours after she and Esther disappeared from the playground.

Harry recalled getting Miss Monroe her first film contract at 20th Century-Fox, then another one at Columbia. Later she fitted off to bigger agencies.

"I'm not bitter toward actors," he commented. "If I were in their position, I'd probably do the same."

Fatal Illness Truth Urged

LOS ANGELES (AP) — When a doctor discovers that a patient is fatally ill, should he tell him?

Yes, says Dr. Philip J. Vogel, even if the patient is neurotic or a chronic worrier.

"If you don't tell him," Vogel added, "he will develop an anxiety which is worse than the fear of death."

The present trend, Vogel said, is away from the policy of hiding the grim facts from victims of hopeless ailments. In nearly every case, he said, they will suspect that something is being withheld from them. As this suspicion grows, they will lose faith in the doctor and in all those around them who have been siding with deception.

Vogel, a Pasadena, Calif., neurologist, appeared yesterday on a panel discussing hopeless prognosis at the annual convention of the College of Medical Evangelists. He is head of the college's department of neurosurgery.

Complete candor does not necessarily require bluntness, he conceded, and patients can be told the truth in a kindly way which minimizes shock and leaves them with some measure of hope.

"Oddly enough, most patients do not advise us not stop fighting," he said. "Even neurotics have been known to lose their neuroses completely upon learning that they are going to die."

"There is an ethical as well as a medical reason for the truth," Vogel added. "A person fatally ill has the right to put his affairs in order and to adjust the rest of his life to his own liking. The average physician has found that the most difficult task in such cases is not handling the patient but handling the relatives. Relatives are inclined to insist that the truth be withheld."

The only cases wherein withholding the truth is justified are those of children, very old persons and persons mentally incapable of comprehending, he said.

Witness Tells Hospital Sale

TOPEKA, Kan. (AP) — A witness told state legislative investigating committee yesterday Wes Roberts, GOP national chairman, was selected to aid in selling a hospital building because he possessed special qualifications.

The building, located on the grounds of the State Sanatorium at Norton, was sold to the state in 1951. Roberts, in public relations work at the time, received an \$11,000 fee.

The Legislature appropriated \$110,000 to buy the building, which was erected by the Ancient Order of United Workmen.

Edgar Bennett, the fraternal order's president, told the committee:

"We had in mind certain qualifications. The man we picked should have standing and be of good repute. He should be well versed in the mechanics of government procedure."

He said Roberts "had been a newspaperman, had been Gov. (Payne) Rater's secretary and had been state Republican chairman."

The committee is seeking to learn whether Roberts acted as a lobbyist and if the state didn't already own the building since it was on state property.

Roberts has denied he acted as a lobbyist. He said he merely served as a public relations counsel for the fraternal organization.

Hollinan Faces Income Tax Counts

SAN FRANCISCO (AP) — Vincent W. Hollinan, 1952 presidential candidate of the Progressive party, and his wife said they would surrender to a U. S. marshal today on income tax evasion charges.

A federal grand jury yesterday charged Hollinan, 57, a millionaire attorney, and his wife evaded \$65,221 in taxes for the years 1948 through 1950.

Robert F. Peckham, assistant attorney general, said the government also will seek more than half a million dollars in civil liability penalties and interest.

Hollinan labeled the charges "harassment" by the government because of his political activities.

"We're going to fight," he said. "We don't owe them a nickel."

Stevenson Speaks In Tokyo Address

TOKYO (AP) — Adlai Stevenson called today for a community of free Asian nations to meet the challenge of communism in the Orient.

"What we Americans foresee," Stevenson told the Japan-American Society, "is not only a free world but especially a community of Pacific nations to balance the great free community of European nations."

Stevenson is visiting Japan as the first major stop on a four-month globe-circling tour.

Oil Company Sues Over Shipment

ROME (AP) — Britain's huge Anglo-Iranian Oil Company filed a new suit today asking Rome courts to determine the ownership of 8,000 tons of disputed Iranian oil brought to Italy by the tanker Miriella.

The case was handed to the Rome tribunal 24 hours after a Venice court rejected an AIOC request that Italian customs authorities continue to hold the oil brought from Abadan, Iran, by the 3,457-ton ship.

A spokesman for the British company, which claims all products from the Abadan refinery which Premier Mohammed Mossadegh's government seized under his 1951 oil nationalization program, described the Rome suit as "different and broader in scope" than the action in Venice.

GET VOTE MEXICO CITY (AP) — Mexican women are about to get the vote.

A constitutional amendment to give the distaff ballot has been ratified by 15 states—the number necessary to make it effective.

Lady Topkick Now Running Air Unit

SYRACUSE, N. Y. (AP) — About 450 airmen—most of them male—are taking orders from a woman atop kick and, the Air Force says, liking it.

Acting as first sergeant, pretty 23-year-old Elizabeth L. Kealy took over Tuesday in the headquarters section of the 32nd Air Division at nearby Hancock field.

How do subordinates take to the rule of the red-haired airman first class? In the words of Lt. Arthur Levitt Jr., Sylvania public information officer:

"Surprisingly enough, everyone seems to think very well of the idea."

DEDUCTIONS WASHINGTON (AP) — All medical and dental expenses would be deductible for income tax purposes, under a bill proposed today by Rep. Oliver P. Bolton (R-Ohio).

Under present law, a taxpayer may deduct only that part of his medical expenses which exceeds 5 per cent of his gross income.
